PART I

GENERAL.

Proceedings of the Government of Mysore,

No. 512-19—Mis. 57, dated, Bangalore, 8th July 1895.

Order.—The Government consider it very desirable that all applications for refund of the value of spoilt, &c., stamps should be disposed of with the least practicable delay. There seems to be a diversity of practice in Districts in this respect; in some, a tedious local enquiry is insisted upon in every case, while in other Districts an application of a similar kind is then and there disposed of, making oral enquiries of the applicant present.

2. The Government are of opinion that it is only in exceptional cases a local enquiry is necessary.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The Deputy Commissioners of Districts.

Read:—

Correspondence ending with letter, dated 12th September 1894, No. 951, from the Senior Surgeon, in regard to the continuance of payment for the interment of East Indian patients dying in the Saint-Martha's Hospital at Bangalore and in Government Hospitals in Mysore.

No. 1101-10—Mis. 153, Dated, Bangalore, 15th July 1895.

Order thereon.—It is observed that para 5 of the Senior Surgeon's letter of 12th September 1894, No. 951, is in accordance with the scale of fees fixed in the late Chief Commissioner's Proceedings, dated 29th January 1878, No. 9360—Gl. 234, except in the case of Europeans and Eurasians, for whom the additional sum of Rs. 7 recommended is presumably to provide for a cheap coffin in each case. The Government accordingly approve of the rates proposed, namely Rs. 9 each to Europeans or Eurasians, and Rs. 2 each to Natives; and direct that these charges should be met during the current year from savings in the Medical Budget, and that due provision be made for the same in the future annual Medical Budgets.

2. This order should also be held to apply to all deaths of patients in Local Fund Dispensaries and Government Hospitals, the charges in both cases being met from the provision above directed in the Medical Budget.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The Deputy Commissioners of Districts.
The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The Comptroller to the Government of Mysore.

Read:—

Letter No. 7, dated 2nd July 1895, from the Deputy Commissioner, Hassan, reporting that the idea of paying a subscription for constructing a building at Mysore City for the accommodation of the Representatives during the Dasara Meeting is very unpopular among the people, and recommending that the amounts collected, as per margin, may be returned.

		Rs.
Belur	... ...	190
Channarayapatna	... ...	260
Arkalgud	... ...	70
		520

No. 1461—Mis. 206, dated, Bangalore, 26th July 1895.

Order thereon.—The collection of any subscriptions from the people for the above purpose through the taluk officials was absolutely unauthorized, was in itself objectionable, and should never have been resorted to. Any proposed Chattram was left entirely to private enterprise, and the Government officials of the Hassan District should not have interfered in the matter in the way they have apparently

done. The Deputy Commissioner is referred to Dewan's replies, Subject No. 127, Dasara Assembly Proceedings of 1890. The order to the Deputy Commissioner of Mysore District, No. 4065-6—155, dated 4th July 1891, was intended to enable the Government to fulfil its promise of a free site. Orders of 11th September 1891 merely promised the members of the Assembly the first refusal of a specified site for their proposed Chattram.

2. The Deputy Commissioner of Hassan will forthwith direct every Amildar to stop further collection, and he should return the subscriptions reported to have been received to the subscribers, taking special care that such repayments actually reach the persons entitled to them.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The Deputy Commissioner of Hassan District.

Correspondence ending with letter No. 2489 of the 4th November 1893 from the Comptroller to the Government of Mysore.

No. 1521-35—Mis. 211, DATED, BANGALORE, 26TH JULY 1895.

ORDER THEREON.—The above correspondence relates to the entertainment, in the Huzur Treasury and Stamp Department, of the marginally noted three individuals who have passed the age of 25 years. The Comptroller has taken objection to the same. Under the circumstances the Government are pleased to sanction the appointment of the above individuals.

The following letter, No. 2879, dated the 25th July 1895, from the First Assistant to the Resident in Mysore :—

In order to save needless correspondence in connection with the adjustment of expenditure incurred in the repair of the Stations of the Great Trigonometrical Survey situated in the Mysore State, the Resident proposed to the Superintendent of Trigonometrical Surveys that in future a consolidated bill on this account might be obtained from the Darbar on the 1st of February every year and sent on to him for countersignature and eventual adjustment before the 31st March.

2. The Superintendent having now stated that there is no objection to the submission of one bill for the various Districts in the State, provided that the details for each Station are set forth therein, supported by the necessary vouchers, I am directed to ask you to be so good as to take the necessary steps for giving effect to the proposals referred to above.

No. 1665-72—Mis. F. 193-92, DATED, BANGALORE, 30th JULY 1895.

ORDER THEREON.—The foregoing communication is forwarded to the Deputy Commissioners of Districts for information and guidance.

2. They are requested to submit in future a bill of cost of repairs, if any, executed to the Stations of the Great Trigonometrical Survey situated in their respective Districts, so as to reach this office not later than the 20th of January every year.

JUDICIAL.

Proceedings of the Government of Mysore.

No. 35-68—J. 2, DATED, BANGALORE, 1ST JULY 1895.

ORDER.—As certain cases of infant marriages have lately occurred, contrary to the provisions of the Mysore Infant Marriages Prevention Regulation X of 1894, the Government are pleased to rule that it shall be the duty of all Revenue, Police, Magisterial and other Officers of the Government to report through their respective official superiors the occurrence of every such marriage within their respective jurisdictions, in order that the Government may be enabled to make the necessary enquiries and accord sanction to prosecutions under the Regulation above quoted.

Letter No. 1112, dated 20th March last, from the Deputy Commissioner, Bangalore, submitting a bill for Rs. 26 on account of fees, plus the cost of stamps, due to Mr. Public Prosecutor Rama Rao, for appearing on behalf of the Government in O. S. No. *62 of 1892 on the file of the District Judge, Nundydroog.

*Ramaswami Vs. the Amildar of Bangalore.

No. 121-54—J. 8, DATED, BANGALORE, 2ND JULY 1895.

ORDER THEREON.—In this case, the Public Prosecutor appeared on behalf of the Defendant on six different occasions, but the suit was withdrawn and dismissed. The Judge awarded only Rs. 3 as costs to be recovered from the Plaintiff. Mr. Rama Rao has, however, claimed Rs. 25 for his fees.

2. The Government are unable to admit the claim which is considerably in excess of the fee awarded by the Court and consider that, in such cases, a rule is required for general observance. They are pleased accordingly to direct:—

(1) that where the fee allowable by law to an Advocate is less than Rs. 16, the Government will allow that sum, as a special case, for prosecuting or defending a suit for or on behalf of the Government, without reference to the number of adjournments, in addition, of course, to actual costs incurred for stamps, Court fees, &c;

and

(2) that in the event of a 1st Grade Pleader instead of an Advocate being employed, the minimum fee under the same circumstances should be Rs. 10.

3. Mr. Rama Rao's bill will accordingly be passed for Rs. 17 (16 + 1) and transmitted to the Comptroller for audit.

Correspondence ending with letter, dated 18th June 1895, from the Honorary Secretary, South Mysore Planters' Association.

No. 977-1011—J. 91, DATED, BANGALORE, 17TH JULY 1895.

ORDER THEREON.—The Honorary Secretary of the above Association enquired on the 22nd May 1895 whether, under Rules 1 and 2 of the Rules issued under the Mysore Arms Regulation, 1890, the transport of ammunition belonging to exempted persons by coolies would be allowable.

2. The Government are pleased to rule that a person licensed to possess arms, ammunition or military stores, or who is exempted from the liability to take out such a license, is entitled to transport to his residence from the premises of a licensed dealer, arms, ammunition or military stores without a separate transport license, so long as the articles purchased are in reasonable quantity and for his own use. A cooly carrying a packet properly secured and addressed to an exempted person, so long as he travels with it on the direct route from the licensed dealer's premises or a railway station to the residence of such exempted person, will be held to require no license, provided that the exempted person is responsible for the conduct of the cooly he employs, and that the cooly himself does not deviate from the direct route.

READ :—

Correspondence ending with the Senior Surgeon and Sanitary Commissioner's letter No. 106. dated 9th July 1895.

With reference to your No. 280—J. 24 of the 2nd instant, and the Government order referred to therein, I have the honor to state that the medical duties at the Gold Fields are such as can be efficiently performed by a good Hospital Assistant, and an officer of the status and pay of an Assistant Surgeon is not needed for their performance; and that locating an officer of the rank of Assistant Surgeon at the Gold Fields for the purpose of meeting the requirements of investigations in connection with cases of unnatural deaths would be waste of money, as these cases are comparatively few.

2. These requirements would, in my opinion, be efficiently met by summoning by express the Assistant Surgeon from Kolar to make *post-mortem* examinations in cases of unnatural deaths so as to enable him to give evidence at inquests; and if there should be any difficulty about performing examinations at the Mining Companies' Hospital the bodies could be removed for examination to the Dead House attached to Government Dispensary which is close by.

3. If Government approve of this the Assistant Surgeon at Kolar will be directed to consider calls from the Magistrate or authorized Police officiat at the Gold Fields to make *post-mortem* examinations in cases of unnatural deaths occurring at the Fields as very urgent, and to answer them as speedily as possible.

4. And further the Assistant Surgeon at Kolar will be directed to inform the Magistrate at the Gold Fields of the dates of his departure from and arrival at head quarters whenever he may have to proceed into the district or elsewhere on duty, &c., so that the Magistrate in such cases, when the services of the Kolar Assistant Surgeon cannot be procured in time, may be able to wire to the Senior Surgeon to Bangalore and have an Assistant Surgeon sent out to him by the next train.

No. 1225-8—J. 130, DATED, BANGALORE, 17TH JULY 1895.

ORDER THEREON.—The Government are pleased to approve of the suggestions made by the Senior Surgeon and Sanitary Commissioner. The Hospital Assistant in charge of the Government Hospital at the Kolar Fields should ordinarily conduct *post-mortem* examinations on dead bodies in cases of accidental deaths occurring in the mines or in the Gold Fields; but when inquests are required to be held on the dead bodies of Europeans, or on special occasions in which it is necessary for the ends of justice to have the *post-mortems* held by a Medical officer of a higher standing, the Assistant Surgeon at Kolar should be telegraphed for as proposed by Brigade Surgeon-Lieutenant-Colonel McGann.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The Deputy Commissioner, Kolar District.
The Special Magistrate, Kolar Gold Fields, for communication to the Mining Board.
The Registrar of the Chief Court of Mysore for information.

Letter No. 1057—342-86, dated 22nd March 1894, from the 1st Assistant to the Resident in Mysore to the Dewan of Mysore.

Inconvenience having been felt by the existing arrangement under which persons supposed to be of unsound mind are sent by the Magistrates in the Civil and Military Station of Bangalore to the Bowring Civil Hospital and detained for observation, I am directed to enquire whether the Darbar see any objection to such persons being sent for observation to the Central Jail or the Lunatic Asylum at Bangalore as the Darbar may consider suitable.

2. There is at present neither a Jail nor a Lunatic Asylum in the Civil and Military Station, and prisoners and lunatics belonging to the said Station are, under arrangements agreed upon, confined in the Central Jail, and the Lunatic Asylum at Bangalore belonging to the State.

3. The maintenance charges of the persons thus sent will be adjusted in the same manner as the cost of the lunatics detained in the State Asylum.

Letter No. 18365—J. 1293, dated 26th April 1894, to the 1st Assistant to the Resident in Mysore.

With reference to your letter No. 1057—342-86 of the 22nd March 1894, I am directed to state that the Darbar have no objection to persons supposed to be of unsound mind being sent by the Magistrates of the Civil and Military Station of Bangalore for observation to the Central Jail or to the Lunatic Asylum at Bangalore.

Letter No. 1662—342-86, dated 11th May 1894, from the 1st Assistant to the Resident in Mysore to the Dewan of Mysore.

I am directed to acknowledge with thanks the receipt of your letter No. 18365—J. 1293, dated the 26th April 1894, stating that the Darbar have no objection to persons supposed to be of unsound mind being sent by the Magistrates in the Civil and Military Station for examination to the Lunatic Asylum at Bangalore.

2. A copy of a Notification issued by the Resident in this connection is enclosed, and I am to ask that the necessary orders may be kindly issued to the Superintendent of the Lunatic Asylum to receive and detain in the Asylum, persons sent by the Magistrates in the Civil and Military Station for observation.

THE RESIDENT IN MYSORE, NOTIFICATION No. 1661—342-86, DATED, BANGALORE, THE 11TH MAY 1894.

The Superintendent of the Lunatic Asylum at Bangalore is, with the consent of the Government of Mysore, appointed to be the Medical officer to whom accused persons should be sent by the Magistrates in the Civil and Military Station of Bangalore, under Section 464 of the Criminal Procedure Code, for examination as to unsoundness of mind.

Letter No. 2459—342-86, dated 20th July 1895, from the 1st Assistant to the Resident in Mysore to the Dewan of Mysore.

I am directed to enquire whether persons supposed to be of unsound mind within the limits of the Bangalore City are detained in the Central Jail at Bangalore for observation under Rule 5 of the rules for the reception and detention of lunatics in Mysore, published in page 205 of the Mysore Gazette, dated 8th August 1874, and, if so, whether the Darbar will allow of such persons from the Civil and Military Station being also detained there for observation, the cost of their maintenance being adjusted in the same manner as that of the lunatics of the Civil and Military Station confined in the State Asylum.

Letter No. 13159—J. 759, dated 28th February 1895, to the 1st Assistant to the Resident in Mysore.

In continuation of my letter No. 12563—J. 714 of the 16th instant, I am directed to forward copy of the letter received from the Inspector General of Prisons regarding the place of detention, during medical observation, of persons of unsound mind belonging to the Civil and Military Station of Bangalore, and to state that the Darbar concur in the views expressed by that officer, namely, that it would be convenient to send the supposed lunatics found within the limits of the Civil and Military Station to the Lunatic Asylum in the City, instead of to the Central Jail, if it is found impracticable to detain them in the Bowring Civil Hospital which is the nearest Civil Hospital contemplated by Rule 5 of the rules relating to lunatics, dated 31st July 1874. On your intimating the wishes of the Resident the necessary instructions will be issued to the officer in charge of the Lunatic Asylum.

Letter No. 831, dated 23rd February 1895, from the Registrar to the Inspector General of Prisons in Mysore to the Chief Secretary to the Dewan of Mysore.

With reference to your letter No. 12564—715, dated 16th instant, enquiring whether there is any objection to persons supposed to be of unsound mind, within the limits of the Civil and Military Station of Bangalore being received and detained in the Bangalore Central Jail for observation under Rule 5 of the rules for the reception and detention of lunatics, dated 31st July 1874, and what has been the practice with regard to persons similarly circumstanced in the City of Bangalore, I am directed to append in the margin for ready reference a copy of the said rule, as amended by Notification No. 196, dated 4th August 1891, from which it will be seen that, as there is a Lunatic Asylum in the Petta or City of Bangalore, it is incumbent on Magistrates at that place to send a lunatic to the Lunatic Asylum for observation. It is only in those places where there are no Lunatic Asylums established that the Magistrates, acting under the provisions of the said rule, may direct the detention of a lunatic in the nearest Jail or the Civil Hospital.

"Whenever under Sections III and IV, a person deemed to be a lunatic is brought before a Magistrate who holds his Court at a place where no Lunatic Asylum is established, such Magistrate may direct his detention in the nearest Jail or the Civil Hospital, pending the result of the enquiry required to be made under these rules and of observation by a Medical officer, and he shall, before sending such person to a Lunatic Asylum, take some medical evidence to show that such person is a lunatic and a fit person to be kept in a Lunatic Asylum under care and treatment."

2. The Superintendent of the Central Jail reports in his No. 1078, dated 21st instant (copy annexed), that lunatics of the Bangalore City are received and detained either at the Hospital or at the Lunatic Asylum, and not in the Central Jail. Under these circumstances the Inspector General is of opinion that, if it be found inconvenient to detain the supposed lunatics of the Civil and Military Station in the Bowring Civil Hospital for care and treatment when under observation, they may be sent to the Lunatic Asylum in the City of Bangalore.

Letter No. 1104—342-86, dated 25th March 1895, from the 1st Assistant to the Resident in Mysore to the Dewan of Mysore.

Reverting to your letter No. 13159—J. 759, dated the 28th February 1895, I am directed to state that a reference is being made to the Government of India on the subject of the reception in the Mysore State Asylum of lunatics sent thither by the Magistrates in the Civil and Military Station of Bangalore under the rules for the reception and detention of lunatics (published in page 295 of the Mysore Gazette of the 8th August 1874) as applied to the said Civil and Military Station, and meanwhile I am to convey the thanks of the Resident to the Darbar for their courteous compliance in this matter.

Letter No. 2045, dated 7th June 1895, from the 1st Assistant to the Resident in Mysore to the Dewan of Mysore.

Reverting to your letter No. 13159-J. 759, dated the 28th February 1895, and in continuation of my letter No. 1104—342-86 of the 25th March 1895, I am directed to state that the Resident proposes to issue the accompanying Notification which will enable him to send legally to the Mysore State Lunatic Asylum in the City of Bangalore, the lunatics covered by the rules published under the late Chief Commissioner's Notification No. 141, dated the 31st July 1874, and made applicable to the Civil and Military Station of Bangalore with the modifications shown in the memorandum attached.

2. Under Rule 2 of the rules in question, as applied to the Civil and Military Station, the Resident proposes to adopt the rules of management prescribed by the Darbar, and to appoint the 1st Assistant Resident, the Collector, Civil and Military Station, and the Residency Surgeon, to be the visitors in respect of the lunatics from the Civil and Military Station.

3. I am to ask you to favor the Resident with an early expression of the views of the Darbar in the matter, and to furnish this office with a copy of the rules of management now in force in the Asylum.

Modifications with which the rules published under Chief Commissioner's Notification No. 141, dated 31st July 1874, are made applicable to the Civil and Military Station of Bangalore.

* * * * * *

For the words "Chief Commissioner" and "Judicial Commissioner" wherever they occur read "Resident in Mysore."

For Rule 1, substitute the following:—

The Resident in Mysore may, with the previous sanction of the Government of India, establish an Asylum for the reception and detention of lunatics in the Civil and Military Station of Bangalore, or appoint the place or places which shall be used as such.

In Rule 12, for the words "any Lunatic Asylum established within the Mysore Province" read "the Lunatic Asylum established or appointed under these rules."

In Rule 15, for the words and figures "Chapter 31 of Act X of 1872" read "Chapter 34 of Act X of 1882."

Letter No. 361—J. 36, dated 3rd July 1895 from the General Secretary to the Government of Mysore to the 1st Assistant to the Resident in Mysore.

In acknowledging your letter No. 2045, dated 7th ultimo, I am directed to state that the Darbar have no objection to the Resident issuing the proposed Notification, in order to enable him to—

(1) send legally to the Lunatic Asylum in the City of Bangalore the lunatics of the Civil and Military Station, and

(2) to appoint the 1st Assistant Resident, the Collector of the Civil and Military Station and the Residency Surgeon as official visitors of the Asylum so far as the Civil and Military Station lunatics are concerned.

2. As regards the rules of management a copy of the Senior Surgeon's letter No. 185, dated 22nd ultimo, is enclosed, stating that the general rules laid down under Section XVII, Madras Medical Code, Vol. II, pp. 70 to 97 are observed in the management of the Asylum, and that the late Chief Commissioner's Rules of 1874 and Sections 464 to 475 of the Criminal Procedure Code are followed regarding the reception and detention of lunatics. These are not forwarded now under the impression that they are already available at the Residency.

3. No separate rules have been issued by the late Chief Commissioner under the provisions of Section 2 of the Rules, dated 31st July 1874; and if deemed necessary, the observance of the Madras Rules referred to by the Senior Surgeon may be legalized by sanctioning their adoption under the said Section.

Letter No. 185, dated 24th June 1895, from the Senior Surgeon with the Government of Mysore, to the General Secretary to the Government of Mysore.

In reply to your No. 23709—J. 1440 of the 20th instant, I have the honor to inform you that the general rules laid down under Section XVII, Madras Medical Code, Vol. II, pp. 70 to 97, are observed in the management of the Asylum, and that as regards reception and detention of lunatics, the late Chief Commissioner's rules of 1874, and Sections 464 to 475 in the Criminal Procedure Code, are in force.

Reverting to correspondence ending with your letter No. 361—J. 36, dated the 3rd instant, I am directed to forward copies of the papers noted on the margin, and to request that the necessary instructions may be issued to the officer in charge of the Lunatic Asylum at Bangalore in the matter of the reception and detention in that Asylum of lunatics sent from the Civil and Military Station of Bangalore.

2. I am to ask that the Madras Medical Code, Volume II, referred to in para 2 of your letter cited above may be kindly sent for reference and return.

THE RESIDENT IN MYSORE, NOTIFICATION No. 2739, BANGALORE, 19TH JULY 1895.

Whereas certain rules for the reception and detention of lunatics in Asylums were made under the authority of a notification of the Chief Commissioner of Mysore, No. 141, dated the 31st July 1874, and the same were afterwards amended and were confirmed as amended by a letter of the Government of India, No. 3831 I, dated the 27th October 1886, and such rules, as so amended and confirmed, are now in force in the Civil and Military Station of Bangalore.

And whereas by the first of such rules the Resident in Mysore is empowered, with the sanction of the Government of India (amongst other things), to appoint a place or places which shall be used as an Asylum for the reception and detention of lunatics.

And whereas the Lunatic Asylum in the City of Bangalore in the territories of His Highness the Maharaja of Mysore is a convenient place to be used as such an Asylum, and the Government of Mysore have consented to its use as such and have further consented that all the said rules as so amended and confirmed as aforesaid shall be in force and observed in the management of the said Asylum.

The Resident in Mysore, with the previous sanction of the Government of India and the consent of the Government of Mysore, is pleased to appoint the said lunatic Asylum to be a place for the reception and detention of lunatics under the rules aforesaid.

Under the provisions of clause 2 of the rules aforesaid, and with the consent of the Government of Mysore, the Resident in Mysore is further pleased to appoint the undermentioned gentlemen as visitors for the said Asylum so far as the patients belonging to the Civil and Military Station of Bangalore are concerned.

The 1st Assistant to the Resident in Mysore.

Letter No. 28, dated 8th July 1895, from the Deputy Commissioner of Tumkur, detailing the circumstances under which the late Deputy Commissioner Mr. Venkatvaradiengar had recommended in his D. O. letter dated 9th November 1894 to the address of the Chief Secretary an honorarium of Rs. 100 to Mr. Knight, then Police Assistant Commissioner of the District, for conducting the prosecution against the Shroff of Tiptur.

No. 1342-50—J. 149, DATED, BANGALORE, 19TH JULY 1895

ORDER THEREON.—The Government are of opinion that the claim for remuneration is quite untenable. Mr. Knight was Police Superintendent at the time, and it was clearly part of his duty to prosecute in important criminal cases whenever required to do so.

SIR,

I AM directed to forward, for the information of His Excellency the Governor in Council / His Honor the Lieutenant-Governor / your information a copy of the papers marginally noted, containing an account of the Bertillon system of anthropometry, which has been introduced into the jails in Bengal, as a means of identification of old offenders by the Police. I am also to enclose a copy of the orders of the Madras Government, dated 2nd May 1892, Nos. 825-26 (Judicial), from which it will be seen that it has been decided by that Government to introduce the same system into the jails of the Madras Presidency. I am to say that the Governor General in Council will be glad if His Excellency the Governor in Council / His Honor / you will consider whether similar action should not be taken in the Bombay Presidency / the Punjab / Assam, &c.

Letter from the Government of Bengal, No. 199-J. D., dated the 1st June 1892, and enclosures (except Plates Nos. I to VII).

2. Spare copies of Plates Nos. I to VII, referred to in the rules framed by the Inspector-General of Police, Bengal (a copy of which will be found among the enclosures of the letter from the Bengal Government), have not been furnished to the Government of India; but I am to suggest that the Bengal Government should be addressed concerning them, as well as for any further information regarding the instruments that may be considered necessary.

I have the honor to be,
SIR,
Your most obedient Servant,
P. G. MELITUS,
Offg. Deputy Secy. to the Govt. of India.

No. 199-J. D., dated, Darjeeling, the 1st June 1892.

From—H. J. S. Cotton, Esq., C.S.I., Offg. Chief Secretary to the Government of Bengal, Judicial, Political and Appointment Departments.

To—The Secretary to the Government of India, Home Department.

With reference to your letter No. 263, dated the 10th May 1892, regarding the introduction of the anthropometric system for the identification of criminals, I am directed to submit, for the information of the Government of India, the accompanying copy of a letter from the Inspector-General of Police, No. 25229, dated 22nd December 1891, and of its enclosures on the subject, and to say that a grant of Rs. 2,000 has been sanctioned by the Lieutenant-Governor for instruments required for the purpose.

2. This report furnishes full details of the introduction of the system. Further information will, however, be supplied in due course and it is understood that Mr. Henry has already effected many improvements upon the scheme as originally introduced.

No. 25229, dated, Calcutta, the 22nd December 1891.

From—E. R. Henry, Esq., C.S., Offg. Inspector-General of Police, Lower Provinces.

To—The Chief Secretary to the Government of Bengal.

I have the honor to submit, for the consideration and orders of Government the following better proposal for the identification of old offenders.

2. The following system is at present in vogue:—

(*a*) A register is kept at police stations, in which are recorded the names and description of all persons living in the station circle who have been convicted of cognizable offences under the Penal Code (with a few exceptions), and under certain special and local laws. When a person accused of any of the above offences is sent for trial, this register is searched by the police, and the result of the search noted on the back of the charge sheet.

(*b*) A descriptive roll is at the same time prepared, and a copy attached to the charge sheet, of every person sent for trial charged with a non bailable offence.

(*c*) Every conviction of an offence which on repetition may, under section 75, Penal Code, be punished with an enhanced sentence, is under the orders of the High Court registered by a Magistrate in each sub-division and communicated at once to the Magistrate of any other district in which the home of the convict may be situated, and monthly to the Magistrate of the district in which the conviction took place. A general index for all sub-divisions is prepared annually at the head-quarters of each district, and a copy sent to each sub-division. These indices are consulted by Court officers whenever a prisoner charged with any of the offences in question is sent for trial.

(*d*) If the name and antecedents of the accused person are unknown, a remand is applied for, his descriptive roll is published in the *Police Gazette*, and his photograph taken by a photographer attached to this office and circulated to Superintendents of Police and Central Jails in the hope of identification.

(*e*) Every Sunday all police officers happening to be at the head-quarters of each district visit the jail and look out for old offenders among the under-trial and other prisoners.

(*f*) If an accused person is suspected of belonging to a well-known criminal tribe, such as the Barwars of Gonda, a local police officer is brought down and confronted with the accused.

3. This and the off-chance of a recognition by warders during incarceration is the whole system of identification at present practised in Bengal. It is mani-

restly imperfect, for dependence has to be placed on unscientific descriptions of features and other peculiarities of person often difficult to describe accurately or liable to change with the fluxion of time.

4. The system, moreover, is a district and not a provincial one, consequently homeless thieves, of whom there are many thousands in Bengal, and who move from district to district supporting themselves by crime, are almost entirely beyond its reach. A *Nat* caught stealing in, for instance, Bhagulpur, and bearing unmistakable marks of whipping may yet defy the police to discover his antecedents, if only he persist in meeting interrogation with discreet silence or glibly-told lies such as folk of his kind have always at command. If a reference be made to other districts, it will probably be found that in each, at some period within the past few years, a man has been convicted and punished under the name given, but the descriptions recorded are imperfect, and the recollections of warders too hazy to admit of satisfactory identification. The upshot usually is that the man escapes with a sentence, quite inadequate to his deserts, and spends his short term of imprisonment in a district instead of a central jail, whereby the remaining chance of recognition by warders is reduced to a minimum.

5. In illustration of the extent to which failures of justice of the above kind prevail, I may mention that Mr. Fasson, District Superintendent of Police, after a lengthy enquiry made with the assistance of a special officer, recently reported that of 351 members of a tribe called 'Bhatu' which infests the northern districts of Bengal, and especially Dinajpur, convicitons had been traced against 222 and more than one conviction against 58. Yet section 75, Penal Code, had been used only five times. Several of these Bhatus had been convicted frequently. One Guru Dayal was imprisoned for three years and eight months under section 379 in 1873. He was subsequently convicted seven times under various *aliases* in seven different districts, for graver offences, each time receiving a lighter sentence than the first.

6. The fact was established to Mr. Fasson's satisfaction that the whole tribe is criminal and does not owe its record of convictions to the depravity of individual members. Even the women 'take a very active part in concealment of stolen property and obstructing the police.' Mr. Fasson estimated the number of Bhatus in Bengal at one or two thousand.

7. Besides the Bhatus there are numerous other equally criminal tribes at work in Bengal, *e.g.*, Maghaya Doms of Champaran and Saran and the Nepal Terai, the Kururias of Purneah and other northern districts, the Bedyas of Nuddea and Jessore, the Shandars of Pabna and Mymensingh, the Tooteas of Midnapur, and many other local tribes, to say nothing of criminal visitors from the Upper Provinces, such as the Barwars of Gonda, of whom no less than 896 have been convicted, and 30 more than once convicted under their own names or *aliases* in Bengal since 1880.

8. Most of the above are wandering criminals having no fixed homes, though they may have a rendezvous or head-quarters for a time in a particular locality. But even in the cases of professional criminals who have fixed residences, the difficulties the police have to contend with in establishing identity are very great, and where their enquiries are successful, it is often at the expense of numerous remands, much correspondence, and considerable outlay in sending about the accused or persons likely to recognize him.

9. With a view to ameliorate this state of things, the aid first of a *Police Gazette* and afterwards of photography was invoked. The *Police Gazette* has proved a very useful publication and has justified its existence in many ways. In the matter of identification of criminals it has perhaps been least useful, for the reason already given that unscientific descriptions of persons cannot be depended on. In 1890 the number of unknown prisoners whose rolls were published was 124, and of this number only a small fraction was identified by means of the *Police Gazette*.

10. In 1882 a photographer was attached to this office, whose duty it is to photograph criminals unidentified or liklely to revert to crime. Up to date 1,728 persons have been photographed, of whom only 68 have been identified by means of their portraits. Excluding the prime cost of the apparatus, the average cost per dozen *cartes* has been rather over Rs. 12. The shortcomings of photography are thus described by Dr. Monat, late Inspector-General of Jails in Bengal:—"Although more exact than any other method, * * it has failed either to be reliable, or on the large scale manageable. Individuals not only undergo subtle changes of feature and form as age advances, and expression, on which so much reliance was once placed, can be so completely changed by a clever culprit, that however completely the fleeting impression produced by any of the instantaneous processes now known can be fixed on the negative, it often fails to secure the certain recognition on which alone absolute reliance can be placed. * * * Photography, therefore, is now relegated (in France) to a secondary position, and only used as an aid to identification established by other means.

11. I do not, however, propose to dispense altogether with photography, as if used with discrimination, it is, and will continue to be, a useful auxiliary. It is especially useful in the case of criminals who ply their calling openly, and who, without being arrested, give their victims a chance of recognizing them. Such are professional poisoners, utterers of base coin, railway pickpockets, and cheats of various kinds. In these cases we often feel sure that the offence is the work of an old hand; we have the victim to identify him yet the trouble and expense of bringing all the known criminals of the particular class before the complainant is prohibitive. Here photography is in its element. The portraits are shown to the injured man, and even if he fail to recognize among them his injurer, the field of enquiry is narrowed.

12. About the time that we were introducing photography, the French police, dissatisfied with it except as an auxiliary method, were experimenting on anthropometry or a new and scientific system of measuring certain bony and, after maturity, immutable portions of the human frame, invented by M. Bertillon. The system is described in the following illustrated rules applicable to Bengal, which have been altered from time to time as our experience has increased. I am indebted to Mr. Giles, Deputy Inspector-General of Police, for the compilation of these rules, which are now as perfect as it is in our power to make them. As these measurements have been used for seven or eight years in France with signal success, 1,500 identifications having been established by their means up to August 1887 without a single failure, and as the system has been strongly commended by the British Ambassador at Paris, and Dr. Monat (*vide* the Journal of the Anthropological Institute of Great Britain and Ireland, Volume XX, No. 2), I have no hesitation, after careful study on the spot, in recommending its adoption in Bengal.

13. At first I would confine the system to P. R. convicts, numbering about 5,000 in all, and to suspects in or out of jail, whose homes and antecedents are unknown. The total number of these two classes, which include of course wandering gangs of suspected thieves, may be roughly estimated at from 10,000 to 15,000, including the town of Calcutta. Later on it may be found desirable to include three times that number or even more, for it is not of course only persons of these two classes who repeat offences, and the only way to ensure all previous convictions being proved is to measure every person convicted. In France upwards of 130,000 persons have been measured.

14. The following is the manner in which I would work the system: the Sudder Court officer of every district should be skilled measurer and be supplied with a set of instruments and instructed to act, under the orders of the District Superintendent, in accordance with rules (1) to (3).

15. In the case of persons awaiting trial at sub-districts, either the instruments would be sent to the sub-districts, or the accused to the sudder, whichever might be found most convenient.

16. A set of instruments should also be supplied to each central jail, and a skilled measurer be appointed to test the entries on the P. R. slips [*vide* rule (3) (*a*)] as each convict is admitted, and to remeasure convicts about to be released. If competent and trustworthy officers of the Jail Department cannot be found to undertake this duty, a police officer would have to be attached to each central jail for the purpose.

17. A set of instruments would also be supplied to each of the three Inspectors of my Reserve, to the two Special Sub-Inspectors, and to the photographer. These six officers would be availabe for measurig such criminals at large as can be readily got at, *e.g.*, the Maghaya Doms, the Bedyas, gangs from up-country suspected of making periodical visits for criminal purposes, etc., et c In the case of the Barwars and other tribes registered in the Upper Provinces under the Criminal Tribes Act, the police of those Provinces would no doubt give assistance.

18. The cost of the three instruments shown in Plate I, which alone are necessary, is in Calcutta, including a box to keep them in, about Rs. 23-10 per set. The cost of all the sets required would therefore be as follows :—

	Rs.	A.	P.
48 sets (1 for each district, including railways) at	1,134	0	0
7 „ (1 „ central jail)	165	6	0
6 „ (for the Inspector General's office)	141	12	0
Total ...	1,441	2	0

19. There would besides be the cost of an almirah (Plate IX) in which to keep the roll-cards in the central office, and the cost of the cards themselves. To meet all these charges, I ask sanction to an expenditure of Rs. 2,000. The roll-cards would take the place of, and not be an addition to, the descriptive rolls now in use. They are simpler, and on the whole easier to prepare, yet contain more information, and will save a good deal of trouble. It is not imperative that they shall be produced as evidence of identity. They may at first be used merely to facilitate the finding of the evidence required by law to prove a previous conviction. The accuracy of the system has, however, been placed beyond doubt by the experiences of the French police, and, on a smaller scale, of ourselves. It can be demonstrated mathematically that the chances of a mistake due to coincidence of measurements are exceedingly small. I have ascertained by careful experiment that among 1,000 persons the greatest number of identical measurements under each of our six heads is as follows :—

Length of head	140	or $\frac{1}{7}$ nearly.
Width „ „	175	„ $\frac{1}{6}$ „
Length of middle finger	153	„ $\frac{1}{7}$ „
Length of forearm	54	„ $\frac{1}{15}$ „
Length of foot	80	„ $\frac{1}{12}$ „
Height	61	„ $\frac{1}{16}$ „

Accepting these data and applying the inverse or inductive method, the probability that all six measurements will agree in any two individuals is $\frac{1}{6} \times \frac{1}{7} \times \frac{1}{6} \times \frac{1}{15} \times \frac{1}{12} \times \frac{1}{16} = \frac{1}{870,912}$, or 870,911 to 1. If, perchance, two criminals should be found whose measurements agreed, we should still have a *quasi*-scientific description of marks, scars, and peculiarities of person; and in the case of important criminals, the further aid of photographs by which to establish their identity. The probability of all these means failing us is indeed infinitesimal.

20. The scheme would be introduced gradually, only persons believed to be actually engaged in crime or likely soon to betake themselves to it being measured, and must not of course be expected to bear immediate fruit. Anthropometry took several years to establish itself on firm ground in France, and even with the advantage of the experiences of the French police we must not look for results for a year or so.

21. I have satisfied myself by careful experiment that there are no insuperable difficulties about it. Thirty-four police officers of various districts have already been put through a course of instruction, and have qualified themselves

to measure accurately. Among them are nine who have measured a large number of prisoners and become skilful at the work—their measurements rarely varying by more than one millimetre, and being in every respect trustworthy. Several gazetted officers have also learnt the system.

22. The total number of prisoners measured up to the 31st October is 1,649,* and the nominal cost of measuring them including the salaries of the police officers employed, but exclusive of travelling charges, which were small, was at the rate of Rs. 14-5-2 per 100.

BENGAL POLICE.

Anthropometry.

Instructions for District Superintendents.

(1) When the real name, residence, and antecedents of a person convicted of, or about to be tried for, an offence rendering him liable to be registered in class (*b*) or (*c*) at a police-station are unknown, the District Superintendent or other competent person will carefully examine and measure him and fill in a roll-card (see Plate No. VIII) in accordance, so far as is possible, with the accompanying instructions. This roll-card will then be despatched to the office of the Inspector General of Police to be compared with the roll-cards there kept.

(2) If on such comparison in the Inspector General's office it appears that the accused person has been previously convicted, the necessary particulars will be filled in, and the roll-card be returned to the District Superintendent, for information. If no such person is traceable, then, (1) in the case of a convict the roll-card will be retained and filed, an intimation to that effect being sent, to the District Superintendent; (2) in the case of a person about to be tried, the roll-card will be returned to the District Superintendent with a request that it may be resubmitted if the person be convicted.

(3) Whenever a convicted person, whose real name and residence are known, is placed in class (*c*) by a District Superintendent, a similar roll-card will be prepared and sent to the office of the Inspector General for record there—

(*a*) The measurement and description of every such person will be copied from the roll-card before its despatch, on to the back of the P. R. slip by the District Superintendent, in order that the Superintendent of the jail to which the slip is sent may note them in the jail registers.

(*b*) On the release from jail of any such prisoner he will be carefully remeasured and compared with his roll. If any discrepancies are found, the fact will be communicated with the notice of release, or otherwise, to the District Superintendent, who will at once prepare and send a fresh card with corrected roll to the office of Inspector General.

Instructions for preparing rolls.

(4) The number of each roll or card will be left blank to be filled in in the office of the Inspector General.

(5) All names, whether of persons or places, should be written very legibly.

(6) In the case of Mahomedans, their sect (Syad, Moghal, Pathan, Sheik) will be entered under the head *caste*.

(7) Religion will be entered briefly as Hindu, Mahomedan, Christian, &c.

(8) The mother-tongue of the subject must, if possible, be carefully ascertained, as rolls are classified in accordance with it in the office of the Inspector General. If it cannot be exactly ascertained, the fact will be stated.

(9) Previous convictions will be entered chronologically and as briefly as possible. It will be sufficient to note the name of district, length of sentence, date of sentence, and section of Code under which punished, thus:—Pubna, two years, 3-2-79, Section 457, I. P. C.

(10) Before beginning to measure the subject, the accuracy of the instruments will be tested by means of the metal standard gauge (plate IA) supplied with each set.

(*Measurements.*)

(11) The measurements will invariably be made in the presence of a trustworthy officer by a skilled person, with an assistant to whom he can dictate the figures without putting down his measuring instruments—

(*a*) The measurer must be careful to place himself and his subject in the positions indicated in the plates. It is essential to accuracy that these positions be closely observed.

(*b*) Each subject will be measured first by one skilled measurer, and then, if possible, by another. If the measurements agree, they will be entered in the roll. If they differ by only two millimetres or less, the mean of the measurements will be entered. If the difference is greater the measurements will be carefully taken and retaken until they fall within this limit.

(*c*) Where possible, the measurements and descriptions will be tested and certified to by a gazetted officer. The original measurements will not, however, be altered by a testing officer, until clearly proved by skilled measurers to be wrong. The testing should be so conducted that the measurer cannot possibly know the original measurements or he may be biased by his knowledge.

(12) To measure the length of the head the measurer will sit in a chair, the subject squatting in front of him with his face towards the measurer's right (plate II.) One point of the compasses, or calipers (plate IB) will be held with the right hand in the concavity above the bridge of the nose, whilst with the other point the maximum length to the back of the head (occipital bone) is ascertained. The opening of the compasses will then be fixed by a set-screw, and the correctness of the measurement checked by re-measuring. If the compasses have been opened one millimetre too little, the points will not pass, and if on the contrary, they have been opened too much, both points will not touch the head. To get the maximum measurement quickly and accurately, the vernier of the scale must be watched as it moves to and fro, and to be able to do this conveniently the instrument must be held in a nearly horizontal position.

(*N.B.—The set-screw must always be relaxed before the compasses are opened or shut, or they may be injured.*)

(13) The width of the head is taken with the subject still squatting, but facing the measurer. The measurement is taken across the widest part of the head, *i.e.*, from one parietal bone to the other, the compasses being manipulated as before. Care must be taken to remove hair from the spots where the points of the compasses touch the head (plate III).

(14) The length of the middle finger of the left hand is measured with the back of the graduated sliding rule (plate IV.) the instrument (plate IC) being held inverted with the long arms pointing upwards, and the graduated bar under the measurer's right arm, both the subject and the measurer being in a standing position, face to face. The finger nail must be cut close, the finger bent to a right angle, and the point of the knuckle bone forced into the upper angle made by the short arms at the back of the instrument. The finger must be held straight and close to the instrument, and the sliding arm be pushed against the tip till the resistance of the bone is felt. It must not be pushed so hard as to compress the joints or bend the finger.

(15) The length of the left forearm is taken with the graduated sliding rule from the elbow to the tip of the middle finger. The forearm, bent so as to make an angle of rather more than 45° with the upper arm, will be placed for measurement on the scale held horizontally, with the anterior flat surface of the

forearm downwards and in close contact with the metal. The measurement should be taken from the point of the elbow (ulna) to the tip of the middle finger, with the instrument held slightly out at the elbow end, so as to avoid the muscles above the elbow joint (plate V). The slide will be placed at the elbow end of the forearm, this being the most convenient position. The other arm of the rule will be drawn close to the finger end until the resistance of the bone is felt.

(16) To take the measurement of the left foot, the subject will be made to stand nearly upright on a low stool, with right foot raised, steadying himself by resting his hands on the back of a chair placed in front of him (plate VI). The left knee should not be bent. The measurer kneeling behind the subject will then place the sliding rule on the stool with the long arm against the great toe of the subject's left foot, the nail being previously cut close, and having drawn the rule towards him till he feels the resistance of the bone, will then push the sliding arm close against the heel until similar resistance is felt. The pressure must not be so great as to compress joints or raise the toe.

(*a*) The measurement of the foot will be taken with the bar of the sliding scale as nearly as possible close against the foot from toe to heel.

(*b*) If the second toe is longer than the great toe, as sometimes is the case, the measurement must be from the tip of the great toe and not from the tip of the second toe. A peculiarity of this kind will always be noted on the card under the head "Peculiarities."

(17) The height will be taken in the usual way, but with greater accuracy, and will be recorded in feet, inches, and quarter inches. To get the maximum height the head must be bent downwards a little (plate VII). The other measurements will be recorded in centimetres and millimetres, not in feet and inches.

(18) Taking the measurements need not occupy more than five minutes, the search for scars, &c., five minutes, entry of name, &c., five minutes, so that the total operation may be completed in about fifteen minutes.

(19) Experience gathered from the measurement of nearly 1,30,000 subjects shows that the measurements can be taken within two millimetres at most, and that in no two cases do all the measurements of one subject agree exactly with those of another.

(20) It is of little use taking the measurements of any but full-grown persons.

N.B.—Women will never under any circumstances be subjected to measurement.

Peculiarities of appearance, &c.

(21) These will be described briefly, but as definitely as possible.

(22) The complexion will be described as fair, medium, or dark, as the case may be. The term 'wheat complexion' will not be used.

(23) The figure will be described as thin, medium, or fat. Stoops, humpbacks, inverted toes, and other deformities will be noted.

(24) The manner in which hair on the head and face is worn will be described, and, if shaven, the fact will be mentioned. The existence of much hair on the breast, arms, &c., should also be noted.

(*Marks and scars*).

(25) The size and nature of all marks and scars of the face, arms, hands, legs, feet, body, and their exact position with reference to two given and fixed points must also be accurately recorded. Nothing is easier than to describe the exact position of a mark or scar. On the back it must be a certain distance from the spinal column, and above or below the seventh vertebra. On the face there are the nostrils, the bridge of the nose, the corners of the mouth, eyes, eyebrows, &c., and on the breast and belly, the median line, the nipples, the sternum, and the navel. For the arm there is the shoulder, the elbow and the wrist, and for the fingers the phalanges and joints.

N.B.—The following kinds of marks and scars should be searched for:—

Birth-marks.—Such as moles, warts, squints, harelips, strawberry marks, &c.

Disease marks.—Made by small-pox, leprosy, &c.

Accidental marks.—Resulting from burns, scalds, cuts, loss of limbs, injuries to eyes, &c.

Artificial marks.—Caused by vaccination, inoculation, boring of ears and noses, blistering, cupping, tattooing.

Marks of circumcision should not be searched for.

Age marks.—Such as decay or loss of teeth, baldness, &c.

(26) The subject should be examined and measured for marks in the position of a soldier at attention. Where possible, the two fixed points selected should be so situated as, with the mark or scar, to form a right angle or nearly so, thus :—

F. P. ——————— Mark.

F. P.

The height of a mark from the ground may sometimes be a good index to its position.

The positions of marks and scars will be ascertained with a rule, tape, or piece of paper carefully marked to millimetres.

(27) Birth-marks, scars, cuts, tattooing or any other permanent marks on the posterior, anterior, external, or internal, parts of forearms should be measured from the wrist and elbow-joint. Similarly, marks, etc., on the upper arm should be measured from the shoulder and elbow-joints, marks, etc., on hands and palms being measured from wrist, tip of fingers and knuckles.

(28) Marks, etc., on the breast should be measured from the sternum bone [upper part of the median line], collar-bone and nipples, and those on the belly and sides of the body should be measured from the median line, nipples and waist.

(29) Marks, etc., on the back should be measured from the spinal column, the seventh and most prominent vertebra on the back of the neck, and where convenient from the hip-bone also. Marks, etc., on the thighs should be measured from the knee-joints, and those on legs and shins from the knee-joints and ankle-joints.

(30) It is sufficient to record three, or at most four, conspicuous and permanent marks if their position is accurately indicated. With a view to facilitate work, they should be searched for and recorded in the following order:—

i) Marks and scars on head and neck; (ii) ditto on right arm beginning at the shoulder; (iii) ditto on left arm, ditto ditto; (iv) ditto on front of trunk, breast, belly; (v) ditto on back of trunk; (vi) ditto on right thigh, including buttocks; (vii) ditto on right leg below knee; (viii) ditto on right foot; (ix) ditto on left thigh, including buttocks; (x) ditto on left leg below knee; (xi) ditto on left foot.

Those marks and scars which are most conspicuous should be marked on the left-hand margin of the roll with an asterisk.

(31) The dates of measurement and signatures of measurers and testers will be entered at the foot of each roll.

(Photography.)

(32) Space is left on the roll for two photographs, one of which should be in profile (right side) and the other in full face exactly. The light should be from the left for the full face and perpendicularly from above for the profile. The light and distance of apparatus from the subject should be as near as possible the same in all cases. The negatives should never be touched up in the slightest degree.

(33) A graduated ruler should be held or fixed alongside the face of the subject to show the relative position of each feature.

(34) The photographs will be affixed to the rolls in the office of the Inspector General of Police.

ARRANGEMENT OF ROLL-CARDS.

(35) In order to be able to find the roll-card of an accused or other person believed or known to have been previously measured and about whose name there

may be doubt, it is necessary to arrange the roll-cards, if there are many of them, upon some system based upon the differences in the measurements. The following system has been adopted in the office of the Inspector General of Police, Bengal.

(36) An almirah is constructed containing $27 \times 27 = 729$ pigeon-holes. Each pigeon-hole is large enough to hold about 50 cards, and measures $5\frac{7}{8}'$ in length, $1\frac{3}{4}''$ in height and $10''$ in depth. This provides space for 36,450 roll-cards—more than will be required for some years to come. The upper and the right-hand rims of the almirah are about three inches wide, and each rim is divided by two lines into three longitudinal spaces in which are painted between perpendicular lines the letters by means of which the pigeon-hole containing the required roll-card may be traced. The outermost longitudinal spaces on the top and side rim of the almirah are divided by means of short perpendicular lines each into three divisions, marked "long," "medium," "short," each division extending over or against nine pigeon-holes, and any two of them, one at the top and the other at the side, governing a parallelogram of $9 \times 9 = 81$ pigeon-holes.

(37) These parallelograms of 81 pigeon-holes are again sub-divided by means of similar marks and perpendicular lines on the middle longitudinal spaces on the top and side rims of the almirah, extending over and against three pigeon-holes and governing smaller parallelograms, containing $3 \times 3 = 9$ pigeon-holes.

(38) Lastly, these smaller parallelograms of nine pigeon holes are similarly divided and marked on the inner longitudinal spaces on the top and side rim opposite each line of pigeon-holes, so that any two marks, one at the top and the other at the side, point to a single pigeon hole.

(39) For convenience sake the almirah is constructed in three pieces, each measuring, over all, $5'\text{-}10\frac{1}{2}''$ in height, $4'\text{-}10\frac{7}{8}''$ in width, $10''$ in depth, and containing 243 pigeon holes, or one-third of the whole number. A plan of the whole almirah is annexed (plate IX).

(40) The words "long," "medium," "short," refer to the measurements, which in Bengal are six in all, *viz.*, (1) head—length of, (2) head—width of, (3) left middle finger, (4) left forearm, (5) left foot, (6) height. The cards are classed for each measurement as "long," "medium," or "short," and arranged in the almirah accordingly.

(41) Cards can be rightly placed or found when wanted by means of the following simple process of elimination. Two measurements are taken first, say length and width of head, these being least liable to variation. The outermost rim at the top of the almirah is assigned to length and the outermost rim at the side to width of head. Then, if the length recorded on a card is "long," it will belong to a pigeon-hole situated somewhere in that third of the whole almirah which on the outermost rim is marked "long." This reduces the area of search to one-third of the whole almirah, or 243 pigeon-holes.

(42) Supposing the width of the head recorded on the card is "short," then the position of the card must be somewhere within that portion of the third of the whole almirah which lies to the searcher's right of the outermost space in the side rim of the almirah marked "short," and is neither above nor below it. This reduces the area of search to a parallelogram containing $9 \times 9 = 81$ pigeon-holes.

(43) Next take two other measurements, say length of left middle finger and of forearm, and working with the marks in the middle longitudinal space of the upper and side rims, repeat the above operation within the parallelogram of 27 pigeon-holes. This will still further reduce the area of search to a parallelogram of 9 pigeon-holes.

(44) Lastly, take the remaining two measurements and again repeat the operation, using the inner space of the rim. This will bring the searcher to the pigeon-hole required.

(45) The different measurements must of course always be applied in the same order and manner. When the figures taken from the card are found to be on the boundary of two sets of measurements, *i.e.*, between 'long' and 'medium, or 'medium' and 'short,' search must be made in both of the adjacent divisions.

(46) The number of roll-cards kept in each pigeon-hole will depend upon the total number of roll-cards to be kept in the almirah, and will be approximately that number divided by 729. With a total of 7,290 roll-cards the number in each pigeon-hole would be about ten; and aided by the description of marks and scars and two photographs, there will never be any difficulty in finding, among such a small number, the particular roll-card wanted.

(47) If the total number of roll-cards should become very large, say 36,450 giving 50 cards to each pigeon-hole, the cards in each pigeon-hole may be divided into three bundles – one for Hindustani, another for Bengali, and a third for "others,"—according to the mother tongue of the subject, a sub-division which would greatly reduce the number of cards to be examined.

(48) As medium measurements are naturally very much more numerous than large and small measurements, it is necessary to limit arbitrarily the measurements to be classed under these heads, or there would be a great excess of roll-cards under the head "medium" which would be productive of inconvenience in more ways than one. With a view, then, to equalise the number of roll-cards under each head, the limits "long," "medium," and "short," measurements are determined as follows.

(49) Take 1,000, or any number of cards, and beginning with one measurement, say height, sort the cards into heaps according to the heights recorded on them, making a heap for every inch from the lowest to the highest measurements. Then note the number of roll cards in each heap and divide the heaps into three batches of heaps, each with as near as possible the same number of cards. This will show the required limits. Repeat the operation for the other five measurements, substituting millimetres for inches, and noting results.

(50) The results arrived at in the office of Inspector-General of Police, Bengal, experimenting with between 1,100 and 1,300 cards, were as follow :—

LENGTH OF HEAD.

400 out of 1,193 cards 18·6 upwards to 20·1 – A range of 15 millimetres	Long.
386 out of 1,193 cards 18·1 to 18·5½—A range of 5½ millimetres	Medium.
407 out of 1,193 cards 18·05 down to 16·7 —A range of 13½ millimetres	Short.

WIDTH OF HEAD.

405 out of 1,210 cards 14 cm. 4½mm. to 16·2 A range of 17½ millimetres	Long.
362 out of 1,210 cards 14½ to 14·½—A range of 3½ millimetres	Medium.
443 out of 1,210 cards 14·0 downwards to 13·0—A range of 10 millimetres	Short.

LEFT MIDDLE FINGER.

422 out of 1,233 cards 11½ to 12·6—A range of 15½ millimetres	Long.
417 out of 1,233 cards 10·6 to 11·0—A range of 4 millimetres	Medium.
394 out of 1,233 cards 10·5½ down to 9 cm.—A range of 15½ millimetres	Short.

LEFT FOREARM.

408 out of 1,233 cards 46·1½ to 52·3—A range of 59½ millimetres	Long.
414 out of 1,233 cards 44·4 to 46·1—A range of 17 millimetres	Medium.
411 out of 1,233 cards 44·3½ downwards to 35·6	Short.

LEFT FOOT.

400 out of 1,210 cards 25·2½ to 28 cm.—A range of 27½ millimetres	Long.
416 out of 1,210 cards 24·3 to 25·2—A range of 9 millimetres	Medium.
394 out of 1,210 cards 24·2½ downwards to 22 cm.—A range of 22½ millimetres	Short.

HEIGHT.

381 out of 1,112 cards 5'-5" to 6'-1"—A range of 8 inches	Long.
371 out of 1,112 cards 5'-5" to 5'-4¾"—A range of 1 inches	Medium.
360 out of 1,112 cards 4'-9" to 5'-2¾"—A range of 5¾ inches	Short.

(51) Instead of almirahs the following method of keeping the cards can be adopted. Place the cards in books, like photographs in an album, keeping all the cards belonging to a pigeon-hole together, and leaving sufficient space for the insertion of others. Old discarded registers might be used for the purpose. The simplest index would then be a plan of the almirah, with the numbers of the pages of the books at which the cards are to be found written on each pigeon-hole. Another and more complex index might be made by arranging the six measurements under all possible combinations, and noting against each where cards are to be found.

(52) Whatever method is used for arranging and keeping the roll-cards here should be an alphabetical list of the names of the persons to whom, they refer, with a serial number to each letter and space for adding names.

Extract from the Proceedings of the Government of Madras, Judicial Department, No. 825, dated 2nd May 1892.

Read the following paper:—

No. 1454, dated, Ootacamund, 5th April 1892.

From—A. G. CARDEW, Esq., M.A., C.S, Acting Inspector General of Jails.

To—The Chief Secretary to Government of Madras.

I have the honor to submit the following reply to G O., dated 20th August 1891, No. 1639. The file connected with this order was handed over to me by Colonel McDonald Smith when making over charge of the department, with a note, dated 4th February 1892, of which a copy is enclosed.

2. The objections taken by Colonels Porteous and Weldon to the adoption of the so-called Anthropometrical system of identification are briefly—

(1) that the system is too scientific and too dependent on extreme nicety of measurement to be adopted in India;

(2) that, if adopted, it might lead to serious errors, intentional or otherwise, in identification, and to other difficulties which do not now exist;

(3) that it is not wanted.

3. The idea that the proposed system is dependent on such extreme nicety of measurement as to be impracticable in this country is derived from the perusal of the books on the subject forwarded by Colonel McDonald Smith, without any practical illustration of the working of the system. When I was in Bengal in January last, I took advantage of my visit to examine the practical carrying on of Anthropometry in that province. When visiting the Bhagalpur Central Jail, I saw the process of measurement being actually applied by a native Sub-Inspector and Head Constable of Police, and when in Calcutta, I had an interview with the Inspector General of Police and was furnished by him, confidentially, with the copies of records referred to below. As regards the actual work of measurement, there can be no question that there is nothing difficult or impracticable about it. The seven plates herewith forwarded, and obtained in Bengal, show very clearly the processes necessary and how simple they are. All the measurements except those of the head and of height are taken with an instrument of not greater complexity than that which a shoemaker in England uses to take the size of one's foot. The measure for the head is in no way more complicated and there is not the slightest difficulty in bringing the sides of the instrument to bear on the broadest and longest point of the head. The height measure differs little from the ordinary one. Experience in Bengal has shown that an average Police Inspector or Head Constable can learn to measure with perfect accuracy in a very short time. In fact the actual work of measurement is by no means the most difficult point in the introduction of the system, and the idea that it is too complicated for adoption in India is entirely due to the absence of sufficient information.

4. The second objection is that the system might lead to intentional or unintentional mistakes in identification. This view, like the former, is due to the real working of the scheme not being clearly understood. The measurements, which in other words constitute the prisoner's description, would not usually be put in evidence before a Court, unsupported by further testimony, as a proof of previous conviction. They would be used as the means by which the police would ascertain the prisoner's identity, ascertain in what jail he underwent his earlier sentence, and either produce oral evidence from these to identify him or so completely reveal his past history that further denial would be impossible and the prisoner would admit his antecedents. The results of Anthropometry are, in fact, intended to be used in the main out of Court as supplying the necessary clue to a criminal's identity and enabling the police to follow it up and obtain full evidence of previous convictions. What the other difficulties, not now existing, to which it might lead are, I do not see.

5. The last objection is that the system is not wanted. The Government has observed that this assertion can hardly be admitted to be correct, and there is plenty of evidence that it is very far from being so. The Jail Reports show that in the five years ending 1891 as many as 1,627 criminals have been received into Jails, and there discovered to be previously convicted, regarding whom the police had no knowledge of their former crimes. But this is probably the least part of the matter, for, except in a few of the Central Jails, the recognition of previously convicted offenders has not received very much attention, and it may be assumed that more have escaped detection than have been recognized. Colonel Weldon remarks that natives as a rule cling to their own parts of the country, but I believe that it has been again and again reported by the Inspector General of Police that criminals in India now make large use of the railway and carry on their depredations at a distance from their homes. An old offender who was convicted in one District, and who is retired in another, would probably escape recognition, for the Police Order Book shows that no system of intercommunication between Districts exists. Lastly, it may be observed that if the cleverness of the Madras Policeman in recognizing his old acquaintances is so efficient and sufficient a means of identification, the use of any record of description is not apparent.

6. I believe that the objections which have been raised to the adoption of the French system of careful measurement of various parts of the body would not have occurred if the method had been known by some less pedantic name than Anthropometry. It has not been sufficiently recognized that the system is simply an extension and improvement of existing methods. It is already the practice to measure a man's height and to take his photograph. The French plan goes a little further and records a few more measurements. There is nothing mysterious or abstruse about the matter, which is simply an improved method of recording descriptions. As regards the practical application of the descriptions or measurements to police working, there may be difficulties of greater importance, but, so far as regards the necessity of improving the present style of description of prisoners, and so far as regards the ease and advantages of the French method, there can hardly be any doubt on the matter.

7. On these grounds I shall be glad to accept the offer of Government, and to be supplied with a set of instruments for each District, as well as for each Central Jail, except Russellkonda. The measurements of every prisoner admitted will then be recorded in accordance with the French system instead of in the present rough and unscientific manner. As regards prisoners convicted of offences under Chapters XII and XVII of the Indian Penal Code, a copy of the description thus recorded will be forwarded in the form shown in Plate VIII to my office, and will be placed on record here. Plate No. IX shows the ingenious manner in which descriptive cards can be arranged, so that a particular card can be found in a few seconds. If a prisoner is reconvicted of an offence under these chapters, the fact will be ascertained here and a measure will be obtained of the extent to which the police fail in recognizing old offenders. This will involve very little additional labor either on my office or the jails, and in a few years a large body of descriptions will be accumulated which will be of invaluable aid to the police when they adopt the system, as they will doubtless eventually have to do. The expenditure will be limited to the instruments, an almirah, the cost of cards and their postage, and possibly the deputation of a Deputy Jailor or Jailor for three or four months to give instruction in the method of measurement.

8. I have not here referred to the difficulties which undoubtedly exist in applying the system to police working. In a large and scattered Presidency there would be certain unavoidable difficulties to be met in bringing the information supplied by the improved system of description to bear *before trial*. This is the question which the Bengal Police are now about to try and work out. I enclose for the information of Government a copy of the letter which the Inspector General of Police, Bengal, addressed to his Government on the subject, and which shows

the plan to be adopted. I also enclose a copy of the Bengal rules, and I request that, when no longer required, these papers and the nine plates before referred to may be returned.

ENCLOSURE.

NOTE.

Replies have been received from Superintendents of all Central Jails now, on the Bertillon system of identification of old offenders.

Mr. Cavendish first originated the idea and of course approves.

Mr. Goodrich approves of it in Central Jails.

Mr. Gadsden approves, but shows the necessity of introducting it also in the District Jails of Cuddalore, Tanjore, Madura and Palamcottah, all on the lines of railway along which habituals work now to so great an extent.

Mr. Grimes, Mr. McCready and Mr. Tyrrell approve of the system, but show how it cannot be efficiently done by the present jail staff; as, to be thoroughly worked, it would require a trained man, as everything depends on the accuracy of the measurements. Mr. McCready wants the medical staff to undertake it. Mr. Symonds suggests other systems, but thinks this a good one if the Police department are directed to adopt the system also.

My own opinion is that unless the Police department work the system with the Jail department, it is of no use to introduce it. Admissions are so numerous in Central Jails now prisoners are being more concentrated, and specially at the Penitentiary, that it would be the work of one man to take and record the measurements properly. Then if only worked in Central Jails, records of the measurements in each case should be sent to District Jails affiliated to each Central Jail. This necessitates another clerk at least. But what really checks the introduction of the system is the want of co-operation by the police. It is for the benefit of the police chiefly that the system would be started. The only use of it in jails would be to classify prisoners, as after admission they (though old offenders) can get no extra sentence.

I hesitate to report on this, as Mr. Cardew may have other views; and as I am leaving the department for good and Mr. Cardew will have to work the system if introduced, I think it better that his views should be submitted to Government.

J. M. SMITH, *Colonel,*

The 4th February 1892. *Inspector General of Jails.*

Order thereon by the Government of Madras.

Mr. Cardew's proposals are approved, and the system should be introduced into all Central and District Jails (except that at Russellkonda) as quickly as men can be trained and instruments supplied.

2. The Government of Bengal will be asked to furnish this Government with a copy of its final orders on this subject.

No. 826, dated Fort St. George, 2nd May 1892.

From—The Hon'ble J. F. Price, Chief Secretary to Government of Madras.

To—The Chief Secretary to Government of Bengal.

It is understood that the Government of Bengal has at present under consideration proposals for the adoption by the police of the Bertillon system of measuring convicts; and I am directed to ask that you will kindly, with the permission of His Honor the Lieutenant-Governor, supply this Government with copies of the orders of the Government of Bengal on the subject.

Letter No. 8732—J. 492-92, dated 20th December 1892, to the First Assistant to the Resident in Mysore.

With reference to your letter No. 3379—336-92, dated 21st October 1892, (and reminder No. 4099—336-92, dated 19th instant) regarding the introduction of the Bertillon system of Anthropometry as a means of identification of old offenders by the Police, I am directed to state that the interesting subject is under consideration by the Inspector Generals of Prisons and Police under the Darbar, and that the final views of the Darbar will be communicated at an early date. Meanwhile I am to request that the Darbar may be favoured with one set of instruments employed in the system and two sets of plates to illustrate the proposals contained in the Bengal rules.

Letter No. 481—336-92, dated 8th February 1893, from the First Assistant to the Resident in Mysore, to the Dewan of Mysore.

In reply to your letter No. 8732—J. 492-92, dated the 20th December 1892, I am directed to forward the accompanying copy of a Circular No. 1 of 1893, issued by the Inspector General of Police, Lower Provinces of Bengal, which contains instructions in connection with the Bertillon system of Anthropometry.

2. I am also to forward copy of Plates I-VIII, and to say that the instruments are not available in the Bengal Secretariat or at present obtainable in Calcutta, but that they can be obtained through Mr. Murray, Mathematical Instrument Maker, Dalhousie square Calcutta, or direct from M. Colas, No. 18, Rue Saint Gilles, Paris, or M. Radiquet No. 20, Rue Du Tage, Paris.

Letter No. 450, dated 8th May 1893, from the Registrar to the Inspector General of Prisons in Mysore, to the Chief Secretary to the Dewan of Mysore.

In advertence to your letter No. 8733—J. 490-92, dated the 20th December last, forwarding for the opinion of the Inspector General of Prisons, letter No. 4 Police—504-508 of the 18th September 1892, with enclosures regarding the introduction into this Province of the Bertillon system of Anthropometry, I am directed to state that the Inspector General of Police and the Superintendents of the Jails at Bangalore and Mysore, who have been consulted, are in favor of introducing the system into the Province copies of their letters are annexed for the information of Government. The Inspector General of Police suggests the necessity of deputing an intelligent officer and an experienced Inspector to go to Bengal to be instructed in the methods of measuring convicts. This suggestion is deserving of consideration. Dr. Choksi is of the opinion that the system is a comprehensive one and affords unfailing means of identifying old offenders; but thinks that it should be worked out in all its details with scientific accuracy as, otherwise, it is likely to create confusion and make persons habitual criminals who are not so. He restricts the working of the system to men of sufficient education and intelligence not below the rank of Police Inspector after passing a test of proficiency in the subject. He, therefore, falls in with the suggestion of the Inspector General of Police to depute an officer from Mysore to Bengal and suggests that such officer should be of good standing and experience and of the rank of the District Superintendent of Police. In the several Jails of the Province, Dr. Choksi wishes the working of the system being left in the hands of the Medical officer in charge or the Hospital Assistant, under his directions. Dr. Benson also recommends the introduction of the system into the Jails.

In order that the introduction of the system into this Province may be useful, Dr. Choksi recommends the adoption of the system by the Police and Jails of the neighbouring Districts under British administration as, in his opinion, there is not much use in starting it here without the co-operation of the officers in the British Provinces bordering on Mysore.

It seems to the Inspector General of Prisons that the Bertillon system of Anthropometry may, with advantage, be introduced into the Jails in Mysore as affording great facilities for identifying old offenders, and should the Government accord their sanction, the instruments required will be obtained from either Calcutta or Paris and supplied to the Superintendents of the three Jails in Bangalore, Mysore and Shimoga, and the needful instructions issued to the Superintendents to try the experiment and to report on the working of the system annually in their administration reports.

As Mr. Madhava Rao, the Inspector General of Police, is also in favor of the system, I am directed to suggest for the consideration of Government, the desirability of issuing instructions, similar to those contained in the Bengal Police Circular No. 1 of 1893 herewith returned.

Letter No 21427—J. F. 195-92, dated 24th June 1893, from the Chief Secretary to the Dewan of Mysore, to the Registrar to the Inspector General of Prisons in Mysore.

Adverting to your letter No. 450, dated 8th ultimo, suggesting the introduction into the Mysore State of the Bertillon system of Anthropometry, I am directed to state that the proposed system is, in the opinion of the Government, one of very great interest; but it is feared that it is a good deal in advance of the present requirements of the State. Its adoption may therefore be differed till at least the surrounding Districts of Madras and Bombay see their way to introducing and working it.

Letter No. 2884—336-92, dated 24th August 1893, from the First Assistant to the Resident in Mysore, to the Dewan of Mysore.

I am directed to refer you to letter No. 8732—J. 492-92, dated the 20th December 1892, from your office, and to enquire when the final views of the Darbar on the introduction into the Jails in Mysore of the Bertillon system of Anthropometry, may be expected.

Letter No. 4210—J. F. No. 195-92, dated 1st September 1893, from the Chief Secretary to the Dewan of Mysore, to the First Assistant to the Resident in Mysore.

In reply to your letter No. 2884—336-92, dated 24th instant, regarding the introduction into the Jails in Mysore of the Bertillon system of Anthropometry, I am directed to say that the system is in the opinion of the Darbar one of very great interest, but it is feared that it is a good deal in advance of the present requirements of Mysore. The Darbar therefore consider that its adoption may be defered till at least in the surrounding Districts of the Madras and Bombay Presidencies, the system is introduced and satisfactory results are secured.

2. Copies of the correspondence on the subject which has taken place between this office and the Inspector General of Prisons are enclosed for the information of the Resident.

Letter No. 3418—364, dated 16th April 1894, from the Inspector General of Police in Mysore, to the Chief Secretary to the Government of Mysore.

Adverting to the correspondence ending with your Memorandum No. 21428—J. F. 195-92, dated 24th June 1893, on the subject of the introduction of the Bertillon system of Anthropometry, I have the honor to urge the necessity of its immediate adoption by the Mysore Police.

2. It is stated in your No. 21427—J. F. 195-92, of the above date to the Inspector General of Prisons that though the proposed system is one of very great interest, it is a good deal in advance of the present requirements of the State and that its adoption may therefore be deferred till at least the surrounding Districts of Madras and Bombay see their way to introducing and working it.

3. With reference to the above remark, I am in a position to state that both the Madras and the Bombay * Governments have sanctioned the introduction and working of the system in those Presidencies, and that in Madras a number of Inspectors and Head Constables, drawn from the District, are now under training in the use of the new system.

* Extract of Government order enclosed for reference.

4. I think Mysore should not be behind-hand in introducing the improved system of measuring criminals, because I am convinced that the existing system for the identification of old offenders is imperfect in many respects, depending as it does on chance recognition of such offenders by the Police or Jail officers and on unscientific description of features and other peculiarities of person which are often difficult to describe accurately or are liable to change with the lapse of time. It should be further noted that the present system deals with each individual District and not the Province as a whole. Consequently it does not apply to wandering criminals who move from District to District supporting themselves by crime, or who, belonging to one District, commit crimes in a

different District. There can be no doubt that many an old offender who, under Section 75, Indian Penal Code, is liable to enhanced punishment, manages to escape with a light sentence quite inadequate to his deserts, owing to the want of proper identification. The new system will remedy these defects, and place the identity of old offenders beyond question, in whatever part of the country the crime may have been committed. It has been worked with great success in Bengal and I would strongly recommend its introduction into Mysore.

5. Of course the system will have to be worked conjointly by the Police and the Jail Departments.

6. Should the Government be pleased to sanction my proposals, it will be necessary to depute a Police and a Jail officer to study the working of the system in Bengal, particularly the mode of bringing the information supplied by the improved system of description to bear *before trial*. I shall be glad to undertake the trip to Calcutta on this account and the Superintendent of the Bangalore Central Jail may be deputed from the Jail Department for the same purpose.

7. Early orders are solicited.

Extract from the Bombay Gazette, dated 31st March 1894.

THE BERTILLON SYSTEM OF IDENTIFICATION.

The following resolution was issued last evening:—The Government of India should be informed, in reply to their letter No. 328, dated the 11th July 1893, that, as stated in the letter from this Government (No. 1202, dated the 24th February, 1893), the advantages of having a uniform system of Anthropometry throughout India are fully recognized by the Governor in Council, and that, after a perusal of Mr. Henry's explanation of the Bertillon system as worked in Bengal, his Excellency in Council concurs in thinking that those advantages must be held to outweigh the drawbacks which were anticipated a year ago from the temporary unsettling of the system which had been introduced in this Presidency.

The Inspector General of Police, the Commissioner of Police, Bombay, the Commissioner in Sind, and the Inspector General of Prisons should be informed that it is the desire of Government that the system should be introduced at once into this Presidency, and they should be directed to take such steps towards effecting changes in the present system as may be necessary. It should be pointed out to the Inspector General of Police that, in the event of difficulties arising, the Governor in Council will consider the advisability of deputing an officer to Bengal to study the system.

The cost of introducing the Bertillon system is estimated approximately at Rs. 1,500, and any charges up to this amount which may be incurred will be sanctioned by Government on being reported.

Proceedings of the Government of Mysore, No. 22834-5—J. F. 195-92, dated 21st June 1894.

ORDER THEREON.—The Government are not convinced of the Bertillon system of Anthropometry being required as an aid to the Police in the present state of the country but the Anthropometric instruments may be bought and tried and the result reported to Government.

Letter No. 2655—336-92, dated 3rd August 1894, from the First Assistant to the Resident in Mysore, to the Dewan of Mysore.

With reference to correspondence ending with your letter No. 4210—J. F. 195-92, dated the 1st September 1893, I am directed to forward a copy of the * papers noted on the margin which contain details of the working in Bengal of the Anthropometric system for the identification of criminals.

* Letter from the Government of Bengal No. 1786 J, dated the 10th April 1893 and enclosures, (with 3 spare copies).

2. The Government of India, as at present advised, are of opinion that it will be desirable when the Anthropometric system has been introduced into British India to extend it, *as far as possible to Native States.* A further communication on the subject will be addressed to you in due course, meanwhile, the papers now forwarded may be usefully referred to for the purpose of acquiring a practical knowledge of the details of the system.

Letter No. 236, dated the 18th August 1894, from the Registrar to the Inspector General of Prisons, to the Chief Secretary to the Dewan of Mysore.

I am directed to state that the Inspector General of Prisons recommended to Government the introduction of the Bertillon system of Anthropometry into the Mysore State in his letter No. 450, dated 8th May 1893, but the Government expressed their opinion that the proposed system was a good deal in advance of the then requirements of the State, and that its adoption might be deferred till at least the surrounding Districts of Madras and Bombay saw their way to introducing and working it.

2. I am directed to address the Government again on the subject, as this system has not only been adopted by the various Local Governments in India, but also it has been reported to have been very successful.

3. This system was recommended by the Government of India to all the Local Governments, who, however, being reluctant to introduce it on the strength of such recommendation alone, anxiously waited to see the results of its working in Bengal where it was first adopted.

4. The Madras Government sanctioned the trial of this system in the Central and the District Jails practically in 1893, but the system began to be worked fully only from the middle of January 1894. In spite of the very short trial received by this system in Madras, the Inspector General of prisons in Madras thinks that it has certainly, in a very great measure, improved the methods of description followed in Jails, and that this result alone is a sufficient justification for its adoption (*vied* page 7, para 22 of the Administration Report of Jails for 1893).

5. The Chief Commissioner of Assam who at first put off the adoption of this system pending the results of the experiment tried in Bengal and other Provinces, having been satisfied that it has proved itself to be most satisfactory, accorded his sanction to the introduction of the same into some parts of Assam (*vide* page 2, para 8 of the Resolution on the Jail Administration Report of Assam for 1893).

6. In fact this system is being tried as an experimental measure throughout India; but it has received the most extensive trial in the Bengal Presidency, and the Chief Secretary to the Government of Bengal in Government Resolution No. 493, P. D., dated 7th June 1894, speaks of the system in the following terms.

"The Inspector General of Prisons considers that there is still much room for increased accuracy in registering reconvictions, but the improvement already effected is satisfactory, and with the extension of the Anthropometrical system for the identification of habitual offenders, a further improvement may be expected. The system has made rapid strides during the year (*vied* page 2, para 6 of the Resolution quoted above)."

7. The Inspector General of Prisons fully believes that the system will prove a success. He is of the opinion that the necessity for identifying habitual offenders is as great here as elsewhere; and I am accordingly directed to propose for the favorable consideration of Government, that the Anthropometric system may, with advantage, be adopted and worked in the Mysore Jails also. Detailed proposals as to how the system has to be first introduced, as to how men ought to be trained, and regarding various other particulars will be submitted after the result of this reference is known. A copy of the printed previous correspondence on the subject is herewith forwarded, for ready reference.

No. 14904—J. 887, DATED, BANGALORE, 8TH MARCH 1895.

ORDER THEREON.—The question of introducing into Mysore the Bertillon ystem of Anthropometry is under contemplation of Government, and, as sug-'ested in letter No. 2655—336-92, dated the 3rd August 1894, from the First ssistant to the Resident in Mysore, communicated to the Inspector General of 'risons with Government Proceedings No. 2598-9—J. F. 195-92 of the 11th lem, steps may be taken in the meanwhile for obtaining a practical knowledge f the details of the system.

V. N. NARASIMMIYENGAR,
General Secretary.

o—The Registrar to the Inspector General of Prisons in Mysore.

Letter No. 2824, dated 23rd July 1895, from the First Assistant to the lesident in Mysore, to the Dewan of Mysore.

Reverting to your letter No. 4210—J. F. 195-92, dated the 1st September 1893, and in continuation of this office letter No. 3918—336-92 of the 8th November 1894, I am directed to state that Anthropometric system for the identification of criminals has been generally adopted in British India on the basis of the Bengal rules three copies of which are enclosed.

2. When in Calcutta the Resident carefully examined the system and was surprised at the rapid success which had attended its introduction. The Government of Bombay which had introduced a different system was convinced that the system of Bengal was preferable and altered its system to suit. The advanced position held by Mysore in administration renders it certain that the co-operation of British and Mysore Police in working the scheme will be productive of excellent results and on a reference to the Government of India, the Governor General in Council has approved the Resident's proposal for effecting this object, I am now to ask you to move the Darbar to take steps for the adoption of the system at an early date.

3. For facility of reference and detection, it is important that the Anthropometric records should be concentrated in as small a number of bureaux as possible. It has accordingly been suggested that the records of the State of Mysore should be kept with those of the Madras Government with which it is geographically most closely connected. But if the Mysore Government prefer to form a separate bureaux of their own, there will be no objection, provided that the information obtained is at the disposal of the Government of India. In the former alternative, the various measurement cards would be forwarded to the Inspector General of Police, in Madras, in original, for record; in the latter alternative, copies of the cards would be sent to the Inspector General for information. In either case, in order to ensure that the measurements are sufficiently accurate it would be advisable to periodically depute a skilled officer to check some of them on the spot.

4. The Government of India are prepared, I am to state, to arrange for the instruction, free of cost, of a sufficient number of the Police officers of Mysore in the method of obtaining Anthropometrical records. The extra expense to the Mysore State would, therefore, be confined to charges for stationery, posting and the purchase of necessary instruments, to which must be added, if the State elects to have a separate bureau, provision for the necessary furniture and the pay of one clerk to tabulate the records. The Resident will be glad to receive an expression of your views upon these matters at an early date.

No. 2316-7—J. 257, DATED, BANGALORE, 30th July 1895.

ORDER THEREON.—The above noted correspondence on the subject will be forwarded to the Inspector General of Police; whose attention is drawn also to the interim instructions contained in the Government order No. 14904—J. 887, dated 8th March last.

2. Now that the Government of India are willing to help and co-operate in the introduction of Bertillon system of Anthropometry into the Mysore State, the Inspector General of Police is requested in communication with Inspector General of Prisons, to elaborate and submit early for consideration and orders a scheme based on the suggestions contained in the letter of the British Resident in Mysore, dated 23rd July last.

Correspondence ending with letter dated 6th March 1894, No 605—S. from the Deputy Commissioner of the Hassan District, stating that the District Fund Board of the Hassan Circle, which contributes a moiety of the cost of certain servants in the Hospital at Hassan, agreed to pay the increase proposed to the salary of the Compounder of the Hospital at Hassan, and requesting sanction to the increase recommended.

No. 912-6—L. F. 27-93, DATED, BANGALORE, 18TH JULY 1895.

ORDER THEREON.—The Government observe that, with the exception of the Civil Hospitals in Kolar, Tumkur and Hassan, all the Government Hospitals at District head-quarters are maintained solely from Provincial Funds. As there are no special grounds for debiting a portion of the medical charges to District and Municipal Funds in the case of the former hospitals alone, the Government are pleased to direct that the entire cost of maintaining the Hospitals at Kolar, Tumkur and Hassan be met from the Provincial Medical Budget with effect from 1st July 1895.

2. The Senior Surgeon is requested to submit a Supplemental Budget, providing funds for the additional cost now devolving upon the Medical Budget, if the same cannot be met by a re-appropriation of the sanctioned allotments for the current year.

3. With regard to the increase proposed to be granted to the Compounder at Hassan, the Senior Surgeon is requested to include his case in the proposition statement called for in this office No. 15839—G. 4487, dated 27th March 1895.

V. N. NARASIMMIYENGAR, *General Secretary.*

To—The Deputy Commissioner, Tumkur District.
The Comptroller to the Government of Mysore.

L. B. B.—MUNICIPAL.

Proceedings of the Government of Mysore.

No. 171—L. F. 194-94, dated, Bangalore, 3rd July 1895.

Order.—The Hessarghatta water works are fast approaching completion and it has become necessary for the Government to decide, in communication with the Bangalore City Municipality, the way in which the capital cost of the works as well as that of their annual maintenance should be met.

2. The cost of the whole of the works as per estimates sanctioned up to date is as follows:—

		Rs.
1	Storage at Hessarghatta	4,20,720
2	Irrigation Works proposed	78,552
3	Delivery to Pumping Station	1,85,182
4	Tramway	24,134
5	Railway	50,000
6	Engines, pumps, &c..	1,78,469
7	Quarters for establishment	13,264
8	Iron mains and stand tank	4,91,751
9	Reservoirs and filters at Bangalore	2,08,210
10	Distribution	2,70,000
11	Probable amount required for High Ground distribution, &c., ...	30,000
	Total ...	19,50,282

3. For the purpose of calculating the cost of the "Bangalore Water Supply" portion of the project, the Government decide to exclude items Nos. 1 and 2 above, (Storage at Hessarghatta and Irrigation Works costing Rs. 4,99,272) and assume the balance of Rs. 14,51,010, as the capital cost of the "Bangalore Water Supply Project." As the Municipality have no means, present or prospective, of paying this large sum, the Government resolve to levy from the Municipality only a sum of 8 lacs on account of the capital cost of the water supply works, treating the remainder of the actual cost as a free grant-in-aid from the State. The sum of 8 lacs to be paid by the Municipality will carry interest at 3½ per cent per annum and be allowed to be repayable in easy instalments of Rs. 32,000 per annum, so as to extinguish the debt in about 60½ years.

4. The Government further resolve to undertake at its own expense, whenever required, the annual maintenance and repairs of the storage works at Hessarghatta, charging to the Water Supply Project the price of water actually drawn, at the nominal rate of Rs. 2 per million gallons. The present population of Bangalore is 80,285, but the works are calculated to supply a prospective population of 120,000 at 2 cubic feet, or 12½ gallons per head. The daily supply now will, therefore, be 1,003,562 gallons and cost Rs. 2 and hereafter, when the population increases to 1,20,000, the daily supply will increase to 1½ millions and its cost to Rs. 3. The annual charge on account of the price of water is therefore Rs. 730, say Rs. 800, allowing for wastage, at present, and hereafter, when the full supply of 2,40,000 cubic feet may be required, the price of water delivered at Hessarghatta would rise to Rs. 1,200 per annum. This will be assumed as the annual charge to be paid by the Municipality on this account.

5. The next item of annual charge will be on account of establishment (including supervision of Town Distribution). Col. McNeil Campbell estimated it at Rs. 904 per month equivalent to Rs. 10,848 per annum. This is a liberal estimate, but may be accepted for the present purpose.

6. For fuel, Col. McNeil Campbell's estimate was as follows:—

	Rs.	Rs.
For 200 H. P. at 10 lbs. per hour per H. P. or 7,821 tons per year at Rs. 6-4-0 per ton	48,881	
Add 16 per cent for oil, grease, waste, &c., ...	7,840	
		56,721

This Estimate may safely be reduced thus:—

Wood Fuel for 116 H. P. at 10 lbs. per H. P. per hour=4,536¾ tons per year, and costs at Rs. 5 a ton	=22,680	
Add 20 per cent for waste and contingencies	4,536	
		27,216

Or say Rs. 27,800 per annum.

7. For depreciation of pumps and engines, Col. McNeil Campbell allowed 7 per cent, and adopting the same rate, the amount on Rs. 1,53,289 is Rs. 10,731. There

are no data available for calculating the age of iron pipes under conditions existing in this case, and it seems unnecessary to provide for their renewal on any large scale or on any percentage of their original cost. The sum annually required to be paid into a Depreciation Fund and allowed to accumulate with compound interest and to be applied towards any renewal of engines, pumps, pipes, and machinery generally, may, for the present, safely be put down at Rs. 12,000.

8. For ordinary repairs and contingencies of all kinds it is probably sufficient to estimate for an annual outlay of Rs. 5,000.

9. The annual payments required from the Municipality as detailed in paras 3 to 8 above, thus fall into two classes:—

A—Fixed Payments—	Rs.	
1 Into a Depreciation Fund	... 12,000	
2 Towards the unremitted portion of the capital cost of the water-supply works	... 32,000	
Total A—		44,000
B—Estimated payments on account of working charges—	Rs.	
1 Price of water	... 1,200	
2 Establishment	... 10,000	
3 Fuel (say)	... 27,800	
4 Repairs and contingencies	... 5,000	
Total B—		44,000
Grand total of annual charges Rs. ...		88,000

The previous estimate of annual charges was for Rs. 1,17,000. It is now reduced to Rs. 88,000 as above, partly owing to the omission of the item of repairs to the storage works at Hessarghatta now undertaken by the Government and the payment into the Depreciation Fund being reduced in consequence from Rs. 17,000 to Rs. 12,000 and partly owing to the items of fuel and contingencies being revised and reduced from a total Rs. 58,000 to Rs. 32,800, which is now considered sufficient.

10. It must be distinctly understood that the annual payment into the Depreciation Fund may hereafter be increased or decreased as experience may show to be necessary and that, when a sufficient amount is accumulated to the credit of the fund, further payments into it may altogether cease. The payment of Rs. 32,000 to discharge the debt of 8 lacs will cease in 60½ years.

11. On the other hand though Rs. 44,000 per annum are estimated for working charges, the Municipality will of course pay whatever is actually incurred on this account. The estimate as given above being a liberal one, actual charges are not likely to exceed it.

12. The maximum daily supply being 240,000 cubic feet and the annual payment as above Rs. 88,000, the Municipality will pay only the small price of one rupee for every 1,000 cubic feet (6,250 gallons) of pure water delivered at the very doors of the inhabitants. This very satisfactory result is arrived at by charging the Municipality only 8 lacs for what is estimated to cost the State Rs. 14,50,000, and by giving the maximum supply of water from the Government storage works at Hessarghatta, costing Rs. 4,20,720 for the nominal price of Rs. 1,200 a year without any liability for the repairs of those works.

13. Should any portion of the water not required for the City be otherwise disposed of, the price realized will of course be allowed to reduce the annual payment of Rs. 88,000 required from the Municipality. But the settlement now required is for the regular payment of the full amount of Rs. 88,000.

14. For the purpose of such a settlement, the Municipality have necessarily to resort to additional taxation. In the resolution of 16th July 1894 the Board resolved to extend the existing octroi system so as to realize from that source an additional revenue of Rs. 60,000, and utilize the same towards payment for the proposed water-supply. On the 18th of April 1895, the Board resolved further that the water rate of 2 per cent on rental value under the present Municipal Regulation might be increased to one of 4 per cent, and that the lighting tax of 1 per cent on rental value might also be levied. Further, the suggestion has been made that the house-tax, which at present is 5 per cent on rental value, may be increased to 10 per cent.

15. The Government are of opinion that the increase of taxation upon house-property, both directly and on account of water-supply and lighting, from 5 to 15 per cent, will doubtless be felt as a great hardship by the house-owners. The increase of the tax upon immovable property, is always very unpopular and should therefore not be resorted to, except in the case of unavoidable necessity.

16. An expansion of the Octroi is free from similar objection, and in the opinion of the Government it is a species of taxation eminently suited for the requirements of the City.

17. The following table exhibits the articles on which octroi duty is now levied and the revenue derived therefrom in the cities of Bangalore and Mysore, and in the Civil and Military Station :—

Names of Articles.	Amount collected in 1893-94.		
	The Civil and Military Station.	Bangalore City.	Mysore City.
	Rs.	Rs.	Rs.
Cocoanuts fresh	7,297	5,516	4,861
Ditto dry	687	1,516	737
Betel-leaves	8,325	7,174	5,225
Tobacco	30,453	10,956	4,984
Sugar	...	...	4,330
Jaggory	...	...	4,362
Ghee	...	...	7,147
Butter	...	...	385
Sheep and Goats	...	...	6,185
Oil and Oil-seeds.	...	...	3,283
Timber, Teak, Black wood and Chunam ...	...	...	7,655
Cloths	...	...	9,273
License fees	2,751	...	...

Rahadari fees	18	26	...

Total ..	49,556	25,196	58,427

18. Government are impressed with the belief that the imposition of octroi in urban localities on a limited number of articles of comparative luxury is one of the easiest and least burdensome forms of indirect taxation, and they can, therefore, freely commend to the Municipality, the desirability, under the present urgent demand for fresh funds, of expanding its octroi resources by levying duties on the articles now dutiable in Mysore city, plus,—

(1) Supari not already taxed with the Sayer duty,
(2) Raw cotton,
(3) Piece-goods and cloths both Indian and Foreign,
(4) Kerosine-oil,
(5) Lime, and
(6) Metals.

19. In order to enable the Municipality to extend their octroi taxation in the manner proposed in the preceding para, the existing Municipal Regulations have to be amended. This amendment is proposed to be effected in the Draft Regulation now under the consideration of the Government, by adding after the present Section 62, new Sections 62 A, to 62 Q, as has been done in the Civil and Military Station, and by adding a new Schedule C. III of octroi or town duties. It is not intended that all the articles in the Schedule should at once be taxed or that the rates should be those therein specified. The provision proposed to be made in the Law is a maximum one within the limits of which the Municipality can, with the sanction of the Government, expand their octroi revenue to the extent of their requirements.

20. Another item of additional taxation contemplated in the Draft Regulation is to provide for an enhanced water rate of 4 per cent on rental value (instead of the present 2 per cent) in special localities, such as the High Ground, where, owing to the scattered situation of the houses, the cost of distribution as well as the consumption of water are likely to be much higher than in the more thickly populated parts of the Petta.

21. The payment to the Government of the net revenue derived from these new sources, namely, the expansion of the octroi taxation, and the levy of the water rate, will not of course reduce the funds now at the disposal of the Board for their ordinary requirements. As the Government are particularly anxious that there should be no curtailment whatsoever of the Board's present resources, and any consequent paucity of funds for the proper execution of the duties vested in it, the Government further resolve to undertake as follows :—

(*a*) The Board to make over to the Government the actual realizations from the increased octroi and from the water-rate.

(*b*) The Government to recoup itself from sums so received, the actual payment required from the Municipality as per paragraphs 3 to 11 above, and to refund to the Board any balance remaining after such payment.

(*c*) Should the receipts under clause (*a*) not cover the amount of the required Municipal payment under clause (*b*), the Government to grant the Board a remission of the unrealized balance.

22. The Draft Amendment Regulation above referred to will shortly be forwarded to the Municipal Board for an expression of their views.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The President of the Bangalore City Municipality and Deputy Commissioner, Bangalore District.

No. 596—L.F. 194-94, DATED, BANGALORE, 11TH JULY 1895.

ORDER.—In continuation of Government Proceedings No. 171—L.F. 194-94, dated 2nd July 1895, the Government resolve that the Bangalore City Municipal Board be informed as follows :—

The Government reserve to themselves the liberty of modifying the financial arrangement described in the Proceedings above quoted, in the event of the Hessarghatta scheme being hereafter enlarged so as also to include a supply in whole or in part to the Civil and Military Station. Such a modification will have the effect of reducing the annual payment required from the City Municipal Board to a figure appreciably lower than the sum of Rs. 88,000 named in the Proceedings above quoted, though at the same time the grant-in-aid now proposed in the form of a lump sum, in part remission of capital cost, would itself be capable of reduction and may have to take the form of an annual grant-in-aid payment from the Government to the Municipality.

The above should be explained fully to the Municipal Board.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The President of the Bangalore City Municipality and Deputy Commissioner, Bangalore District.

READ :—

Docket, dated 9th April 1895, No. 756—663, from the Deputy Commissioner of the Chitaldrug District, submitting the Budget Estimates of the several Municipalities in the District for 1895-96.

(1) Docket, dated 17th April 1895, No. 792—694, from the same officer, stating that the additional conservancy establishment needed for Davangere Municipality consists of two peons and eight sweepers costing Rs. 43 per mensem and not of two peons and sixteen sweepers costing Rs. 75 as sanctioned in Proceedings, dated 15th April 1895, No. 17260-1—L. F. 3094.

No. 9-14—L. F. 172-94, DATED, BANGALORE, 2ND JULY 1895.

ORDER THEREON.—The estimated receipts and expenditure of the nine Municipalities in the Chitaldrug District are given in the following abstract statement :—

No.	Names of Municipalities.	Opening balance.	Estimated receipts.	Total including balance.	Estimated expenditure.	Closing balance.
1	Chitaldrug	1,672	8,079	9,751	7,652	2,099
2	Davangere	5,021	10,300	15,321	11,006	4,315
3	Harihar	1,157	4,309	5,766	4,582	1,184
4	Hiriyur	238	1,116	1,354	1,008	346
5	Hosdurga	488	1,847	2,335	1,823	512
6	Holalkere	379	1,593	1,972	1,539	433
7	Challakere	129	782	911	714	197
8	Jagalur	205	1,200	1,405	1,100	305
9	Molakalmuru	471	1,680	2,151	1,720	431
	Total ...	10,060	30,906	40,966	31,144	9,822

RECEIPTS.

2. *I. Octroi.*—The anticipated revenue of Rs. 225 from jaggory in Chitaldrug during 1895-96 appears excessive and will be reduced to Rs. 100.

3. *II. House-Tax and VII. Mohatarfa.*—The estimates under these heads represent full revenue therefrom, as the Government moiety was made over to all Minor Municipalities in Government Proceedings dated 12th October 1894, No. 11-20—L. F. 116-93.

4. *X. Miscellaneous.*—The main items of increase under this head are the following :—

(*a*) Sales of lands in Davangere and Harihar.

(*d*) Pounds in Molakalmuru.

In the town of Davangere, the large sum of Rs. 2,500 is expected from the sale of house sites in the new extension, while in the town of Harihar, a sum of Rs. 250 is anticipated equal to what was realized in 1894-95. But no explanation is given for the increase under "Pounds" in Molakalmuru. As, however, the estimate is supported by the probable collections of 1894-95, it will stand.

EXPENDITURE.

5. *II. Head Office.*—The provision of Rs. 40 made in the Budget for 1894-95 on account of furniture for the District office is omitted in the present Budgets as unnecessary. The estimate is accordingly sanctioned.

6. *III. Collection* (*a*) *Octroi.*—The new provision of Rs. 400 made in the Budget of the Chitaldrug Municipality for the current year is on account of the salaries of certain servants, whose entertainment was sanctioned in Government Proceedings dated 13th July 1894, No. 589—3293, for collecting the Octroi duties by amani and is passed

7. *IV. Conservancy.*—The increases provided under this head amount to Rs. 824 as per particulars noted in the margin. The employment of additional sweepers proposed for Chitaldrug and Davangere have already been sanctioned. As the increases in the remaining Budgets are reported to be necessary, they will be approved, except the item of Rs. 50 for the purchase of a cart and a bullock for the Molakalmuru Municipality. In regard to this latter item it should be explained whether it would not be more advantageous to hire a bullock than to purchase and maintain one at the cost of the Municipality. In future, however, no increase which was not previously sanctioned by Government should be entered in the annual Budgets.

Name.	Increases proposed.	
1. Chitaldrug ...	2 sweepers on Rs. 4 each ..	96
2. Davangere ..	1 peon at Rs. 6	516
	1 peon at Rs. 5	
	8 sweepers at Rs. 4	
3. Haribar ...	Increase of salaries of 2 peons from Rs. 5 to 6	24
4. Hosdurga ...	Ditto of 7 sweepers from Rs. 4 to 4½ each	42
5. Holalkere ...	1 sweeper on Rs. 4	48
	Repairing conservancy cart from Rs. 10 to 12	2
6. Challakere ...	Hire of conservancy cart ...	10
7. Molakalmuru.	Increase of two sweepers on Rs. 5 each--120	36
	Deduct scavenger on Rs. 7 84	
	Purchase of conservancy cart ...	50
	Total Rs.	824

8. Under VII. Lighting, each of the Budgets of Davangere, Haribar, Hosdurga and Molakalmuru provides an increase of Rs. 400, Rs 150, Rs. 50 and Rs. 120, respectively, to meet the cost of new lamp posts and lanterns to be purchased. The estimates proposed are passed.

9. *VIII. Public Works.*—The main items of increase proposed for original works are particularized in the margin and they are retained, the necessity for each having been explained in Budget Statements No. I.

		Increase proposed over the estimate for 1894-95.
Chitaldrug ...	(*d*) Drains, original ...	... 500
	(*h*) Other works, original	... 250
Davangere ...	(*h*) Buildings, original	... 166
Jagalur ...	(*f*) Water-supply, original	... 100

10. *IX. Charitable Grants.*—The provision newly made on account of the Dispensary for women and children recently opened in the District head-quarter town accounts for the increase provided for.

	1894-95.	1895-96.
(*a*) Dispensaries ...	908	1,046
(*b*) Midwives ...	700	700

As regards the provision for midwives, the Deputy Commissioner is requested to submit a statement showing the number of midwives now existing and those likely to be employed during the year and their proportionate cost debitable to each Municipality and the District Funds. Subject to the receipt of this Statement, the estimate is approved.

11. X. *Education.*—The sums entered under this head, on account of contributions towards the cost of English and Vernacular schools are in accordance with Government Proceedings, dated 12th October 1894, No. 11-20—L. F. 116-93, and are sanctioned.

12. *XI. Miscellaneous.*—In the Budget of Davangere, an expenditure of Rs. 250 is newly proposed for the formation of a municipal garden, besides an increase of Rs. 150 for the construction of a cattle-pound. Before any expenditure is incurred on the garden, the previous sanction of the Government should be obtained. The estimates are allowed to stand, but the provision for the cattle-pound will be transferred to *XI* (*c*) cattle-pounds.

	1894-95.	1895-96.
(*h*) Other items—		
Municipal garden ...		250
Construction of cattle-pound ...	200	350

13. The other items call for no remarks.

14. The estimated receipts and expenditure of the several Municipalities of the Chitaldrug District for 1895-96 will stand as per details in the accompanying appendices, of which an abstract is given hereunder :—

ORDER THEREON.—Under Government Proceedings, noted in the margin, all senior Public Works Department Officers above the grade of Taluk Mestris are *ex-officio* members of Municipalities at their respective head-quarters. In May last the Deputy Commissioner of Kadur brought to the notice of Government that under the existing rules, the Public Works Department subordinates of the Tarikere, Kadur and Koppa Taluks were members of the Tarikere and Kadur towns only, and not of the remaining Municipalities in those Taluks, and recommended that they might profitably attend the meetings also of those Municipalities. The opinions of the Deputy Commissioners of the remaining Districts and the Chief Engineer were invited on the subject and their replies are recorded above.

2. No. 13322-31—L. F. 153-92, dated 12th February 1894.

2. All the officers consulted are unanimously of opinion that Public Works Department Officers may be made *ex-officio* members of the Municipalities within their respective ranges. But the Deputy Commissioner of Kolar considers that, in the case of non-resident officers, there would be no advantage gained as they would not be in a position to give professional advice in time for the benefit of the Municipality, nor would it be convenient for them to attend the monthly meetings. The Deputy Commissioner of Bangalore is of opinion that their attendance at meetings of Municipalities away from their head-quarters would involve a sacrifice of their time and attention now devoted to comparatively more important work, and suggests that they may be required to attend meetings whenever questions requiring their help and advice are under discussion. Further the Deputy Commissioner of Chitaldrug thinks that regular attendance at the monthly meetings may be inconvenient in their case and that their absence from meetings should be more leniently dealt with than in the case of other officers whose head-quarters are Municipal towns. It is observed that the present rule under which a member who absents himself from 3 consecutive meetings forfeits his seat on the Board, does not apply to *ex-officio* members.

3. The Government are accordingly pleased to approve of the proposal to appoint the Public Works Department Officers as *ex-officio* members of Municipalities not only at their head-quarters but also in their respective ranges, but whenever the urgency of departmental work prevents them from attending at any meeting, they should forward an explanation of the cause of their absence to the Municipality concerned.

READ:—

Dockets dated 16th March and 6th May 1895, Nos. 649 and 842, respectively, from the Deputy Commissioner of the Hassan District, submitting the Budget Estimates of the several Municipalities of the District for 1895-96, together with an explanatory memo and the Proceedings of the Hassan Municipal Board, dated 28th January 1895.

No. 662-7—L. F. 169-94, DATED, BANGALORE, 13TH JULY 1895.

ORDER THEREON.—The estimated receipts and expenditure as well as balance of each of the several Municipalities in the Hassan District for 1895-96 are given in the subjoined Statement:—

No.	Municipalities.	Opening balance.	Estimated receipts for 1895-96.	Total including balance.	Estimated expenditure for 1895-96.	Closing balance.

	Total ...	25,050	34,348	59,398	44,726	14,672

2. The opening balances have not been correctly entered in the Budgets of some of the Municipalities, and the sums entered in the Supplemental Budgets for 1894-95 have been adopted in the abstract appended to para 13 *infra*.

3. The estimated receipts of all the Municipalities in the District for 1895-96 amount to Rs. 34,348 as against Rs. 30,382 of previous year. The increase is due chiefly to the introduction of octroi in Arsikere Municipality, and the amount expected to be realized by the sale of building sites in Saklespur and Hassan Municipalities. The estimates for 1895-96 as compared with those of 1894-95 do not show any great variations and are approved. Including the opening balance the total estimated income amounts to Rs. 58,276 out of which Rs. 44,726 is proposed to be expended.

EXPENDITURE.

4. *II. Head Office.*—The details of the provision under this head are given below:—

	1894-95.	1895-96.
1. Contribution towards Dewan's and Comptroller's offices ...	287	287
2. Pay and travelling allowance to District Office Clerk ...	305	305
3. Contingencies of ditto ...	132	132
4. ditto ditto ...	...	66
5. Town Overseer at Hassan	300	360
6. Clerk for Vice-President's office	...	120
Total ...	1,024	1,270

(*a*) *Item* 4.—The necessity for this items of Rs. 66, in addition to the usual provision for contingencies of the District office has not been explained, and will be struck out.

(*b*) *Item* 5.—As the Overseer or Daroga employed in Chikmagalur or Kolar or elsewhere is not paid more than Rs. 25 per mensem, the increase proposed cannot be sanctioned.

(*c*) *Item* 6.—This having been was once disallowed and now re-inserted without adducing reasons, will also be struck out.

(*d*) The total provision under "II Head Office" as thus modified amount to Rs. 1,024*, which will be apportioned among all the Municipalities in the District in proportion to their receipts.

* Including Rs. 300 on account of the salary of the Town Overseer, which is exclusively debitable to Hassan town.

5. *III. Collection.*—An increase of Rs. 2 to the pay of the Mutsaddi at Alur is proposed by the Board on the ground that he looks after both the Octroi and Mohaturfa collections in the town. It is observed that the commission payable on the estimated revenue from Octroi, House and Mohaturfa taxes aggregating Rs. 1,550 is only Rs. 52 as shown in the † margin, whereas the existing charges exceed this amount by Rs. 44. The proposed increase must therefore be disallowed. The Deputy Commissioner is requested to report whether the collection duty may not be entrusted to village officials, the services of the existing hand being dispensed with.

The revision of the Conservancy establishments and other charges proposed by the Hassan Municipal Board is approved. Likewise the increases recommended by Boards of the minor Municipalities, for which funds are available, owing to the transfer of Government share of house and Mohaturfa taxes, will be allowed except the following items:—

(*a*) The pay of Rs. 10 proposed for scavengers at Arsikere and Belur appears high, and is therefore disallowed.

(*b*) The pay of the peon at Arsikere is recommended to be raised on the ground that he will be required to assist the shanbhog in collecting the octroi tax This cannot be sanctioned in addition to the 5 per cent commission payable to the shanbhog for collecting the duty, for which Rs. 25 is provided under "III collection.'

7. *VII. Lighting.*—Lamps are proposed to be lit newly in the town of Arsikere. The provision made for the purpose is passed. Similar entries made in the Budgets of Belur, Channarayapatna and Arkalgud Municipalities for the purchase of lamp posts in addition to the usual charges, as well as in other towns where arrangements for lighting exist are passed.

8. *VIII. Public Works.*—Out of funds available by the transfer of the Government share of House and Mohaturfa taxes, provision has been made for the marginally noted works which are approved. The Musafirkhana at Alur should be constructed on a standard design to be approved of by Government, *vide* Proceedings No. 5398—L. F. 27-94, dated 23rd September 1894. The warehouse and Octroi Kot'hi may be attached to it if otherwise considered unobjectionable by the Board.

9. *IX. Charitable Grants.*—The marginally noted items account for the increase under this head. An increased provision of Rs. 60 made in the Budget of Alur to meet the cost of charge allowance to the Hospital Assistant raised from Rs. 10 to 15 in Government Proceedings, dated 30th July 1894, No. 1712-14—L. F. 241-92, is sanctioned; but the provision made for the cost of Establishments, &c., at Konanur is entirely debitable to District Funds under Government Proceedings, dated 7th May 1894, No. 1883-42—L. F. 27-93 and that made for the dispensary building in the town will be struck out. The sums newly entered for the purchase of furniture are allowed.

10. *X. Education.*—A sum of Rs. 140 is entered under this head on account of contribution towards the cost of Vernacular schools in the town of Arsikere in accordance with Government Proceedings, dated 12th October 1894, Camp No. 11-20—L. F. 116-93. The Estimate is sanctioned.

11. *XI. Miscellaneous.*—A sum of Rs. 200 is entered under this head in the Budget of Hassan Town on account of Park necessaries and it is proposed to raise the pay of one of its gardeners now drawing Rs. 6 to 7 per mensem, and to employ a new gardener on Rs. 4 in Banavar. These proposals are sanctioned.

12. The other items call for no remarks.

13. The Budget Estimates of the several Municipalities of the Hassan District for 1895-96 are sanctioned as noted in the following abstract Statement :—

READ:—

Letter dated 30th April 1895, No. 232, from the Deputy Commissioner of the Kadur District, submitting the Budget Estimates of the several Municipalities in the District for 1895-96, together with a copy of the proceedings of the Chikmagalur Municipal Board, dated 27th idem.

No. 806-11—L. F. 171-94, DATED, BANGALORE, 16TH JULY 1895.

ORDER THEREON.—The estimated receipts and expenditure as well as balance of each of the several Municipalities in the Kadur District for 1895-96 are given in the following abstract statement, of which details will be found in the accompanying appendices A, B, and C.

No.	Name of Municipality.	Opening balance.	Estimated receipts.	Total including balance.	Estimated expenditure.	Closing balance.
1	Chikmagalur	33,751	23,296	57,047	37,428	19,619
2	Tarikere	1,544	7,000	8,544	6,463	2,081
3	Birur	6,199	8,158	14,357	9,090	5,267
4	Kadur	2,365	2,816	5,181	3,875	1,306
5	Yedahalli	425	1,274	1,699	1,452	247
6	Ajjampur	819	1,650	2,469	1,837	632
7	Sringeri	244	1,940	2,184	2,014	170
	Total ...	45,347	46,134	91,481	62,159	29,322

RECEIPTS.

2. *Octroi.*—The income under this head appears to have been over estimated in all towns excepting Sringeri. It will be reduced with reference to the actuals of 1893-94 and probable collections of 1894-95, as per details given in the Appendix B, of which the totals are exhibited in the margin.

	Proposed.	Sanctioned.
1. Chikmagalur ...	11,530	10,855
2. Tarikere	1,200	1,125
3. Birur	700	650
4. Kadur	600	550
5. Yedahalli	200	150
6. Sringeri	1,285	1,285
Total ...	15,515	14,615

3. *II. Tax on Houses and VII. Mohatarfa.*—The increases under these heads are due to the taxes having been recently revised. The estimates are passed.

4. *VIII. Rents.*—In the Budget of Chikmagalur for 1894-95, a sum of Rs. 40 was entered under the sub-head "(*b*) Gardens" but no receipts are proposed for the ensuing year against an estimated expenditure of Rs. 1,346. The omission requires explanation.

5. *X. Miscellaneous (a) Sale of lands.*—The estimates of Rs. 2,000 and 3,840 entered under this head in the Budgets of Chikmagalur and Birur respectively, are expected from the sale of sites available in the new extensions of the respective towns. In the town of Tarikere, a sum of Rs. 700 is expected to be realized by the sale of sites in the fort.

6. *Miscellaneous (d) Pounds.*—The increased rates of fines on impounded cattle in certain specified localities of Chikmagalur and Yedahalli sanctioned in Government Proceedings, dated 15th March 1894, No. 15284—L. F. 375-92, account for the increase expected in the Municipalities of Chikmagalur and Yedahalli under this head. The estimates are therefore allowed to stand.

7. *X. Miscellaneous (g) Sale of grass.*—An increase of Rs. 100 is expected from the sale of grass in Chikmagalur. The estimate is approved.

EXPENDITURE.

8. Towards the payment of the loan of Rs. 66,000 made from Local Fund General for the Chikmagalur water-supply project, a sum of *Rs. 3,300 is provided for in the Budget under the heads noted in the margin. The total provision, equal to the annual instalments fixed in Government Proceedings, dated 22nd January 1894, No. 11751-3—L. F. 244-92, is passed, subject to adjustment by the Comptroller.

	Rs.
*I. Interest on debt	2,640
XI. Miscellaneous (*a*) Re-payment of loan...	660
Total ..	3,300

9. *Head office.*—The details of the provision under this head are as noted below :—

	1894-95.	1895-96.
(1) Dewan's and Comptroller's office establishments ...	507	507
(2) District office establishment	396	420
(3) Ditto contingencies	36	96
(4) Ditto furniture	50	250
(5) Vice-President's office at Chikmagalur—1 Accountant on Rs. 10 and peon	...	192
(6) Batta of District office clerk	...	100
Total ...	989	1,565

10. *Item* 2.—The increase proposed to the Deputy Clerk, who was entertained but recently under the sanction conveyed in Government Proceedings, dated 30th March 1894, No. 16431-2—L. F. 62-93, cannot be sanctioned.

11. *Item* 4.—which is said to be on account of furniture 'for the Municipal Board office' will be struck out with reference to the remarks contained in para 9 of Proceedings dated 13th August 1894, No. 2551-6—L. F. 29-94.

12. *Items* 3 *and* 5.—will be retained subject to the necessity for the same being fully explained.

13. *Item* 6.—is passed.

14. The Head office charges as now sanctioned amounting to Rs 1,291 will be distributed among the several Municipalities in the District in proportion to their receipts as per following abstract statement.

No.	Name.	Dewan's and Comptroller's office establishments.	District office.				Vice-President's office establishment.	Total.
			District office Clerks.	Contingencies.	Furniture.	Travelling allowance.		
1	Chikmagalur ...	253	198	48	...	50	192	741
2	Tarikere ..	78	60	15	...	16	...	169

7	Sringeri ..	22	17	4	...	4	...	47
	Total ...	507	396	96	...	100	192	1,291

15. *III. Collections (a) Octroi.*—As will be seen from the marginal statement, the charges in Tarikere, where separate establishments are maintained as in Chikmagalur and Sringeri, are abnormally high and in Birur and Kadur, the percentage remuneration payable to the village or Taluk establishments is in excess of the prescribed limit of 5 per cent. The latter will be reduced to the sanctioned scale. As regards the former, the Deputy Commissioner is requested to take steps to reduce the existing establishments to not more than 10 per cent, if the revenue does not improve in the future. In the town of Yedahalli, the salary of the Mutsaddi is proposed to be raised by Rs. 2 and apportioned between this head and IV Conservancy as noted in the margin. As no reasons are adduced for the increase recommended, the same will be disallowed and the sanctioned provision for 1894-95 will be maintained in the present Budget.

16. *III. Collections (b) Mohatarfa.*—The 2 per cent commission payable to the village establishment on account of the Mohatarfa collection is only Rs. 134, but the provision made exceeds this amount by Rs. 216, on account, it is said, of payment of arrears during the past three years. The provision will stand, but the Deputy Commissioner is requested to submit a separate reference as to whether Mohatarfa collections were not taken into account in fixing the potigi allowance of the town Shanbhog and why the commission was not disbursed to him during the past three years. Pending final orders on such reference, no payment ought to be made out of the allotment.

The Municipal Board of Chikmagalur proposes the employment of a Daroga on Rs. 8 per mensem for the supervision of market stalls on the ground that many petty shops exist without being brought on the Mohatarfa list and provide Rs. 96 under the head of "IV Conservancy" instead of under "III Mohatarfa," which is the proper head. It is observed that the annual revenue from market stalls is only Rs. 80, and it is undesirable to employ a separate Daroga to look after them at a cost exceeding the rents realized therefrom. The Deputy Commissioner is therefore requested to arrange for the work being entrusted to the Shanbhog or Patel on payment of the usual percentage remuneration. He should then be held responsible for any of the shops not being brought on the list and the rents recovered punctually. The provision for Daroga will accordingly be disallowed.

17. *IV. Conservancy*—The increases as per margin, are provided in the Budgets for 1895-96. With the exception of the increase of pay of the Mutsaddi at Yedahalli, which has been disallowed in para 15 *supra*, the other items are sanctioned.

5. Ajjampur—	Peon's pay to be raised from Rs. 6 to 7	12

18. *VII. Lighting.*—The provision made for the purchase of new lamp posts and lanterns chiefly accounts for the increase under the head "VII Lighting." The provision is passed with the remark that the cost of lighting each lamp at Rs. 1-4-0 in Chikmagalur and Rs. 1-2-0 in Kadur appears excessive. Steps should be taken to reduce the cost.

19. *VIII. Public Works (a) Supervision.*—The provision made for the purchase of surveying instruments for the use of the Public Works Overseer is passed.

20. *VIII. Public Works*—The estimates under this head include large sums provided for roads and compensation in the towns of Chikmagalur and Birur, necessitated by the extensions of those towns. In Chikmagalur, the construction of a Municipal office and bonded warehouse at a cost of Rs. 3,000 and of Market stalls at a cost of Rs. 400 in Birur are intended to be undertaken. These and other items are approved, subject to the submission of detailed estimates.

23. *XI. Miscellaneous (g) Fairs and festivals.*—The Chikmagalur Municipal Board proposed to raise the provision under this head from Rs. 50 to 100, but the necessity for the same has not been explained. The estimate will however stand.

24. *XI (h) Gardens.*—Of the marginally noted increases provided under this head, the Deputy Commissioner is requested to explain fully the necessity for items 5 and 6 newly entered in the Budget of Chikmagalur and obtain sanction thereto before any portion thereof is utilized. He is also requested to state what portion of the proposed provision of Rs. 200 made in the Budget of Birur is for the purchase of plants.

READ :—

Letter dated 7th June 1895 No. 1498—48, from the Deputy Commissioner of the Bangalore District, submitting the Budget Estimates of the several minor Municipalities of the District for 1895-96.

No. 819-23—L. F. 164-94, DATED, BANGALORE, 16TH JULY 1895.

ORDER THEREON.—The Government regret to remark that these Budgets, which were due on 1st April 1895, were received on 12th June 1895, or only 18 days before the commencement of the year to which they relate. Notwithstanding such long delay, the Budget Statements do not appear to have been correctly prepared, *e. g.* in Statement No. III of details, a sum of Rs. 250 is entered under "VIII Public Works (*a*) Supervision charges" while the same is omitted in Statement No. I, which shows the lump sums. Moreover details under "VII Lighting" and "XI Miscellaneous (*h*) other items" have not been entered in Budget Statement No. III of the several Municipalities. A lengthy memorandum explaining variations in figures, which do not correspond with those entered in the Budget Statements, has been submitted by the Deputy Commissioner, while brief notes against each variation in the column of remarks of Budget Statement No. I would have been quite ample and more useful. The attention of the Deputy Commissioner is invited to the Government Proceedings noted in the margin, and he is requested to enforce in future greater care and punctuality in the preparation and submission of these Budgets.

No. 6861-70—157, dated 8th December 1889.

2. The estimated receipts and expenditure, as well as balance of each Municipality, are given hereunder :—

RECEIPTS.

3. *II House Tax.*—As the house tax is being revised, the Municipal Board of Magadi expect an increase under this head. The causes of increase in Closepet and Anekal and of decrease in Dodballapur have not been explained, nor is it stated whether the revision of taxes ordered in Government Proceedings dated 18th September 1894, No. 5015—L. F. 6-94, was made in Closepet. The omission should now be supplied. Meanwhile the estimates will stand.

4. *VII Mohatarfa.*—In Magadi an increase is expected from the revision of shop tax now being effected in the town. The estimate under "Loom tax" entered in the Budget of Dommasandra appears to be too high and will therefore be reduced from Rs. 300 to Rs. 250 as proposed by the President. There is nothing to justify the large increase under "Cart tax" in Devanhalli and the estimate will be reduced to Rs. 150.

5. *X Miscellaneous (a) sale of houses and lands.*—The actuals of the first hal of 1894-95 and the probable collections of the second half of the year justify the increase expected in Anekal, while increased realizations are anticipated in Devanahalli and Dodballapur owing to the towns being extended. In the Budget of Tyamagondlu for 1894-95, a large income of Rs. 2,000 was expected from the new extension of the town, but in the present estimate no sum is entered under this head, owing probably to there being no sites available for sale.

6. *X Miscellaneous (d) pounds.*—The receipts from cattle pounds appear to have been under-estimated in the Budgets of the marginally noted Municipalities, and they will be raised with reference to the probable collections of the year 1894-95 as noted in the margin.

2. Kengeri ...	164	160	160
3. Channapatna...	418	300	400

7. *X Miscellaneous (g) Sale of manure.*—In Nelamangala, raiyats were allowed to remove manure from dust bins without any cost to the Municipality, while in Magadi, the Municipality pays a fixed amount for its removal. As manure has become very valuable, the Deputy Commissioner raised the low estimates proposed by the respective Boards in the hope of selling as in Bangalore the right to remove rubbish. The estimates are approved and the Deputy Commissioner is requested to adopt a uniform practice throughout the District for disposing of the manure to the best possible advantage of the Municipal bodies concerned.

8. *Opening balance.*—The figures in Budget Statement No. I do not in several cases correspond with those given in the explanatory memo submitted by the Deputy Commissioner. The figures entered as the closing balance of 1894-95 will be adopted as correct in favor of each Municipality on 1st July 1895, as shown in the margin.

The provision for extra remuneration to village officials for collecting House and Mohatarfa taxes disallowed in the Budgets of Nelamangala and Tyamagondlu for 1894-95 is repeated in the present Budgets on the ground that work cannot be got through without special remuneration. Pending the settlement of the general question on receipt of the Deputy Commissioner's reply to Government Proceedings, dated 22nd March 1894, No. 15785-6—L. F. 157-92, the entries will be retained on the understanding, however, that no portion of the same is spent without the previous sanction of the Government.

11. *IV Conservancy.*—The following increases and new items are provided in the Budgets for 1895-96 :—

	Contingencies	20	35	...
11. Dommasandra ...	1 Sweeper at Rs. 3	...	...	36
	Contingencies	4	5	...

The above new items and increases are approved except the following, for which further explanation should be submitted.

(1) The employment of Mutsaddis at Hoskote, Closepet and Anekal must be deferred pending the revision of Taluk establishments.

(2) The increase from Rs. 5 to 6 of the salary of each of the 2 sweepers at Kankanhalli will be disallowed as the proposed pay of the supervising peon is only Rs. 5 per mensem.

(3) The necessity for the increased hire of conservancy carts should be explained.

12. *VII Lighting.*—In the Budgets of Yelahanka, Channapatna, Sarjapur and Dommasandra, provision is made for the purchase of additional lamp posts and lanterns. The increased allotments made therefor as well as for a few others are approved.

13. *VIII Public Works (a) Supervision.*—In the solitary instance of Yelahanka, a sum of Rs. 250 is entered in Statement No. III for the supervision of works to be executed in the Municipality, while it finds no place in the consolidated Budget Statement No. I. As the original roads and drains to be constructed at a cost of Rs. 650 do not justify the expenditure, especially as the necessity for the same has not been explained, the item will be struck out.

14. *Public Works b) to (o) Works.*—Details of works proposed to be carried out by the several Municipalities have not been furnished in Budget Statement No. II, the Budget heads being merely repeated with lump sum allotments against each. In future, full particulars should be furnished. As funds are available by the transfer of the Government share of House and Mohatarfa, the somewhat liberal provisions made for sanitary works in these towns are passed.

15. *IX Charitable grants.*—The Municipal Board of Yelahanka provided Rs. 280 for the establishment of a Local Fund Dispensary in this town. The Government are pleased to sanction the proposal as Yelahanka is rapidly rising in importance and the establishment of a Dispensary at that place will be a boon to its growing population.

16. *XI Miscellaneous (c) Cattle Pounds.*—The details under this head should be stated. The provision of Rs. 100 made in the Budget of Yelahanka against an estimated revenue of Rs. 100 from the cattle pound in the town appears excessive. The Deputy Commissioner is therefore requested to explain the necessity therefor. Pending explanation, the estimate will stand.

17. The other items call for no special remarks and are passed.

18. The estimated receipts and expenditure of the several Municipalities as above sanctioned will stand as shown in the accompanying appendices, of which an abstract is given below :—

	Total ...	34,229	37,018	71,247	48,645	22,602

From the above statement, it would appear that there will be a debit balance of Rs. 87 against Dommasandra at the end of the year 1895-96. If the actual balance on 1st July 1895 in favor of the Municipality does not exceed the estimate entered by Rs. 273, the Deputy Commissioner should propose reductions in the sanctioned Budget allotments.

RECEIPTS.

2. *Octroi.*—The estimate of Rs. 50 entered under this head in the newly formed Municipality of Kalurkatte will be struck out as the Government have not yet permitted the levy of octroi therein. The increases estimated under this head in Nagar, Tirthahalli and certain other Municipalities, being borne out by the probable collections of 1894-95, are passed.

3. *II Tax on Houses and VII Mohatarfa.*—The entries under these heads, being based upon the Jamabandi accounts, are approved.

4. *X Miscellaneous (a) Sale of Lands.*—Under this head is entered the income in Shikarpur and Tirthahalli from the sale of building sites and the same is passed.

5. *X Miscellaneous (d) Pounds.*—Increases expected under this head are due to the inclusion in the estimates of feeding charges of impounded cattle and remuneration to pound-keepers.

6. *Opening Balance.*—The sums entered in some cases under this head do not appear to have been correctly computed. The closing balances entered in the revised Budgets for 1894-95 sanctioned in the Government Proceedings, dated 15th March 1895, No. 14762-4—L. F. 28-94, will be adopted as shown below :—

6 Gumastas in Vice-President's office at Shimoga	144	180
7 Contingencies of ditto	24	24
	1,387	1,515

(*a*) *Items* 2 *and* 3.—The existing establishment charges of the District office being already heavy no further increase can be sanctioned pending explanation called for in Proceedings, dated 18th June 1895, No. 23370-1—L. F. 386-92, the provision in the Budgets for 1894-95 will be repeated in the present Budgets.

(*b*) *Item* 5.—Pending issue of final orders in regard to the printing of the monthly proceedings of the Municipal Board of Shimoga, the provision made for furniture and forms will be retained.

(*c*) *Item* 6.—The increase proposed to the Gumasta in the Vice-President's office will be struck off. No provision should hereafter be made in the Annual Budgets on account of increases to the existing establishments or on account of new appointments without previous sanction.

(*d*) The estimate thus reduced amounts to Rs. 1,387 which will be distributed among the several Municipalities as shown below:—

No.	Municipalities.	Contribution to Dewan's and Comptroller's offices.	Allowance to District office clerk and his contingency.	Taluk Gumasta's pay and his contingency.	Total.
		Rs.	Rs.	Rs.	Rs.
1	Shimoga	203	301	168	672

	Total ...	494	725	168	1,387

8. *III Collection* (*a*) *Octroi.*—The Municipal Board consider that the pay of the Kolkars is small and propose to raise it. But the Government are not prepared to sanction the increase proposed at present and the provision made for 1894-95 will be repeated in the present Budget.

9. *III Collection* (*b*) *Mohatarfa.*—The present arrangement according to which house and Mohatarfa taxes are being collected by the village servants of Shimoga being unsatisfactory, the Board propose the employment of separate

establishments costing Rs. 252 for mensem. With reference to this proposal, the Deputy Commissioner is requested to state whether the remuneration of village servants was not fixed with reference to the Mohatarfa revenue. If so, there is no excuse for the Municipal taxes being left in arrears. The fresh provision will be struck out.

10. *IV Conservancy.*—The marginally noted increases are provided under this head. The Overseer at Shimoga now draws a horse allowance of Rs. 5 per mensem, which is considered insufficient to maintain a horse. The Board propose to raise the allowance to Rs. 10. An increase of Rs. 2 per mensem will be sanctioned raising the allowance to Rs. 7 which is the rate granted to the Public Works Department Mestris. The employment of the additional hands proposed to be employed and the increases recommended to others should be separately reported upon.

		Rs.
Shimoga ...	An increase of Rs. 5 a month for the horse allowance of an Overseer.	60
	An increase of Re. 1 to two peons ...	24
	Ditto Re. 1 to a Dafadar ...	12
		96
Honnali ...	2 sweepers at Rs. 5 a month	120
Nyamti ...	An additional sweeper on Rs. 5 a month ...	60
Shikarpur ...	Increase of Rs. 2 to the Mutsaddi on Rs. 6 a month.	24
	Ditto Re. 1 to a sweeper ...	12
		36
Siralkoppa ..	2 sweepers at Rs. 5 a month	120
Sorab ...	An increase of Re. 1 to three sweepers ...	36
Sagar ...	An additional sweeper at Rs. 6 per mensem ...	72
Tirthahalli ...	An increase of Rs. 2 under (*b*) other charges contingencies.	2
Benkipur ...	One peon at Rs. 5 a month	60
	Repairing wheel barrows	10
		70
Holehonnur...	One peon at Rs. 5 per mensem	60
	Other charges	12
		72
Kalurkatte ...	Other charges	10

11. *VII Lighting.*—It is proposed to introduce lighting newly into the Municipalities of Nagar, Kalurkatte, Shikarpur, Tirthahalli and Benkipur and to purchase additional lamp-posts and lanterns. This accounts for the increases under this head which are allowed to stand.

12. *VIII Public Works.*—The provision made for public works to be executed during 1895-96 includes the marginally noted large allotments for drains and wells in two towns and is passed.

		Rs.
Shimoga.	Drains, original ...	3,000
	Water-supply, original ...	1,500
Channagiri.	Drains, original ...	700

13. *IX Charitable Grants.*—A sum of Rs. 360 is entered on account of the salary of the midwife at Shimoga at Rs. 30 per mensem and the marginally noted provisions are made towards the cost of the Local Fund Dispensaries in some Municipalities. The latter are passed, subject to the submission of applications for appropriation of the provision after the estimates are sanctioned by the Public Works Department. The former will stand pending the issue of final orders on the Deputy Commissioner's reference regarding the salary payable to the midwife at Shimoga.

		Rs.
1	Channagiri ...	1,103
2	Sorab ...	276
3	Sagar ..	640
4	Tirthahalli ...	377

14. *XI Miscellaneous* (*c*) *Cattle-pounds.*—The Budget of Shimoga provides for an increase of one rupee each to the mutsaddi and peon on Rs. 7 and 4, respectively, attached to its cattle-pound. The provision is approved. The increases proposed

in the Budgets of Benkipur and certain other towns are based on increased income expected from cattle fines.

15. *XI Miscellaneous—Gardens.*—Under this head a sum of Rs. 1,000 is entered for improving the garden at Shimoga as against Rs. 300 of previous year. The provision will be retained pending submission of the explanation as to the necessity for the large increase of Rs. 700.

16. The Budget estimates of receipts and expenditure of the several Municipalities of the Shimoga District for 1895-96 are given in the accompanying appendices, of which an abstract is given below:—

No.	Municipalities.	Opening balance.	Receipts.	Total receipts including balance.	Expenditure as sanctioned.	Closing balance.

	Total ...	18,979	42,206	61,185	53,120	8,065

17. From the foregoing statement, balances on the wrong side are expected against Channagiri and Kalurkatte Municipalities of Rs. 1,320 and 92, respectively at the end of the year. If the actual balances on 1st July 1895 in favor of these Municipalities do not exceed the estimates shown above by Rs. 1,926 and 201 respectively, the provisions made under Public Works must be curtailed to the extent of the deficit in each case. The Comptroller is requested to submit a report on this point early.

Letter, dated 30th June 1895, No. 359, from the Deputy Commissioner of the Kadur District, submitting with reference to Government Proceedings, dated 16th May 1895, No. 20583-7—L. F. 245-92, the budget estimates of the newly formed Municipality of Sakrepatna, and requesting a loan of Rs. 1,000 in order to meet the charges that have to be incurred from 1st July 1895.

No. 863-6—L. F. 171-94, DATED, BANGALORE, 17TH JULY 1895.

ORDER THEREON.—In Government Proceedings, dated 16th May 1895, No. 20583-7—L. F. 245-92, the formation of a Municipality at Sakrepatna was sanctioned and the entire revenue from House and Mohatarfa taxes was ordered to be credited to it, and the Deputy Commissioner was also requested to submit the budget estimates first for 1894-95 and then for 1895-96. The Deputy Commissioner submits only those for 1895-96, and requests a loan of Rs. 1,000, to provide funds required for immediate expenditure on conservancy establishments and sanitary works. In column 3 of the Budget Statement No. I, a sum of Rs. 320 is shown to have been actually collected and probably credited to Municipal Funds in 1894-95. The Deputy Commissioner is requested to state whether the amount represents the entire collections under the respective heads during the whole of the past year, and why the Municipality cannot be started with the collections of the past year as a working balance, without unnecessarily running into debt before the Municipality actually comes into existence. Pending further information Rs. 320 will be entered as the opening balance.

3. *II. Head Office.*—As the entire charge under this head has been distributed among the various Municipalities in the District and no extra cost is needed during 1895-96, the Municipality will be excused from making any contribution during the current year, and the provision of Rs. 33 made in the budget will thus be struck out.

4. *III. Collection.*—The provision made for allowances to the Sayer Karkun for the preparation of accounts, &c., will be disallowed, as the clerical portion of the work connected with this Municipality should be managed by the existing Taluk establishment. The collections will of course be made by the village officials.

5. *IV. Conservancy and VIII Public Works.*—The provisions made under these heads are fair and are passed.

6. *XI. Miscellaneous, (d) Pounds.*—The Deputy Commissioner proposes to employ a peon on Rs. 5 to look after the cattle impounded in the town. As the cost of the peon bears a high percentage of Rs. 60 on the estimated receipts from the cattle-pound, the employment of a peon cannot be sanctioned. The pound must be managed by the village Patel on payment of the usual remuneration, which should be intimated. Pending this information the provision will be reduced to Rs. 20.

7. The other items which call for no special remark are passed.

8. The budget estimates of receipts and expenditure of the Sakrepatna Municipality for 1895-96 will stand as shown in the accompanying appendix of which an abstract is given below :—

READ :—

Letter dated 8th June 1895, No. 1395, from the Deputy Commissioner of the Mysore District, submitting the Budget Estimates of the Minor Municipalities of his District for 1895-96.

No. 1504-9—L. F. 167-94, DATED, BANGALORE, 30TH JULY 1895.

ORDER THEREON.—The Government regret to observe that there was considerable delay, which might have been avoided, in the submission of these Budgets. They were due on 1st April 1895, but were not received in the Government office for more than two months after the expiration of the due date. The statements were not moreover prepared in accordance with the instructions contained in Official Memo, dated 8th December 1889, No. 6861-70—157, as details under all heads have not been furnished in Statement No. III and totals of details have not been correctly entered in some cases. The Deputy Commissioner is requested hereafter to enforce accuracy in the preparation of the Budget Estimates, and punctuality in their submission to the Government.

2. The estimated receipts, expenditure and balance of the several Municipalities of the Mysore District are given in the following abstract statement :—

RECEIPTS.

3. *I. Octroi.*—The small increases under this head are based upon the probable collections of 1894-95. The estimates are accordingly passed.

4. *II. Tax on Houses and VII. Mohatarfa.*—The estimates under these heads are supported by the jamabandi figures of 1894-95, and are approved.

5. *X. Miscellaneous.*—The increase under this head, which is anticipated from the sale of building sites in the town of Gundlupet, should have been explained. The estimate will, however, stand.

EXPENDITURE.

6. *II. Head Office.*—An increase of Rs. 200 is provided under this head, Rs. 100 for furniture and Rs. 100 on account of travelling allowance to Municipal Clerks in the District, and the total cost, Rs. 1,208, is proposed to be distributed as under :—

	Per annum. Rs.
1 Head Clerk on Rs. 50	600
1 Deputy Clerk on Rs. 25	300
1 Peon at Rs. 7	84
Contingencies at Rs. 2	24
Total ...	1,008
Furniture	100
Travelling allowance to Municipal Clerks.	100
Total ...	1,208

	Rs.
1. Mysore City ...	867
2. French Rocks Sub-Division Municipalities ...	189
3. Municipalities in the Mysore District ...	152

The proposal is approved. The charges under all sub-heads as now modified will stand at Rs. 256 which will be distributed in proportion to the receipts as shown in the margin.

7. *III. Collection.*—Provision has been newly made on account of remuneration to village servants, as without such allowances, the house and mohatarfa taxes cannot, the Deputy Commissioner considers, be promptly collected. Before the proposal is sanctioned, the Deputy Commissioner is requested to state whether the mohatarfa collections were not taken into account in fixing the pakka potigi allowances to village servants, and, if so, why any extra percentage remuneration should be paid to them for the work. The provisions will, however, stand, but no expenditure should be incurred before the issue of final orders on the subject.

8. *IV. Conservancy.*—The following increases which are provided under this head being necessary are sanctioned :—

1. *Hunsur*.....Rs. 60 for the entertainment of two temporary sweepers and a cart for six months of the year 1895-96.
2. *Gundlupet*..... .. 120 for the entertainment of two additional sweepers at Rs. 5 each.
3. *Gundlupet*..... 180 for the entertainment of an additional cart at Rs. 15.
4. *Gundlupet*..... 15 for purchasing baskets, pickaxes, &c.

Total... 315

5. *Chamrajnagar* ... 72 for the employment of an additional sweeper at Rs. 6.
6. *Chamrajnagar* ... 72 for the employment of a peon on Rs. 6.
7. *Chamrajnagar* ... 100 for the employment of a cart for the removal of street sweepings.

Total ... 244

8. *T. Narsipur* ... 50 for purchasing wheel barrows for removing sweepings of the town.
9. *Sosale* ..... 10 ditto ditto ditto.

Grand Total ... 679

9. *VII. Lighting.*—Arrangements for lighting are proposed to be newly introduced into the Municipalities of Sargur and Heggaddevankote at a cost of Rs. 121 and Rs. 60, respectively, the number of existing lamps being increased in Chamrajnagar, Gundlupet, Nanjangud and T. Narsipur. The estimates are accepted.

10. *X. Education.*—The provisions made under this head are in accordance with Government Proceedings noted in the margin and are passed.

C. No. 309-25, dated 2nd March 1894.
C. No. 11-20, dated 12th October 1894.

11. *XI. Miscellaneous (h) Other Items.*—The entry on account of unforeseen expenditure will stand subject to sanction being specially obtained for utilization of sums entered under this head.

12. The other items of receipts and charges, which call for no special remarks, are sanctioned.

13. The Budget Estimates of receipts and charges for 1895-96 are sanctioned as per particulars given in the accompanying appendices of which an abstract is given below:--

READ:—

(1) Extract of para 3 of Government Proceedings No. 485-6—L. F. 25-94, dated 10th July 1895.

3. *Public Debt.*—The sum entered under this head in the Budgets of Gundlupet and Nanjangud is expected from the adjustment of advances made for works in previous years by a credit to the advances and debit to the proper head of expenditure. As these are not of the nature of revenue and their inclusion in the estimates would give an erroneous notion of receipts and expenditure of a Municipality, (although their entry in the accounts is necessary to show the actual expenditure incurred on works and advances remaining unadjusted) the Comptroller is requested to state whether the entries may not be omitted under receipts and expenditure. The explanation in regard to the source from which Rs. 215 is expected in Hunsur is not clear. Fuller particulars should be furnished.

(2) Letter from the Comptroller, dated 19th July 1895, No. 179.

With reference to para 3 of Government Proceedings No. 485-6—L. F. 25-94, dated 10th instant, I have the honor to state that additional entries in the Municipal Budgets under receipts and expenditure to meet the adjustment of advances seem unnecessary and may be omitted.

No. 1493-4—L. F. 25-94, DATED, BANGALORE, 30TH JULY 1895.

ORDER THEREON.—In accordance with the opinion of the Comptroller, the Government are pleased to direct that the estimates entered under "Public Debt," both on the side of the receipts and expenditure on account of advances, imprests, &c., in the Municipal Budgets of the Mysore District, exclusive of the French Rocks Sub Division for 1894-95, be struck out. No such entries should in future be inserted in the Annual Budgets.

V. N. NARASIMMIYENGAR,

General Secretary.

2. The decrease under current demand in the Bangalore and Chitaldroog Districts, as shown below, requires explanation which the Deputy Commissioners concerned will furnish at an early date :—

Year.	Bangalore.	Chitaldroog.
	Rs.	Rs.
Last year	9,21,392	5,34,420
Current year	8,87,807	5,28,729
Difference	—33,585	—5,701

3. The percentage of balance in the entire demand has been as follows :—

District.	1893-94.	1894-95.	District.	1893-94.	1894-95.
Shimoga ...	12·8	19·8	Hassan ..	4·9	5·9

Kolar ...	6·3	8·3	Bangalore ...	2·7	1·6
Mysore ...	11·7	7·7	Chitaldroog ...	·7	1·5

The Chitaldroog, Bangalore and Tumkur Districts have shown good results.

4. The balances in the Shimoga and Kadur Districts are very heavy, while those in the Mysore, Kolar and Hassan Districts are somewhat better though not quite satisfactory.

5. The collections as shown by the Deputy Commissioners differ from the Comptroller's figures to the extent noted below :—

District.	As per Deputy Commissioners'.	As per Comptroller's.	Difference.
	Rs.	Rs.	Rs.
Bangalore	8,88,677	8,88,671	+6
Kolar	10,33,705	10,33.992	—287
Mysore	12,90,600	12,88,310	+2,290
Hassan	9,47,704	9,47,518	+186
Shimoga	9,89,667	9,90,014	—347

The attention of the Deputy Commissioners is drawn to the instructions contained in Government Proceedings No. 8263-71—R. 1210, dated 21st November 1894 with a request that these differences be adjusted finally in the accounts for June 1895 in communication with the Comptroller, if necessary.

6. The Salwar details of Balance given in Statement (I. A.) attached show that except in the Kadur, Tumkur and Chitaldrug Districts portions of the arrears due relate to years so far back as 1882-83, and in the case of Kolar to 1876-77. Early measures should be adopted for the adjustment of these old arrears. The Deputy Commissioners of Kolar, Hassan and Mysore are requested to submit Kulwar statements of the arrears dating prior to 1882-83.

7. *Sayer.*—The balances at the close of the month remaining uncollected are heavy in the Districts of Shimoga and Tumkur.

8. *Salt.*—Calls for no special remark except that the balance of Rs 526 remaining uncollected in the Kadur District should be collected early.

9. *Mohatarfa.*—The outstanding balances in the Districts of Kolar, Mysore, Bangalore and Shimoga are very heavy and call for the Deputy Commissioners' early attention.

10. *Miscellaneous.*—Rs. 10,759 shown as balance of arrears in the Shimoga District remains still very heavy. The Deputy Commissioners' early attention is drawn to this fact.

ORDER THEREON.—It is not the intention of Government to introduce the coffee tenure or assessment of the Malnad into the Maidan parts of the Province. Land taken up for coffee cultivation in the Maidan must be treated like land taken up for any other cultivation. It should bear the ordinary survey assessment.

2. Such land may be granted free of sale when it has no market value, and *shraya* may be given when it is unoccupied waste for which no applicants on full assessment are forthcoming.

ORDER THEREON.—The Government are pleased to direct that the pay of the Assistant Secretaries and Huzur Head Sheristedar shall be fixed as follows :—

(*a*) If they belong to the grade of Assistant Commissioners, their pay would be Rs. 50 more than the pay of their grade.

(*b*) If they do not belong to the grade of Assistant Commissioners, their pay will ordinarily begin at Rs. 300 and rise to a maximum of Rs. 500 in five years by annual increments of Rs. 40.

2. Messrs. B. Ramaswami Iyengar, C. Srikantoswara Iyer, and C. Rama Rao, will be entitled to draw their pay accordingly from the date on which they entered upon their duties as Assistant Secretaries and Huzur Head Sheristedar, respectively.

Correspondence ending with the Survey Superintendent's letter No. 298, dated 22nd June 1895.

No. 143-53—REV. 69, DATED, BANGALORE, 6TH JULY 1895.

ORDER THEREON.—In the letter read above, the Survey Superintendent submits certain proposals having for their object the improvement of the pay and prospects of the superior officers now employed in the Revenue Survey Department. The local rates now obtaining in the Province are those laid down in the Proceedings of Government No. 291-92, dated, Mysore, 13th June 1889. Colonel Grant, proposes a more liberal scale in order to make the service sufficiently attractive. While concurring with him in thinking that an improvement is necessary, the Government are of opinion that it is undesirable to prescribe a new scale for the sake of the very limited number of officers now working in the Department. They consider it sufficient to take up the case of each of those officers separately and to deal with it according to his own service and merits.

2. Mr. D. Appu Rao is seconded in the first grade of Assistant Commissioners, and has been in charge of the office of Deputy Superintendent since 1st November 1892. Colonel Grant speaks highly of him and recommends his appointment as Deputy Superintendent on Rs. 500 + 200, total Rs. 700. The Government have great pleasure in accepting this recommendation. In consideration, however, of the fact that Mr. Appu Rao has not drawn any extra allowance since 1st November 1892 when he was placed in charge of the office of Deputy Superintendent, the Government are pleased to direct that his pay as Deputy Superintendent to which he is now appointed should be Rs. 800 per mensem from 1st July 1895.

3. Mr. D. Shama Rao is an Assistant Superintendent of the first grade on Rs. 300 and has had charge of a field establishment for more than nine years. He will be promoted to the rank of Special Assistant Superintendent on Rs. 450 with effect from the 1st instant.

4. Mr. K. Ramaswamiengar, M. A. who was an Assistant Commissioner of the 3rd Class on Rs. 300, and whose services have recently been transferred to the Survey Department, will likewise be appointed a Special Assistant Superintendent on Rs. 400 rising to Rs. 450 after two years' approved service.

5. The Government are of opinion that it will be undesirable to allow every Assistant Superintendent in the Survey Department to rise as a matter of course by length of service to a maximum pay of Rs 500 or even to the reduced maximum pay of Rs. 450. Promotion beyond the present 1st grade on Rs. 300 should be by selection and appointment as "Special Assistant Superintendent," to which as a separate grade the salary of Rs 400 rising to Rs. 450 will be attached. The Government further think that the maximum pay of a Special Assistant should not be higher than that of a first class Assistant Commissioner.

6. As regards fixed travelling allowance the Superintendent of Revenue Survey recommends an increase from Rs. 30 to Rs. 60 per mensem all round. The Government resolve to restrict the higher rate recommended to officers appointed as Deputy Superintendent or Special Assistants.

7. The grades of Assistant Commissioners in the Revenue Department, Assistants and Special Assistants of the Revenue Survey and Superintendents and Assistant Superintendents of Police will be regarded as parallel grades of the public service, entitling the officers therein to co-ordinate rank and status as between themselves and to promotion, when qualified by prescribed examinations and otherwise, to the grade of Sub-Division officers. With this object in view the highest salary to which an officer in any of these grades can rise in his own Department is fixed at Rs. 450, and his next step will ordinarily be to a Sub-Division on Rs. 600 to which the appointment will always be made by selection and not by seniority.

Correspondence ending with letter from the Superintendent of Revenue Survey dated 12th July 1894, No. 22.

No. 375-6—R. F. 55 OF 1894, DATED, BANGALORE, 6TH JULY 1895.

ORDER THEREON.—In 1815 His Highness the late Maharaja Krishnaraja Wadayar granted a Nirup in which it was directed that the village of Manchanhalli with its hamlets should be granted to certain Brahmins on a Kayamgutta of Pagodas 56-3-1 (Rs. 163-12-9) which was arrived at in the manner shown in the margin, and that the sum minus 56 Pagodas (Rs. 162-14-7) previously granted as cash Inam, should be levied annually from the Inamdars. In other words the whole village was granted subject to a payment of $3\frac{1}{16}$ Fanams, *i. e.*, Rs. 0-14-2.

2. The account of 1833, however, shows that the whole village was not granted on Kayamgutta, that there were other lands in the village which were cultivated under the orders of the Amil, and that the Beriz fixed in the Sannad was only of a portion of the lands in the village. It also shows that the cash allowance was liable to fluctuation. The details given in the accounts of 1833 are as follow:—

	P.	H.	V.
Total Beriz as per account of Khara	93	8	5
Deduct—

3. Subsequently the cash allowance was discontinued altogether, though it cannot be ascertained when and why it was discontinued, and the Inamdars were allowed to enjoy only the dry lands of the village subject to the payment of the gutta amount of P. 56, H. 3, V. 1 (or Rs. 163-12-9). Later on a sum of Rs. 40-8-4 was added to the Jodi on account of the conversion of some of their lands into wet This state of things continued up to the date of the Inam Settlement in 1880 when the dry lands, including the portion converted into wet, were confirmed to the Inamdars on a Jodi of Rs. 163-12-9 + Rs. 40-8-4, plus a quit rent of Rs. 2-0-9, the total combined quit rent being Rs. 206-8-4. But in confirming these lands the area of the dry lands confirmed was not stated, but only their reputed net Beriz, as given in the Nirup, plus 10 per cent, which amounted to Rs. 180-2-10. The area was not specified because the accounts did not show the particulars. But now, according to the Survey, the area, of the lands in the possession of the Inamdars is stated to be 593 acres 22 guntas, assessed by the Survey Department at Rs. 454-4-0. The question now raised is whether any charge should be made on account of the increase in the valuation of the lands as compared with the Beriz given in the Nirup and the Inam Register. The Superintendent of Revenue Survey proposes to take the Beriz given in the Sannad plus 10 per cent as the value of the grant, and to dispose of the excess value under the rules applicable to excess discovered in land Inams. That is, he proposes to allow 50 per cent of the excess value as Inam and to treat the remainder, *i. e.*, lands, assessed at Rs. 137, as Khalsat.

	Rs.	a.	p.
Beriz ...	163	12	9
10 per cent ...	16	6	1
Total ...	180	2	10

4. The Inamdars object to this settlement and say that no charge should be made on account of the excess, as all the dry lands were granted to them as Inam subject to a fixed "gutta," and the grant was not for a fixed sum of money. The Deputy Commissioner supports their contention.

5. Government are of opinion that, under the circumstances represented, the Inamdars ought not to be made liable to any charge on account of the so-called excess. Though, on account of the exclusion of the wet land of which the assessment is levied directly by Government, the dry lands in the possession of the Vrittidars, including the portion in their holding recently converted into wet, cannot be called a whole village, yet from the special features of this case the analogy of minor Inams does not seen to apply. These Vrittidars were given the whole of the dry land in the village on a permanent "gutta," and the Survey valuation of such lands should not enhance their liability beyond paying the fixed sum of the "Gutta" and the quit rent imposed at the Inam Settlement They cannot be said to have made any encroachment on the lands belonging to Government and therefore no excess can, and ought to be, charged on account of the Survey valuation.

6. The object of the grant was evidently that the Inamdars should take the difference between the income to be derived from the use of the lands and the Jodi which they were directed to pay to Government, and there are no means of ascertaining the value of this difference. This being so, and the grant not being for a whole village, the imposition by the Inam Department of a quit rent on the difference between the value of the lands the Inamdars enjoy, as fixed by the Survey and the Jodi therefor they always paid is proper. Accordingly the Inamdars are only liable to pay a quit rent of $\frac{1}{5}$th on the net Survey valuation of the lands including the wet assessment of the lands on account of which a charge of Rs. 40-8-4 was made, that is, on Survey valuation under the rules, minus Jodi. The Survey Superintendent is requested to dispose of the case accordingly.

(3) Muzrai Secretary's Memo, dated 21st June 1895, on the same subject.

No. 401-2—REV. 157, DATED, BANGALORE, 8TH JULY 1895.

ORDER THEREON.—The Deputy Commissioner submits for orders the records connected with the enquiry into the levy by the Gurn of the Avini Matt in the Mulbagal Taluk of certain taxes on shops, &c., during the annual Jatra at Avini, on payment to Government of a yearly Mohatarfa tax of Rs. 50 and states that the levy being unauthorized and illegal it may be stopped, arrangements being made for the collection of fees on shops as well as on bulls brought for sale during the Jatra on the same terms as those in the Nundy temple for the benefit of the Ramalingeswara temple under Government management.

2. The Avini village in the Mulbagal Taluk was held by the Avini Matt on the Izara system from 1838 to 1870, after which the Rayatwari settlement was introduced. Under the Izara system the Matt was paying to Government at the rate of 271 C. Pagodas up to 1860, when it was increased to 343 Pagodas. This amount included an item of Revenue called "Nelavari" which was remitted in the late Commissioner's office as a new item. The Division Superintendent of Bangalore after enquiry ordered that the term "Nelavari" should be changed into shop tax, which every person who kept a shop during the Jatra paid to the

Matt. The Izara system was discontinued from the year 1870-71 and the revenue of the village settled as other Government villages, the total kandayam payable being fixed at Rs. 1,323 against Rs. 1,000 of the previous year. Out of the shop tax collected the Matt has been paying Government Rs. 50. The Mohatarfa collections in 1893 amounted to Rs. 185. This amount and the receipts from "Kanike" collected on the Avini Hill is stated to be utilized for the car festivities, feeding Brahmins, &c., in addition to about Rs. 500 spent from the funds of the Matt. The temple has a "Tasdik" of Rs. 6 and enjoys Inam lands assessed at Rs. 100. The Avini Hill, dry No. 87, extent K. 12, K. 6, P. 8, is treated as Inam to the temple under the authority of Dewan Purnaiya's sannad of 1801-2.

3. Government observe that "Nelavari" is a very significant term and must be regarded as the ground rent levied by Government for the use of its ground by the Matt.

4. The Matt has acquired almost a prescriptive right to collect fees from the traders who assemble at the time of the Jatra, and the income is said to be used for the purposes of the temple, and is paid by the parties concerned without any complaint or objection. There is no reason why the Government should now interfere either to stop the levy altogether, or to snatch it away from the Matt. Such collections in the interests of temples have been authorized elsewhere, and as the Matt pays Rs. 50 to Government as ground rent for the use of Government land the anology of this case with other similar cases seems to be perfect.

5. Regarding the proposed levy of a fee from cattle-dealers, the circumstances of the present case compared with those alluded to by the Deputy Commissioner are entirely different, and it seems unnecessary to introduce any innovation and authorize its collection.

6. Under these circumstances Government direct that the present practice be continued and the Matt left undisturbed in its collection of taxes on temporary shops during the annual Jatra at Avini.

Correspondence ending with letter No. 634, dated 13th March 1895, from the Deputy Commissioner, Hassan District, regarding the grant for cultivation of gomal Survey No. 22 extent A. 13 G. 6 in the Bechirakh village of Muggannahalli, Hassan Taluk.

No. 970-7—R. F. 5-95, DATED, BANGALORE, 21ST JULY 1895.

ORDER THEREON.—In 1892 two Phod Darkhasts were received from Rangaiya and Boregauda for the gomal land referred to above. In January 1893 Amildar Parthasaradaiengar recommended the grant of the land. In June 1893 the Deputy Commissioner directed the Amildar to have the land sub-divided and to submit the records. About August 1893 the Darkhastdars complained of delay and pressed for the early grant of the land. In September 1893 Boregauda represented that as the cultivating season was advancing a saguvali chit for the whole number might be issued in the name of either of the Darkhastdars and the sub-division of the number might be proceeded with. Amildar Chokkanna then ordered that a saguvali chit should be given for the year Vijaya (1893-94). The land was subsequently sub-divided, and the Deputy Commissioner in submitting the papers for the final sanction of Government observes that the procedure adopted by Amildar Chokkanna is opposed to paras 1 and 9 of Rule XX of the Land Revenue Rules, inasmuch as the land is gomal and contains five date trees valued at Re. 0-14-0. Amildar Chokkanna who was required to submit his explanation in the matter states that from the order issued in June 1893 by the District office for sub-dividing the land he believed that the previous sanction of Government had been obtained for the grant of the land and that the saguvali chit was given by him through an oversight and mistaken judgment.

2. The Amildar's explanation is anything but acceptable. To anticipate Government sanction in matters in which such sanction should be obtained beforehand might lead to serious consequences. In the present case as the village is Bechirakh and the value of the trees standing on the land is only 14 annas, Government are pleased to confirm the grant of the land for cultivation. The value of the trees should be recovered and the sub-divided numbers duly assessed in communication with the Superintendent of Revenue Survey in Mysore.

Letter No. 51, dated 9th July 1895, from the Deputy Commissioner, Mysore District, submitting with reference to para 32 of Government Proceedings No. 13931-65—R. F. 236-92, dated 5th February 1894, a statement of Land Revenue arrears outstanding against each village up to the year 1886-87.

No. 1004-11—R. F. 236-92, DATED, BANGALORE, 20TH JULY 1895.

ORDER THEREON.—The statement submitted with the letter read above shows that there are no arrears of Land Revenue in the Heggaddevankote and Malvalli Taluks up to the year 1886-87. No figures have been entered against the Mysore Taluk, nor has the word "Nil" been inserted as in the case of the two Taluks named above. It is therefore doubtful whether there are any arrears in this Taluk. The subjoined table exhibits the balances outstanding in the other ten Taluks of the District classified according to the heaviness of arrears in them :—

2. ***Krishnarajpete Taluk.***—There is a small balance of Rs. 37-14-7 in this Taluk in the villages of Ballekere and Amanikere, of which Rs. 4 and Rs. 2-4-3 relate to the years 1879-71 and 1874-75 respectively, and appertain to the former village. It is unsatisfactory that these small balances have been allowed to be outstanding in the accounts for the past twenty years and upwards.

3. ***T. Narsipur Taluk.***—The arrears of Rs. 41-4-1 in this Taluk relate to a single village, namely Bannur, and are due for the years 1880-81 to 1882-83.

No. 813-21—Rev. 313, DATED, BANGALORE, 19TH JULY 1895.

ORDER.—In supersession of the present scale of Amildars the Government are pleased to direct that the 5th class of Amildars on Rs. 100 + Rs. 20 horse allowance be abolished, and that the following scale be adopted with effect from 1st July 1895:—

	Rs.
6 in the 1st class on	250

2. *Krishnarajpete Taluk.*—There is a small balance of Rs. 37-14-7 in this Taluk in the villages of Ballekere and Amanikere, of which Rs. 4 and Rs. 2-4-3 relate to the years 1870-71 and 1874-75 respectively, and appertain to the former village. It is unsatisfactory that these small balances have been allowed to be outstanding in the accounts for the past twenty years and upwards.

3. *T. Narsipur Taluk.*—The arrears of Rs. 41-4-1 in this Taluk relate to a single village, namely Bannur, and are due for the years 1880-81 to 1882-83.

4. *Nagamangala Taluk.*—Six villages in this Taluk are in arrears amounting to Rs. 46-12-5 and distributed over the years 1879-80 to 1886-87. The total balance against one of the villages, *viz.*, Vadarahalli, is Rs. 5-2-3 at Re. 0-11-9 per annum commencing from the year 1880-81. It is strange that these trifling sums which could have been recovered easily have fallen in arrears for the last fifteen years. If irrecoverable, they should have been recommended for remission long ago.

5. *Yedatore Taluk.*—The total balance in this Taluk amounts to Rs. 145-8-3 distributed over the villages of Dhoranhalli, Saligrama and Ankanahalli, and dates from the year 1881-82.

6. *Chamrajnagar and Hunsur.*—The outstanding balances in these Taluks appertain to 14 and 5 villages respectively, and to more recent years.

7. *Seringapatam Taluk.*—Although the arrears of this Taluk are not very heavy, yet they are very old being due for the years 1879-80 to 1886-87, and relate to 14 villages.

8. *Mandya, Gundlupet and Nanjangud.*—The arrears in these Taluks are heavy, especially in the last named Taluk. The balance in the Mandya Taluk which relates to the marginally noted seven villages is stated to be irrecoverable owing to the breach of tanks in them during the years 1877-78 and 1881-82. The reason for its non-adjustment up to date has not been stated. The balances in the Gundlupet and Nanjangud Taluks are due on account of 27 and 33 villages respectively. As regards the heavy balance of Rs. 538-13-7 and Rs. 4,707-3-3 due by the Jodidar of Rampur in the Nanjangud Taluk for the years 1882-83 and 1883-84, it is remarked that the village has been bought in by Government and that the arrears still remain in the accounts. What steps have been taken to adjust this large balance has not been stated.

1. Mandya.
2. Kilara.
3. Hullegere.
4. Kambarahalli.
5. Basrala
6. Mayappanalli.
7. Chikkaballi.

9. Government observe that the general remark made in the statement to the effect that "remission lists will be called for if the arrears are irrecoverable" is not satisfactory. Timely steps should have been taken for the recovery of the balances which are in most cases very old. Due notice should be taken of the conduct of those at fault in not recovering the arrears promptly, or not seeing them recommended for remission. It is hoped that the Deputy Commissioner will now adopt suitable measures in adjusting the arrears at the earliest possible date.

The Deputy Commissioners of other Districts for information.

No. 1167-74—Rev. 413, DATED, BANGALORE, 25TH JULY 1895.

ORDER.—As the Land Revenue balance shown in the monthly Demand, Collection and Balance returns (Nos. 4 and 5) includes the irrecoverable arrears for which remission statements are pending Government sanction as also arrears the recovery of which may have been postponed by order of Government, &c., Deputy Commissioners are requested to enter in the column of "Remarks" in their future returns all sums pertaining to the items noted in the margin so as to enable Government to form a correct idea of the arrears outstanding and of the reasons therefor. Such foot notes as will explain the nature of balance, and the cause of delay in its collection, should also be added.

1. Amount included in the remission statements pending sanction of Government.
2. Amount whose recovery has been postponed by order of Government, &c.,
3. Amount of kandayam due on lands taken up for gold mining purposes which has not been collected pending orders of Government.
4. Arrears due on account of Inam villages brought under Government management which have to be adjusted in due course.

1. ***Land Revenue including Casual Land Revenue.***—There is an appreciable decrease under current demand in the Bangalore, Tumkur, Shimoga, Chitaldrug and Mysore Districts as shown below. This requires explanation.

	Bangalore.	Tumkur.	Shimoga.	Chitaldrug.	Mysore.
	Rs.	Rs.	Rs.	Rs.	Rs.
Last year	6,79,681	6,62,700	8,59,644	3,69,676	7,93,371
Current year	6,25,107	6,45,416	8,48,604	3,62,565	7,91,273
Difference	—54,274	—17,284	—11,040	—7,111	—2,098

2. The proportion of uncollected balance to the entire demand has been as follows :—

Districts.	Proportion of balance per Rs. 100 of entire demand.	
	1893-94.	1894-95.
Kadur ...	11·6	21·6
Shimoga	10·4	19·2
Mysore ...	10·8	10
Hassan ...	8·1	9·9
Kolar ...	6·4	7·2
Tumkur...	2·6	4·9
Chitaldrug	1·1	3·2
Bangalore	2·1	1·5

3. The balances remaining uncollected comprise arrears dating from the years noted below. They are of very long standing in all the Districts except Tumkur, Kadur and Chitaldrug. Every endeavour should be made to recover them without any further delay.

Districts.	Amount.	Dating from.
	Rs.	Rs.
Shimoga ...	1,77,835	1881-82
Kadur ...	1,38,073	1887-88

Kolar ..	58,631	1876-77
Tumkur ...	31,545	1888-89
Bangalore ..	9,662	1881-82
Chitaldrug ...	11,767	1890-91

4. The collections as given by the Deputy Commissioners differ from the Comptroller's figures as shown hereunder :—

Districts.	As per Deputy Commissioners'.	As per Comptroller's.	Difference.
	Rs.	Rs.	Rs.
Bangalore ...	6,30,786	6,30,780	+ 6
Kolar ...	7,53,176	7,53,463	—287
Tumkur ...	6,14,947	6,15,140	—193
Mysore ...	9,01,145	8,98,855	+2,290
Hassan ...	6,65,594	6,65,407	+187
Shimoga ...	7,14,817	7,15,095	—278

5. The Deputy Commissioners of these Districts should place themselves in communication with the Comptroller and adopt early measures to adjust the differences above pointed out. In this connection the attention of the Deputy Commissioners is drawn to the instructions contained in Government Proceedings No. 8263-71—R. 1210, dated 21st November 1891.

6. *Sayer.*—The balances remaining uncollected in the Shimoga and Tumkur Districts should be collected early. Properly speaking there should be no arrears under this head.

7. *Salt.*—Calls for no special remark, except that the arrears outstanding in the Kadur and Kolar Districts demand early attention on the part of the Deputy Commissioners.

8. *Mohatarfa.*—The Deputy Commissioners of Mysore and Kolar will take early steps to collect the large balances of Rs. 13,665 and Rs. 12,505 respectively, remaining uncollected at the end of the month.

9. *Miscellaneous Collections.*—The arrears of Rs. 10,765 in the Shimoga District, most of which are on account of interest, should be either collected or recommended for remission without delay.

* Inclusive of Rs. 155 which is shown in the statement received from Huzur Treasury but omitted in statement No. 6 received from the Excise Commissioner.

Land Revenue.—The progress of collection work during the period under review can be judged from the percentages of Balance to the entire Demand given below:—

Districts.	Percentage. Last year.	Current year.
Shimoga	58·3	66·5
Hassan	54·2	43·4
Mysore	41·9	39·9
Bangalore	22.7	57·0
Kolar	30·7	34·3
Kadur	14·7	21·1
Chitaldrug	12·7	17.6
Tumkur	26 1	1·8

The Land Revenue collections as per Comptroller's returns differ to the following extent from the figures furnished by the Deputy Commissioners:—

Districts.	As per Comptroller's accounts.	As per Deputy Commissioners' accounts.	Difference.
	Rs.	Rs.	Rs.
Bangalore	16.193	16,199	+6
Kolar	57,365	57,103	—262
Mysore	1,37.063	1,39.498	+2,435
Hassan	43,694	43,881	+187
Shimoga	26,604	26,444	—160

The Deputy Commissioners of Bangalore, Kolar, Mysore, Hassan and Shimoga Districts are requested to explain, at an early date, the cause of this difference notwithstanding the clear instructions given in Government Proceedings No. 8263-71—R. 1210, dated 21st November 1894.

The attention of the Deputy Commissioners of Mysore and Hassan is drawn to para 4 of the order, with a request that the subsequent alterations, if any, to be effected in the accounts already submitted by them, should be intimated without further delay.

Forest.—The closing balances against the Districts of Bangalore, Mysore, Hassan, Shimoga and Kadur Districts appear to be heavy owing probably to the greater part of the realizations at the recent sandalwood sales being held over for payment within the stipulated time. These are fluctuating balances, and it is hoped that they have been cleared by this time.

Sayer.—The circumstances under which balances to the extent of Rs. 12,23, Rs. 2,858 and Rs. 1,408 remained uncollected in the Tumkur, Kadur and Chitaldrug Districts, respectively, are not clear, and the Deputy Commissioners are requested to explain them.

Mohatarfa.—The attention of the Deputy Commissioners of Kolar and Mysore is drawn to the large balance at the close of the month.

Miscellaneous Collections.—In Shimoga there is an arrear balance of Rs. 10,438 mainly on account of interest on arrears, balance dating from 1881-82. The Deputy Commissioner is requested to adopt very early measures to collect the arrears or recommend them for remission.

No. 960-9—REV. 350, DATED, BANGALORE, 21ST JULY 1895.

ORDER THEREON.—In Government Proceedings, Camp No. 2032—12, dated 2nd May 1890, rules for the voluntary registration of Cooly Mestris were prescribed as a tentative measure, and in Proceedings No. 12199-212—G. 2584-92, dated 3rd January 1893, the Deputy Commissioners were directed to work the scheme by giving the widest publicity possible to the rules and report the result briefly every year when submitting their Administration Reports.

2. Government regret to observe that the Deputy Commissioners except those of Kolar and Kadur have omitted all mention of this subject in their Administration Reports for 1893-94.

3. On a special reference, however, from this office, the Deputy Commissioners of Bangalore, Kolar, Tumkur, Shimoga and Chitaldrug, and in his report the Deputy Commissioner of Kadur, report that there were no registrations in their Districts, while the Deputy Commissioners of Mysore and Hassan state that 5 * and 2 † persons respectively offered for registration in their Districts.

* Mysore—3 in 1893 and 2 in 1894.
† Hassan—1 in 1890 and 1 in 1891.

4. These reports will be recorded with the remark that the Amildars especially of coffee growing Taluks and of those which largely supply coffee labor, should continue to give the widest publicity to these rules. If the remission of the fee prescribed for registration will lead to better results, the Deputy Commissioners may submit proposals in that behalf.

Docket No. 1512, dated 9th June 1895, from the Deputy Commissioner, Bangalore District, submitting a statement of Land Revenue arrears outstanding against each village up to the year 1886-87 as called for in para 32 of Government Proceedings, No. 13971-65—R. F. 236-92, dated 5th February 1894.

No. 1209-16—R. F. 236-92, DATED, BANGALORE, 25TH JULY 1895.

ORDER THEREON.—Government observe that there are no arrears of Land Revenue up to the year 1886-87 in the Taluks of Bangalore, Magadi, Channapatna including Closepet Sub-Taluk and Kankanhalli. The total balance in the remaining Taluks amounts to Rs. 1,926-1-7 as exhibited in the subjoined statement, and this amount is stated to be irrecoverable. There are no arrears on account of lands taken up for Gold Mining:—

2. The arrears in the Devanhalli Taluk amounting to Rs. 770-15-7 are distributed over 12 villages and relate to the years 1878-79 to 1886-87.

3. In the Nelamangala Taluk there are only three villages from which the marginally noted arrears are due. The last item of Rs. 147-0-4 is the Jodi amount due for the Jivarakondapura village for the year 1884-85, and it is not clear why the arrears still remain unadjusted. There is also another item of Rs. 6-2-3 being the sayer amount for the year 1877-78. It is not clear why this amount has so long remained unrecovered.

4. The Hoskote Taluk shows an arrear of Rs. 117-2-0 due on account of five villages.

5. The balance in the Dodballapur Taluk which is distributed over ten villages is Rs. 636-6-0 appertaining to the years 1883-84 to 1886-87.

6. The Anekal Taluk shows the oldest arrears, Rs. 149-8-0 and Rs. 82-12-2 due, respectively, on account of Anekal and Sarjapur villages for the year 1877-78. It is not satisfactory that these arrears were not recommended long ago for remission, if irrecoverable.

7. As the Deputy Commissioner now states that all the above amounts are irrecoverable he is requested to submit *at an early date* a remission statement fully explaining the grounds for remission in each case. It is pointed out that the submission of this report nearly sixteen months after the date of the order in spite of the express limit given in para 32 of one month, shows a want of appreciation of the importance attached to timely and punctual performance of work. Government are aware that much attention was given to the collection business in the Bangalore District, and would be glad if these small items disappear from the accounts soon.

I have the honor to bring to your notice that the repayment of instalments of loans granted to raiyats for the construction of Irrigation Wells under Land Improvement Loans Regulation in the Bangalore, Kolar, Shimoga and Chitaldrug Districts have been allowed to remain in arrears in many cases notwithstanding that the Deputy Commissioners of those Districts have been requested by this office to take steps for the recovery of the same on three occasions, and to request that you will be so good as to direct the Deputy Commissioners to recover all over-due instalments at a very early date.

No 1223-31—Rev. 450, DATED, BANGALORE, 25TH JULY 1895.

ORDER THEREON.—Ordered that copies of the foregoing communication be forwarded to the Deputy Commissioners of the Bangalore, Kolar, Shimoga and Chitaldrug Districts with a request that they will take very early steps to re-recover all over-due instalments. The punctual recovery of instalments being very important the fact should be impressed upon all Amildars, and a statement submitted as early as practicable, showing, in the cases in which full instalments were not paid, the instalments recovered and the balance due on 30th June 1895.

2. The Deputy Commissioners of Districts will report whether any register has been maintained in the Taluks showing the particulars of advances made, the amount of each instalment, the amount recovered, and the balance due at the end of each period, and, if so, why in the four Districts referred to timely steps were not taken to recover the arrears now reported to be outstanding.

Docket No. 5017—1534, dated the 15th June 1895, from the Deputy Commissioner of the Kolar District.

No. 1294-302—R. F. 26-95-6, DATED, BANGALORE, 29TH JULY 1895.

ORDER THEREON.—With the docket read above, the Deputy Commissioner submits an alienation statement for the appropriation, for a new village site, of 30 guntas of land out of Survey No. 173 in the Manivala village, Darinaikanpalya Hobli of the Goribidnur Taluk. The appropriation recommended is sanctioned, the proportionate assessment of Re. 1 being written off the accounts.

2. The old village site reported to be unhealthy should be assessed and given out for cultivation when it is entirely abandoned by the villagers.

3. There has been a very long delay of nearly twelve years in the disposal of this matter, and both the Taluk and the District officials have contributed to it as shown below :—

On 3rd June 1883.—The villagers applied for the land.

On 11th December 1883.—Amildar Shamaiengar submitted his report with an alienation statement.

On 25th June 1884.—The Amildar sent a reminder to the Deputy Commissioner.

On 24th March 1886.—The Deputy Commissioner required the Amildar to inspect the locality and submit a fresh alienation statement.

On 11th June 1886.—The Amildar submitted his report in reply.

On 26th December 1886.—The Deputy Commissioner ordered submission of some old references connected with the new village site.

On 12th October 1890.—The Amildar submitted his reply, by which time the villagers had built some of the houses.

On 26th February 1894.—The Deputy Commissioner next called for a sketch of the site and a fresh alienation statement.

On 3rd May 1894.—The Amildar submitted his last report on the subject.

On 15th June 1895.—The Deputy Commissioner submits the alienation statement to this office.

The papers submitted by the Deputy Commissioner do not show that he has taken any notice of this long delay, and if he has not been impressed with the necessity of doing so, the Government are constrained to express their disapproval of the manner in which this correspondence has been allowed to drag on for years. It is hoped that there are not many other matters lying undisposed of in this manner. The lists of unanswered references must be prepared and examined with great care. The officials responsible for this delay ought to be duly punished.

OFFICE OF THE DEWAN OF MYSORE,
Dated, Bangalore, 31st July 1895.

CIRCULAR MEMO.

As the question of allowing raiyats to take hongé leaves from trees situated on Government unoccupied lands has, for some time past, been under the consideration of Government, Deputy Commissioners are requested to favor the Government with their views regarding the rules proposed by the Survey Superintendent in his letter No. 862, dated 19th January 1888, printed hereunder.

By Order,

C. SREENIVASIENGAR,
Revenue Secretary.

To—The Deputy Commissioners of Districts.

Letter from the Survey Superintendent, to the Chief Secretary to the Dewan of Mysore, No. 862, dated, Bangalore, 19th January 1888.

I have the honor to acknowledge the receipt of your docket No. 5230-64 of the 16th December last, forwarding * original letter No. 1255—88 of the 8th September 1887, from the Inspector General of Forests, regarding the leaves of the hongé trees in Government waste lands being used by raiyats in the Kolar District as manure for their wet lands, and asking me for my opinion as to what rules I would propose and what restrictions I would prescribe.

* Herewith returned.

2. The subject under reference appears to me to be one of vast importance. The Inspector General sums up his proposals by the suggestion that the raiyats should grow their hongé trees. In the first place, in order to obtain the necessary leaf manure, the raiyats would, under this view of the case, have to take up the lands in which hongé trees are at present growing, for it cannot be supposed that, in the face of long existing freedom to collect the leaves for manure, the raiyat is likely to have the trees in his own lands. He would have to take up land which is now, for the most part, unassessed waste; and if these lands were granted to him he would hold them to the exclusion of others who had hitherto been taking the leaf manure as well as himself, and if he got the trees into his possession he might of course, by the terms of the Survey Guarantee, do what he liked with them. Some raiyats have no doubt already got lands in their possession on which hongé trees are growing, but many others have to go, as they have always done hitherto, to the waste lands at the nearest point to their wet lands for the leaf manure they require. No raiyat will go, for *bonâ fide* purposes of obtaining hongé leaves for manure, further than he can help, but leaves he *must* have. If a raiyat applied to take up land with a number of hongé trees standing upon it, his application would be refused, and yet under the *sine qua non* that the raiyat must grow his own hongé trees, he must have the lands applied for or go without leaves, which latter alternative we know would mean, in many instances, the resignation of his wet lands. I cannot help thinking that permission to take up waste lands containing hongé trees would do more real damage to the wood of the country than the continuance of the present custom, for the holder could use the trees for any purpose he pleased.

3. I quite acknowledge the importance of the objects aimed at by the Inspector General, but I am equally aware of the importance of not checking wet cultivation to the great sacrifice of Government revenue by hampering the reasonable use of hongé leaves by unnecessary restrictions.

4. It would be a grave mistake to put the power of regulating the taking of the leaves by the wet cultivators in the hands of the Patel or any person, influential or otherwise, which would certainly be the case if the right to collect leaves and branches be sold annually to the villagers as proposed by the Deputy Commissioner in his letter No. 168—90 of the 5th May 1886 to my address (copy attached). Each raiyat should have the privilege of going to the trees within reasonable distance of his wet field where he has always been accustomed to go, and of taking the leaves in the usual manner ("Kudgal soppu" is the word generally used to designate lopping allowed) and each raiyat must, in his own individuality, be liable for any breach of privilege.

5. I do not think it advisable to do more than lay down that, for the present, as a tentative measure if necessary, the following rules shall be observed:—

(1) The cultivator of wet lands may collect the leaves and small branches of the hongé tree for the *bonâ fide* purposes of manure.

(2) He shall not collect leaves and branches from any hongé tree in a locality in which the trees have not hitherto been used for that purpose, nor at an unreasonable distance from his wet lands, nor shall he touch any road-side hongé trees, nor any in ornamental public topes.

(3) He may gather the fallen blossoms or flower of the hongé tree in the recognized soppu lands and, with the permission of the Forest Department, even beyond that limit.

(4) The fruit of the hongé trees situated beyond the limits of the recognized soppu lands may be sold annually for the whole Taluk, or village by village, as may seem most desirable, but the contractor shall not interfere in any way with the trees used, under the above rules, for "soppu".

6. The permission in rule 3 to collect the fallen flower of the tree is in accordance with the present practice, but it is more a question for the Forest officers to decide than one within my province. The fines for infringement of the above rules either by the contractor or by the wet cultivators should be added to the rules, or specified.

7. I am quite aware that the distinction between localities where the wet cultivators may and may not gather leaves and small branches of the hongé trees is not sufficiently clearly drawn in the above somewhat general rules, but there are at present no means of drawing the line more clearly. At the expense of a little trouble at one or two of the annual jamabandis, the Revenue officers might note the survey numbers, which, from their distant position with reference to the wet lands, are obviously unsuited for the raiyat's requirements in the shape of leaf manure, and in these numbers, which might be noted in the "Khetwar" form, any lopping might be strictly prohibited.

Letter from the Deputy Commissioner, Kolar District, to the Superintendent of Revenue Survey, No. 168—90, dated, Bangalore, 5th May 1886.

In reply to your letter, No. 243 of the 16th June last, I have the honor to state that as observed by you there is no systematic arrangement at the villages in this District in regard to the utilization by raiyats of the leaves of hongé trees on Government unoccupied lands for purposes of manure. The reckless felling of branches under the pretext of taking the leaves acts detrimentally to the Government revenue derivable from annual sale of the hongé fruit under the head of Amarayi.

2. Mr. Krishnaiengar, late Deputy Commissioner of the District, seems to have passed, on the representation of the raiyats, an order to the effect that as the raiyats would be put to much hardship if totally prohibited from appropriating the leaves, they may be allowed to take the leaves growing on side branches and on the offshoots not connected with the main stem of hongé trees.

3. The new Forest Regulation and rules now under contemplation will perhaps, it is believed, make a provision on the subject.

4. In the meantime, I am of opinion that, with a view to protect Government interests and check the indiscriminate lopping of the branches, the right to collect the leaves and fruit of hongé trees may be annually either sold or leased out to the villagers for a lump sum not less than the average amount of Amarayi revenue collected during the past three or five years, taking into consideration the circumstances of the village and the prospective yield of young trees which may come into bearing within a short time. In case it is leased out, the lease amount payable to Government should be distributed among the raiyats of the village in proportion to the assessment of wet lands in their holdings respectively. In either case the contractors or lessees should not be permitted to cut any branches of the trees for the purpose of taking their leaves for manure.

FOREST.

Proceedings of the Government of Mysore,

Read the following letter No. 4171—338, dated the 20th June 1895, from the Inspector General of Forests in Mysore.

I have the honor to state that in the Forest Revenue Demand, Collection and Balance statement of the Bangalore District, a sum of Rs. 1,935 is being shown month after month under head 4 (f) as seigniorage due to the Forest Department from the Southern Mahratta Railway Company on account of 1,290 tons of fuel supplied in November 1892 to the Company by Contractors Kencha Hanumaiya and Company from Government jungles. I beg that sanction of Government may be obtained for the amount being struck off as being an excess demand as shown below.

2. In November 1892, the District Locomotive Superintendent, Southern Mahratta Railway, accepted from the fuel Contractors Kencha Hanumaiya and Company, 1,290 tons of fuel and intimated the fact in the usual manner to the District Forest Officer, Bangalore who, on receipt of the intimation, issued Letter of advice No. 304, dated 23rd December 1892, to the Bangalore District Treasury to receive Rs. 1,935 from the Railway authorities. Subsequently, the Locomotive and Carriage Superintendent at Hubli having objected to take 195 tons at the Closepet Station out of the above quantity, as having been in excess of the quantity contracted for that station, the District Locomotive Superintendent, Southern Mahratta Railway, requested the Bangalore District Forest Officer to amend his Letter of advice No. 304, above referred to, so that he might pay the seigniorage due on the remaining quantity of fuel, *i.e.* 1,095 tons. This the District Forest Officer declined to do without orders from the Inspector General of Forests, as the amount was already brought on the demand and shown in the accounts. The 195 tons rejected by the Locomotive Superintendent having been subsequently taken over by the Railway, the District Forest Officer demanded payment in August 1893, of the full amount specified in the Letter of advice No. 304. With reference to this the Locomotive Superintendent, Hubli, wrote to say that the seigniorage due to the Forest Department for all the fuel supplied to the Railway by the fuel Contractors from Government jungles had been paid up and requested that as nothing more was due, the Letter of advice No. 304, might be cancelled. When the matter was submitted to me for orders by the District Forest Officer, I instituted a thorough inquiry. The file of original correspondence, with a pherist thereof, is forwarded for needful reference and obliging return when no longer required. I find on an examination of these papers that 1,065 tons of fuel out of 1,290 tons for which Letter of advice No. 304 had been originally issued, was paid for by the Railway on Letter of advice No. 379, dated 26th March 1893, which was issued on a separate reference No. 1798, made by the District Locomotive Superintendent on the 21st idem. The 195 tons of fuel first rejected but subsequently taken over by the Railway were paid for on Letter of advice No. 404, dated 18th May 1893, issued by the Forest Officer on account of this and other fuel accepted by the Railway; likewise the balance of 30 tons, it is observed, has also been paid for through Letter of advice No. 80, dated 23rd August 1893. Thus it will be seen that nothing is due from the Railway on account of the 1,290 tons for which Letter of advice No. 304 for Rs. 1,935 was issued and which is regarded as cancelled. Therefore the amount shown in the Demand, Collection and Balance statement of the Bangalore District as outstanding recoverable from the Southern Mahratta Railway may be ordered to be written off the accounts.

No. 60-1—Ft. 6, dated Bangalore, 3rd July 1895.

Order thereon.—Under the circumstances represented by the Inspector General of Forests the Government are pleased to sanction the excess demand of Rs. 1,935 shown as outstanding in the Demand, Collection and Balance statement of the Bangalore District, against the Southern Mahratta Railway Company on account of seigniorage on fuel supplied by Contractors Kencha Hanumaiya and Company for the year 1892, being written off the accounts.

2. The Government, however, observe that Letter of advice No. 304, dated 23rd December 1892, issued to the Bangalore District Treasury to receive Rs. 1,935 from the Railway Company on account of 1,290 tons of fuel supplied ought to have been cancelled when that quantity of fuel was subsequently included in Letters of advice Nos. 379, 404 and 80 issued on 26th March, 18th May and 23rd August 1893, respectively. There was an unnecessary delay of two years in the submission of this remission statement.

FINANCIAL.

Proceedings of the Government of Mysore,

READ :—

Letter No. 767, dated the 30th November 1894, from the Secretary to the Insurance Committee, submitting, with enclosures, the following report on the working of the Mysore State Life Insurance Scheme for the year ending 30th June 1894 :—

Under orders of the Managing Committee, I have the honor to submit the report on the working of the Mysore State Life Insurance Scheme for the year ended 30th June 1894.

2. Though the scheme was introduced so far back as 1st December 1891 and the officials have had ample notice, yet it is disappointing to find that its benefits have not been availed of as largely as expected. Out of 3,432 old officials eligible for insurance according to the statistics prepared in 1890, only 805 have come forward to insure their lives up to date. Government Notification No. 11945—R. F. 101-93, dated 24th January 1894, limiting the time for the insurance of such officials up to end of June last appears to have produced no satisfactory results, as only 202 old officials have under the force of that notification applied for insurance between the date of the notification and the end of June 1894. So there are still a large number, *viz.*, 2,627 officials uninsured.

3. During the year under report there were 434 proposals to be dealt with as follows :—

14 Proposals that were pending at the close of the previous year.
420 Proposals actually received during the year.
154 from new officials.
180 from old officials.
86 for further insurance.

434 Total.

A comparative statement of proposals received and disposed of during the last three years is given below :—

Year.	Number of proposals received.	Number of proposals disposed of.			Pending
		Accepted.	Rejected.	Total.	
1891-92, (comprising only 6 months).	391	230	72	302

1893-94	420	260	31	291	
Total ..	1,065	750	172	922	143

Of the above 434 proposals that had to be dealt with during the year under report, 260 were accepted and policies issued, 31 were rejected and 143 pending at the close of the year. The following statement will show particulars of the proposals accepted and rejected :—

Number of proposals accepted.					Number of proposals rejected.					
From old officials.		From new officials.			From old officials.				From new officials.	
Number of accepted at ordinary rates.	Number of accepted for reduced bonus.	Number of accepted at ordinary rates.	Number of accepted at reduced rates.	Total number accepted. Number rejected on account of temporary appointments.	Number rejected on account of total ineligibility.	Total number rejected.

The bonus payable on the 260 policies issued during the year amounted to Rs. 1,86,485, while the monthly premium recoverable on them was Rs. 691-8-0, (*vide* Appendix I).

4. According to Appendix II the receipts during the year including the opening balance of Rs. 27,783 and the interest at Savings Bank rate of 3¼th per cent on the net balance amounted to Rs. 65,034 and the expenditure as per abstract given in the margin was Rs. 8,098 leaving a balance of Rs. 56,936 in favor of the Fund at the close of the year.

5. Appendix III exhibits the operation of the scheme according to different ages. Appendix IV will show the number of insured according to different ages who hold policies for sums of Rs. 1,000 and upwards.

6. Four casualties were reported during the year as particularized in the following statement :—

A policy for further insurance for Rs. 211 was cancelled during the year under orders of the Committee before delivery owing to subsequent indifferent health of the insured as reported by the Medical Officer.

One of the insured resigned his appointment and discontinued to pay the premium. His case will be dealt with under rule 26 of the State Life Insurance.

7. The total number of effective policies on the books of this Office exclusive of those that have lapsed by death, cancellation and default of premium during this and previous years is 738 up to end of the year under report, assuring in the aggregate Rs. 8,22,108 and realising a

monthly premium of Rs. 3,410-12-0. These figures were compared with those of the other Companies and the following shows the result :—

1834	Universal Life Assurance ...	£. 1,02,204	26,95,544	26·3 times ditto.

8. The Committee held four meetings during the year to discuss doubtful points in connection with proposals and the business of the scheme.

9. The accounts of the Fund for the year have all been duly audited by Mr. J. R. Barrow, Chief Assistant to the Comptroller and Mr. Appavu Mudaliar an Accountant of the Public Works Examiner's office. A copy of their report with an explanatory memo and the remarks of the members thereon is herewith submitted.

10. In conclusion I beg to add that the delay in the submission of this report was due to prolonged examination of the accounts by the Auditors. These having responsible work of their own in their offices could only spare a very short time each day and finish their examination on the 26th October 1894 and submit their report on the 30th idem :—

APPENDIX V.

Letter dated 30th October 1894, from Messrs J. Barrow, Chief Assistant to the Comptro and A. Appavu Mudaliar, Accountant, Public Works Examiner's office, to the Secretary to .... Life Insurance Committee.

We have the honor to submit our report on the audit of the accounts of the Mysore State Insurance Office for the year ended 30th June 1894.

The various books maintained in the department were carefully gone through and the following is the result :—

(1) The substantive pay of Policy holder No. 626 at time of insurance was Rs. 75, but the pay has been taken at Rs. 100 and Policy issued, resulting in a bonus of Rs. 3,488 being granted instead of Rs. 2,616.

(2) The point on which we consider a definite ruling is required is whether, "fresh medical certificates" as required by addendum to Rule 21 is to be insisted on from Proposers, who take up their Policies after the prescribed time, or merely a "Health certificate." In the whole of the cases in which the Policies were taken up after the prescribed time "Health certificates" were accepted.

(3) In the case of Policy holder No. 593, no baptismal certificate or an attested extract thereof was produced, but merely a letter from a Clergyman or Catechist of the London Mission Society accepted. The Policy holder could have easily obtained a true extract of such certificate from the Registers maintained in the Church.

(4) On examining the balance at credit of the Fund, on 30th June 1894, with the books of the Comptroller, we find there is a net difference of Rs. 5 between the two, *i. e.*, the Insurance Office balance is less to that extent which is attributable to the following.

(5) The Insurance Office has wrongly debited the Fund with Rs. 9 the permanent advance granted to it in March 1893.

(6) The Comptroller's Office has wrongly debited the sum of Rs. 4 being the pay of the clerk transferred from the Shimoga District to the Insurance Office, to the Fund instead of to the office to which he belonged, as it was the pay earned for the period in which he worked there. These errors should be adjusted in the current year. The first by crediting the Fuiid with Rs. 9 in the books of the Insurance Office and the latter by book adjustment in the Comptroller's office by debit to the head concerned and credit to the Insurance Fund.

We have only to add that every assistance was rendered to us by M. R. Seshagiri Rao, the Manager of the office, and that great credit is due to him and his assistants for the creditable manner in which the books, &c., have been kept.

APPENDIX VI.

Memo, dated 1st November 1894, by the Secretary to the Insurance Committee, on the above report.

Point (1)—The Policy-holder No. 626 referred to in para 3 of the Auditors' report, is Mr. Humza Husén, now Munsiff of Hassan. He was first appointed as Judicial Probationer in the Chief Court on pay of Rs. 75 *rising to Rs.* 100 *after six months—vide* Government Proceedings No. 21825-6—G. 5343, dated 29th June 1893, and was subsequently promoted as Munsiff *Sub-pro tem*, which appointment he still continues to hold.

Point (2)—Mr. Humza Husén claimed a policy to be issued in his favor on the pay of Munsiff, *viz.*, Rs. 150. But as this appointment was only temporary, he had to be insured on the pay of his substantive appointment, *viz.*, Judicial Probationer. In December last when the policy was issued to him Mr. Humza Husén had completed six months' service and so a policy was issued on his maximum pay of Probationership instead of Rs. 150 as claimed by him.

Point (3)—With regard to the non-production of a Baptismal Certificate by Policy-holder No. 593 as noticed by the Auditors in para 5 of their report, it has to be stated that the rule on the point requires a proposer to produce an authenticated copy of his Baptismal Certificate or, if this is impracticable, satisfactory evidence as to his age. The Policy-holder under reference produced a simple certificate from the Pastor, London Mission, Kanarese Church, Bangalore, which stated that "Sundaramma the proposer, daughter of Mr. A. C. Krishna Rao, was born on the 1st October 1869 and that she was baptized by the late Mr. B. Rice, on the 20th February 1870 at the London Mission Chapel, Bangalore." So this certificate was considered sufficient in proof of proposer's age and was circulated along with the proposal to the members who raised no objection to its being accepted nor required a formal Baptismal Certificate to be produced.

Points (4, 5 *and* 6)—As regards the difference of Rs. 5 observed by the auditors between the balance shown in this Office Account and that shown in the accounts of the Comptroller, it has to be explained that the Comptroller's office has wrongly debited Rs. 4 to the Fund and omitted Rs. 9 which is a permanent advance granted to the Insurance Department; *vide* Government Proceedings No. 14797-8—G. 3485, dated 3rd March 1893. The advance in question was taken to be met from the Fund and was debited to the Fund by this Office, whereas the Comptroller's office debited it to "General advances." So there is a difference of Rs. 5 as noted. If the debit of Rs. 9 to the Fund is considered wrong, necessary transfer in the account of this Office will be made in the current year as suggested by the Auditors.

No. 445-54—Finl. 39 DATED BANGALORE, 5TH JULY 1895.

ORDER THEREON.—During the year under review 420 proposals were received for insurance against 254 during the year 1892-93.

2. Including the 14 proposals which remained undisposed of at the close of the year 1892-93, there were in all 434 proposals for disposal during the year under review. Of these 260 were accepted and policies issued, and 31 were rejected leaving 143 pending disposal at the close of the year.

3. There were 4 deaths among the insured. The bonus payable to their heirs amounted to Rs. 6,131 while the premium paid by them was only Rs. 276. Including the three cases of deaths reported in 1892-93 there were in all 7 casualties resulting in the payment of a bonus of Rs. 11,445.

4. One policy for further insurance was cancelled owing to the indifferent health of the Policy-holder and one of the insured resigned service and discontinued the payment of premium.

5. There were altogether 733 effective policies on the books of the Committee at the close of the year under review yielding a monthly premium of Rs. 3,410-12-0

against a liability of Rs. 8,22,108 payable as bonus. The risk is thus 20·08 times the annual income.

6. Including the opening balance and the interest on the net balance, the total receipts for the year under review amounted to Rs. 65,034 and the expenditure incurred for the working of the scheme was Rs. 8,098 leaving a balance of Rs. 56,936 in favor of the Fund.

7. Out of the 3,432 old officials eligible for insurance only 805 came forward to insure their lives, and there are still 2,627 officials uninsured.

8. The thanks of the Government are due to the President and Members for the zealous and efficient manner in which they have performed their duties.

Letter No. 1725, dated the 27th June 1895, from the Secretary to the Mysore State Life Insurance Committee, stating that it would be necessary to appoint a fresh member in place of Mr. A. Rangaswamiengar, who has been transferred from Mysore to Shimoga, and one of the Secretaries to Government as *ex-officio* member in place of the Chief Secretary which post has been abolished under the recent arrangements.

No. 532—Fl. 44, DATED, BANGALORE, 10TH JULY 1895.

ORDER THEREON.—Mr. Rangaswamiengar will continue on the Committee. Though not able to attend the meetings of the Committee regularly yet his opinions will be valuable on a subject which is a speciality with him.

The Government are further pleased to direct that both the Revenue and General Secretaries be appointed *ex-officio* members of the Committee.

Proceedings of the Government of Mysore.

READ :—

Petition No. 211 of 1894-95 from Mohadin Pacha of Koppa in the Bowringpet Taluk, appealing against the order of the Deputy Commissioner of Kolar directing him to give up possession of certain Service Inam lands attached to the Shanbhogi of Koppa, leased out to him by the present Shanbhog Venkanna and his brother Yellappa for a period of 30 years.

2. Records received with docket No. 871—149, dated 30th August 1894, from the Deputy Commissioner, Kolar District.

3. Docket No. 4777—1479, dated 10th June 1895, from the same officer, furnishing the information called for in docket No. 1675-4—P. 180, dated 9th April 1895.

No. 854-61—P. 180, DATED, BANGALORE, 18TH JULY 1895.

ORDER THEREON.—The five lands noted in the margin, bearing an assessment of Rs. 48, are allowed as Service Inam to the Shanbhog of Koppa, subject to the payment of a Jodi of Rs. 11-0-10. The Pakka Potagi of the office has not yet been settled, and the officiator pays to Government only the Jodi fixed and not the full assessment of the lands.

No.	Description.		Extent.	Assessment.		
61	Wet	...	1·14	9	0	0
67	Wet and Garden		1·15	9	0	0
157	Wet	...	1·29	11	0	0
219	Dry	...	4·25	9	0	0
223	Dry	...	5·3	10	0	0
			14·6	48	0	0

2. Three of the above lands, namely Nos. 61, 67 and 219, were leased to the Petitioner by the present officiator Venkanna and his brother for a period of thirty years under a registered deed, dated 18th June 1892, subject to the payment of a Jodi of Rs. 9 to Government in respect of them. The lessors received thirty years' profit, Rs. 150, in a lump sum, and entered a stipulation that neither they nor their heirs nor their successors in office should take the lands out of the lessee's possession before the expiry of the term.

3. The Counter Petitioner Shamanna, a cousin of the Shanbhog, urged that he possessed one-third share in the lands and that the transaction was illegal and fraudulent. He stated that the Shanbhog had executed a registered sale deed in favor of Petitioner and that when he complained about it, this long lease was executed virtually to give effect to the conveyance, but a copy of the sale deed was not called for or produced and the Petitioner denied that there was a sale. The Deputy Commissioner held that the transaction was opposed to clause (*d*) of Section 43 of the Land Revenue Rules, and ordered the Petitioner to quit the lands. It was urged in appeal that no title to the lands had been conveyed to the Petitioner and that if the Shanbhog was at liberty to grant a lease for a short term, there could be no objection to his granting one for a long term.

4. The Government are of opinion that the lease as described in the deed executed to the Petitioner is certainly an alienation, as it keeps out the Service Inam land from the Shanbhog's enjoyment for a period of thirty years. This lease cannot therefore be upheld. An officiator who involves himself in such transactions which are clearly forbidden by the standing orders of Government, renders himself liable to be removed. But before passing final orders in this matter, it is deemed proper to allow the present Shanbhog a period of six months, within which he must try and have the lease cancelled by making any other arrangement with the lessee. It will be to the interest of the lessee also to come to a settlement by which the money he has advanced may be returned to him. If within these six months the Shanbhog and the lessee will not come to any terms and arrange the matter amicably between themselves, the Shanbhog who is guilty of this unauthorized act will be removed from his appointment and the lease cancelled.

Petition No. 236—30, dated 22nd July 1894, presented by Dod Nagappa, Patel of Reddihalli, Challakere Taluk, appealing against the order of the Deputy Commissioner of Chitaldrug, directing the removal of petitioner on the ground of inefficiency, and the appointment of one Dod Nagappa, son of Channappa as Patel of Reddihalli, in preference to petitioner's son Rudraiya.

2. Records connected with the case received with docket No. 385—340, dated 29th November 1894, from the Deputy Commissioner, Chitaldrug District.

No. 155—P. F. 1-95, DATED, BANGALORE, 3RD JULY 1895.

ORDER THEREON.—Dod Nagappa was officiator Patel and the Deputy Commissioner removed him on the ground of old age and inefficiency. The immediate cause of his case being brought for the orders of the Deputy Commissioner was that he failed to make certain entries in the Cattle-pound Register. He has a son Rudraiya who knows to read and write and is otherwise competent. The Respondent DodNagappa is one of those who were once declared to be hissedars belonging to the same family as the Appellant, but in whose favor the Government declined to remove the Appellant. The question now is whether the Appellant's son Rudraiya or the Respondent should be appointed to succeed the Appellant. The Deputy Commissioner has appointed the Respondent in preference to Rudraiya. He has relied upon Government order No. 10267-75—R. 1055 of the 3rd January 1894, which among other things directs that "where there are more than two *hakdars*, two of them may be appointed as above directed and the other hakdars appointed when vacancies occur, so that all of them may have their turn in office." This order does not seem to apply to the circumstances of this case which refers not to two independent and co-ordinate hakdars, but to several heirs belonging to the same family and contesting succession to a common officiator. The order does not seem moreover to overlook the hereditary principle of succession which has been always recognized and acted upon in this country, and has also been impliedly enacted in para 5 of Section XLIII of Land Revenue Rules. Adopting any other mode will cause great confusion and remove the chief incentive for efficient and honest discharge of duty in the shape of securing hereditary succession. Want of certainty in the Rules of succession will also make the direct heir indifferent to exert his utmost to acquire the maximum of competency. The result of a construction such as has been put by the Deputy Commissioner on the above order will furthermore be that what is provided as a penalty for the commission of very serious offences in clause (b) of the rule above quoted will, as has been done in the present instance; be applied to the case of a Patel who is to be removed simply on the ground of inefficiency caused by old age.

2. For these reasons, the order of the Deputy Commissioner, superseding Rudraiya is reversed and it is hereby directed that in succession to the Appellant Dod Nagappa, his son Rudraiya be appointed officiator Patel of Reddihalli.

3. The records of the case are returned.

MUZRAI

Proceedings of the Government of Mysore,

READ THE FOLLOWING CORRESPONDENCE:—

1. Letter No. 49, dated 21st July 1894 from the Sub-Division Officer, Closepet to the Deputy Commissioner, Bangalore District.

"I have the honor to submit herewith the report No. 33, dated 16th July 1894, from the Amildar of Magadi together with a file of Vernacular correspondence relating to the introduction of Survey Settlement into the village of Jogirahalli in the Tavarekere Hobli, Magadi Taluk. This village appears to have been granted as Inam for the up-keep and maintenance of Byredevaru Pagoda at Jogirahalli. During the Inam Settlement it was confirmed to the said Pagoda subject to the payment of a combined Jodi and quit-rent amounting to Rs. 30. According to the old account the extent of cultivable land in the village is 22 kandies, 10 kudus and 3¾ mánás assessed under old system at Rs. 36-5-10. The whole village was enjoyed by a single family who appear to have rented some of the fields to the others in the village and appropriated to themselves the total income derived therefrom. They have not paid any attention to the temple which is left to decay. The question of introducing Survey Settlement was first mooted by the Shanbhogue of the village on the 2nd October 1890 in a petition to the Deputy Commissioner, Bangalore. Thereupon the case was referred to the Survey Superintendent for his disposal. The Survey Superintendent issued an order to the Amildar to report with the statement of the chief person vested with the management of the Pagoda as to the payment of the cost of the detail survey and granting of survey guarantee to the raiyats as in Sircar villages. The Amildar appears to have asked one Pillaiya and Kasi regarding the introduction of Survey Settlement into the village, and they were not in favor of the measure as they were enjoying the village without any restriction placed upon them. In reporting the above, the Amildar stated that the grant being for the benefit of the temple, the detailed survey might be introduced independently of their wishes *vide* report No. 659, dated 14th October 1890.

Subsequently the question of introducing the detailed survey into the village was entirely dropped and the enjoyers of the village, *viz.*, Pillaiya and Kasi were called upon to restore the temple. They appear to have of late executed petty repairs to the temple and asked time to build a compound wall.

From the Title-deed granted at the Inam Settlement it appears that the whole village of Jogirahalli is confirmed as "Devadaya" Inam, but not as personal Inam to the enjoyers of the village, *viz.*, Pillaiya and Kasi. They have therefore no title to the Inam. The management of such inams under the present arrangement vest in the Muzrai Superintendent who is alone, I think, in a position to say whether the introduction of detailed survey is or is not for the benefit of the temple. If you agree with me in the above the papers may be forwarded to the Muzrai Superintendent for disposal."

2. Docket No. 1341, dated 6th May 1895, from the Deputy Commissioner, Bangalore District, to the Muzrai Secretary to the Government of Mysore.

"In forwarding in original letter No. 49, dated 21st July 1894, from the Sub-Division Officer, Closepet, together with its enclosures, has the honor to state that the village of Jogirahalli in question is a Devadaya Inam granted for the up-keep and maintenance of the temple Byré Devaru.

2. Pillaiya and Kasi who have been in possession of the village as trustees and managers have not been rendering accounts of the income, &c., to the Muzrai Department. In the Inam Fysalati Register the village is entered in the name of the temple. The said managers and the raiyats in the village do not agree to Survey and Settlement being introduced into the village though it is very much in the interests of the temple. I do not think that they have any voice in the matter, and therefore request orders for the introduction of the Survey and Settlement."

No. 44-5—Muz. F. 2-95, DATED, BANGALORE, 3RD JULY 1895.

ORDER THEREON.—The village in question being a Devadaya Inam granted to the temple the temple itself is a Muzrai Institution, and the Government in the Muzrai Department has the right as representing the temple (the Inamdar in this case) to ask for the introduction of Revenue Survey and Settlement.

2 The Superintendent of Revenue Survey will accordingly be requested to introduce Survey and Settlement into the village in communication with the Deputy Commissioner of the Bangalore District.

3. The Vernacular records are herewith returned to the Deputy Commissioner with a request to communicate the foregoing order of Government to the managers of the temple and other parties concerned.

Petition No. 52, dated 14th July 1892, from Gopalaiya and other residents of Masti village, Malur Taluk, praying for the restoration to the Venkatramanaswami temple of a certain Kodigi Inam land alienated from the Institution.

The following letter from the Deputy Commissioner Kolar District, No. 3632—1203, dated 6th April 1895.

"Adverting to your official memorandum No. 60, dated 2nd September 1892, forwarding for enquiry and report a petition No. 52 from Gopalaiya and other residents of Masti village, Malur Taluk, I have the honor to state that, from the records available on the subject, it appears that, about 50 years ago, the marginally noted Kodigi Inam was granted by its original holders, Singaiengar and Rangaswamaiengar, for the support of the Venkatramanaswami temple at Masti village in the said Taluk.

situated in the village of Adhikarahatti, Malur Taluk.

2. The Dharmakarthas of the temple having neglected to repair the tank for the up-keep of which the Kodigi Inam in question had been granted, the Inam was brought under attachment in 1872 by an order issued by Mr. Krishnaiengar, the then Deputy Superintendent of the District.

3. Thereupon, the Dharmakarthas sold away the Kodigi, tank with the Inam to one Karagada Venkate Gauda of Rajenahalli, Malur Taluk, for Rs. 100 by a deed of conveyance, dated the 5th March 1873, which recites amongst other things that the said amount will be utilized by the vendors for the Paditharam expenses of the temple.

4. Venkate Gauda, the vendee, having subsequently repaired the Kodigi tank at an outlay of over Rs. 1,000, the Inam was released from attachment by the Deputy Commissioner, who observed in his order, No. 47, dated the 6th April 1876, that the same was subject to revision during the general settlement of Kodigi Inams in the Province.

5. It is evident from the records that, before the release of the Inam from attachment, the Deputy Commissioner was fully aware of the fact of the alienation thereof to Venkate Gauda and of the latter having, in pursuance of the transaction, been in possession of the lands; but there is nothing to show that such alienation took place with the express sanction or permission of that officer, though it is clearly inferable from the papers that he acquiesced in the same.

6. At the Inam settlement which took place in 1880, the Kodigi Inam under reference was enfranchised at ¼th quitrent and confirmed to the temple as a Devadayam grant.

7. The Patta of the Inam lands under notice has all along stood in the name of the temple, though the vendee and his successor in title have been in possession and enjoyment of the lands paying the Government dues thereon ever since the date of the alienation of the same.

8. Venkate Gauda is dead; and his nephew Narana Gauda, who now holds the lands, is not willing to surrender the same for the benefit of the temple, though the widow of the deceased is in favor of the restoration of the lands to the Institution.

9. The fact of the alienation of the Inam lands belonging to the temple having come to the Deputy Commissioner's notice in 1888, an enquiry ensued, during which the deceased Venkate-Gauda gave a Mutchalika before the Amildar, dated the 29th March 1889, agreeing to deliver 12½ khandies of paddy per annum for the Paditharam expenses of the temple besides attending to the up-keep of the temple building as a consideration for his enjoyment of the Inam lands; but this agreement does not seem to have been enforced as Venkate Gauda subsequently withdrew from his engagement. An endorsement, No. 17, dated 7th March 1890, was issued from this office to one Narasimhachar, Dharmakartha of the temple, who sought the recovery of the paddy from Venkate-Gauda, informing him that no orders for the delivery of the produce of the Inam lands could be passed as the lands had been duly conveyed to Venkate Gauda by a registered deed of sale executed by the Dharmakarthas of the temple and as the former had, on the strength of such conveyance, repaired the Kodigi tank at a large outlay at the orders of the then Deputy Commissioner of the District.

10. The petitioners complain that the enjoyment of the Inam lands by a stranger has seriously interfered with the performance of the necessary worship in the temple.

11. It is a question whether the Dharmakarthas could alienate the temple Inam as they have done, and whether the Deputy Commissioner was competent to recognize or sanction such alienation without previously making a reference to and obtaining the special orders of Government in the matter; nor is it clear why Venkate Gauda, if he thought that he had a good and an indefeasible title to the lands, did not urge or establish the same at the Inam settlement at which they were confirmed as a Devadayam in favor of the temple, a circumstance which had the effect of putting him in the position of a trustee of the Institution responsible to see to the due fulfilment of the object for which the Inam had been granted by the donors named above.

12. Should the Government be pleased to decide that the Inam is a Devadayam and as such fell within the scope of the Inam settlement like State endowments for the support of religious and charitable institutions, it would then be clearly inalienable from the temple to which it is attached, and would be liable to be summarily resumed from the present enjoyer under the Rules

contained in the late Chief Commissioner's Notification No. 266, dated the 17th November 1877, republished with Government Proceedings No. 741-50—Muz. F. 60-93, dated the 16th January 1894.

13. The Vernacular records bearing on the subject as per accompanying Ferist are herewith, submitted for reference and obliging return when no longer required.

14. It must be stated here that the gift of the land to the temple by the donors does not appear to have been made with the knowledge of Government, nor was the enjoyer or his predecessor in title required to pay any portion of the produce for the benefit of the temple until a Mutchalika was taken from the latter in 1889, the conditions of which even were not enforced."

No. 33—Muz. F. 1-95, dated, Bangalore, 3rd July 1895.

Order thereon.—The Government observe that the land in question having been confirmed to the temple on ¼th quit-rent under Rule I, clause 1, of the rules for the enfranchisement of Kodigi Inams it cannot be treated as a Devadaya Inam or be summarily resumed under the late Chief Commissioner's Notification, dated the 17th November 1877. The land must be regarded as an enfranchised Kodigi Inam belonging to the alienee Venkate Gauda and his heirs. Government interference of any kind is not, therefore, called for in the matter.

Secretary.

Read:—

The following letter from the Deputy Commissioner, Kadur District, No. 1378, dated 20th April 1895.

"With reference to your official Memorandum No. 1394, dated 14th June 1894, forwarding for report a petition from Vrittidar Subbanna of Chilaganahalli, Koratagere Sub-Taluk, praying that the Basti temple and Matt of Singanagadde, Yedaballi Sub-Taluk, be taken under the Government management, I have the honor to submit as follows:—

2. The Matt and temple have Inam lands, 105-5 acres and assessed at Rs. 248-8-0; in addition to the Government lands, 47-2 acres assessed at Rs. 73-8-0.

3. These lands were under the management of the priest of the Matt Lakshmisena Bhattarkar, by name, till the year Srimukha (1873), when the said priest went on a pilgrimage entrusting the affairs of the institution to Vrittidar Subbanna (petitioner). The latter, being then a Government servant, placed the same in the hands of one Chinvar Dharmaiya Shetti of Yedaballi, a fellow casteman, and ever since that time the management of the temple and Matt has been on the decline.

4. The priest, who went on a pilgrimage, died in his sojourn in Northern India, and before his death another (Lakshmisena Bhattarkar) was nominated. This priest remained for sometime and also proceeded on pilgrimage five or six years ago, and his death in Southern India was reported two or three years ago.

5. Availing himself of this fair opportunity Dharmaiya Shetti took care not to return the property which was entrusted to him. He usurped for himself 81·21 acres of Matt lands assessed at Rs. *166. This man having protested to give up the lands on the ground of long enjoyment for upwards of nearly 30 or 40 years without any documentary support, a notice was issued calling upon him to deliver up all the properties (immovable and movable) belonging to the Matt, within six months from the date of receipt of the same. This was duly served upon Dharmaiya on 24th February 1894. Notwithstanding this, the said Shetti did not show any good cause as to why he should be left in possession of the lands. Consequently the Deputy Amildar took possession of only the Inam lands on behalf of the institution, and sent him an endorsement No. 42, dated 27th December 1894, to that effect. Dharmaiya Shetti now comes forward and solicits that the Inam lands may be let out to him for cultivation on the same terms on which they would be entrusted to other raiyats. Some of these petitions have been sent to the Deputy Amildar for consideration. He, however, states that he is not in possession of any movable property.

6. The annual income of the institution is estimated at Rs. 924-12-0 as below:—

2. Kanike (Money payments) given by devotees ...	...	250	0	0

It is suggested by the Deputy Amildar that an establishment costing Rs. 33 per month as per margin may be sanctioned to keep the business of the institution going.

2. Two Pujaris at Rs. 4 each a month ...	8
3. One sweeper	3
4. Expenses of Paditar, Diparadhane	16
Total ...	33

7. Towards the future good management of the institution the Deputy Amildar proposes that Dharmadarsis, noted in the margin, may be appointed. The two last are recommended apparently to watch the affairs of finances of this long mismanaged institution and to render good advice and help to the other members.

1. Baja Bahaiya (Jain).
2. Jinkamaiya (Jain).
3. Dharmaiya Shetti (Jain).
4. Subbanna, pensioner (Jain)
5. Sabakar Ramappa (Brahmin).
6. Iagalagondi Santappa Shetti (Lingayat).

8. There is a sum of Rs. 103-6-0, being the amount of sale proceeds of last year's crops of Inam lands, which is deposited in the Koppa Taluk Treasury. Sanction may be accorded to utilize the said sum towards the expenses of the current year.

9. The petitioner Subbanna seems to be the real interested party of the institution. He had collected Rs. 450 as contribution, of which a sum of Rs. 200 was paid to the raiyats to purchase agricultural implements, &c.

10. The devotees have appointed a Pujari for the worship. The people interested have deposed that they have not any one in view as yet to nominate as priest of the Matt. They state they would in course of time do so after obtaining sanction of Government.

11. A list of property valued at Rs. 717-7-0, belonging to the institution, is also enclosed.

12. Two petitions received on the 11th and the 15th instant, respectively, from the Thakrardar Dharmaiya Shetti, and chief devotee Subbanna, are also attached to the file. Both of them urge that they would represent their grievances in person. The Deputy Amildar has at present temporarily appointed a Brahmin named Lingappa as Gumasta of this institution. These people wish that the office should be conferred on one of their castemen. Until the affairs of the institution come to a satisfactory working order, it seems advisable to allow the arrangement made by the Deputy Amildar stand as it is.

13. In conclusion, I would beg to recommend that the affairs of the above temple and Matt may be taken under Government management until a competent priest is appointed to manage the affairs of the same, or until such time as the Government would deem it desirable. The appointment of Dharmadarsis proposed in para 7 of this report may also be notified.

14. The Vernacular file ending with the Deputy Amildar's report No. 575, dated 21st February 1895, is herewith submitted.

No. 91-2—Miz. F. 3-95, dated Bangalore, 19th July 1895.

Order thereon.—Under the circumstances represented in the Deputy Commissioner's letter read above, the Government direct that the management of the Basti temple and Matt of Singanagadde, Yedahalli Sub-Taluk, be assumed by the Muzrai Department till such time as a competent priest is appointed to the Matt.

2. The lands and other properties belonging to the Institutions will be placed under the management of the Deputy Amildar of Yedahalli, who will administer the same, aided by a Committee of Dharmadarsis proposed in para 7 of the Deputy Commissioner's letter.

3. The Government are further pleased to sanction a monthly expenditure of Rs. 16 in the Matt and temple for the purposes of Paditara and Diparadhane and the entertainment of the marginally noted establishment costing Rs. 17 out of the proceeds of the lands belonging to the institutions.

	Rs.
1. Two Pujaris on a monthly salary of Rs. 4 each	8
2. One Gumasta to keep accounts ...	6

1. Petitions from Srinivasiengar and other Sri Vaishnava Brahmins of Sreerangapatam, dated 16th June 1895; from the Agent of the Sri Parakalaswami Matt, dated 2nd July 1895; and from Srinivasiengar as Honorary Secretary of "Akbila Vaishnava Mahajana Sabha," Mysore, dated 13th July 1895, complaining of certain alleged incidents on the visit of the Swami of the Sri Sringeri Matt to the Sri Ranganathaswami Temple at Sreerangapatam on the morning of 10th June 1895, and asking for certain purification ceremonies to be performed on account of such alleged incidents.

2. Petitions from Sabba Bhatt and other Smartha Brahmins of Sreerangapatam, dated 30th June 1895; and from Ramasastri and others, dated 2nd July 1895, protesting against the performance of any purification ceremonies.

3. A letter from the Swami of the Sri Parakala Matt, without date (received on 2nd July 1895), to Her Highness the Maharani-Regent, asking that the purification ceremonies in question may be performed.

Read also the following letter from the Deputy Commissioner of Mysore, to the Secretary to the Government of Mysore in the Muzrai Department, No. 12, dated 6th July 1895:—

i. With reference to your letter of to-day enquiring what took place in the Ranganathaswami Temple at Sreerangapatam when His Holiness the Jagatguru of the Sri Sringeri Matt visited it on the 10th June 1895, I beg to state as follows—

ii. When His Holiness' visit to the temple was announced, the Parpattegar of the temple showed some anxiety. I told him that nothing hurtful to anybody would take place, and asked him to see that no usual honor was omitted to be shown.

iii. When His Holiness arrived in a palanquin at the outer gate (or the Gopurabagal) of the temple, some of the temple people (I believe the Parpattegar and the Archak) who came there with the Sri Sadagopa wanted His Holiness to alight from the palanquin. But His Holiness' Agent (who I believe was called by His Holiness as Yagneswara) said in the presence of His Holiness that it was not their custom to do so. As this statement received confirmation from His Holiness' silence, I asked the said temple servants not to press the point. They then kept quiet, and thereupon, after the usual honors, His Holiness proceeded in the palanquin and we all went round the temple in the outer Prakara which has no roof. When the palanquin arrived again at the pole called the Garudakambha whence we had started, His Holiness alighted and proceeded into the temple with Pádukê up to the inner pole or Garudakambha. There the Pádukê was left and His Holiness went in, all of us accompanying. His Holiness stood just after the Stapanapeeta, and I was by His Holiness' side, the others being close to us. The Archika made the Arti, and we all made the usual Namaskaram when it was shown to us. Then the Swami took a handful of rupees from a person that was near, and with a Thulasidala which the Archika was asked to give, threw it all from where he was standing. They fell at the feet of a female image on the skirts of its seerê. Then we were desired to go out, and when I enquired why, I was informed that Grahastas should not be present when Yeties make Namaskaram. The Archika showed unwillingness to leave his place. Then His Holiness prepared himself to make Namaskaram even in his presence, but on my saying that nothing exceptional would take place and that it behoved us to comply with such an unobjectional request, the Archika left his position and came to my side. A curtain was then held, and within ten or fifteen seconds it was drawn back. As I was by the side of His Holiness (the Archika being my side) I saw what took place within the curtain, and I have no doubt that the Archika also must have seen it all. His Holiness merely bowed just where he was standing, and then said that the curtain might be withdrawn. Then His Holiness went round the inner Prakara without the Pádukê although a servant of his offered it to him when he came out from inside to the inner Garudakambha. We then went to Ammanavaragudi and the above ceremony was gone through there also. Then we all returned, His Holiness presenting a handful of rupees to the temple servants. As the Parpattegar had shown some anxiety in the beginning, I asked him and the Archika while leaving the temple if it was all right, and both of them said "Yes," apparently much pleased. But day before yesterday I got a report from the Parpattegar (through the Sub-Division Officer of French Rocks) that the Agent of the Sri Parakala Matt, who was taking Thirtha as usual after the said visit, had recently omitted to receive it as per orders of His Holiness Sri Parakala Swami. These are the facts within my cognizance.

No. 127, DATED, BANGALORE, 29TH JULY 1895.

ORDER THEREON.—On the morning of the 10th June 1895, the Swami of the Sri Sringeri Matt, on his way from Bangalore to Mysore, paid a visit to the Sri Ranganatha Swami Temple at Sreerangapatam. For a few days after the Swami's visit, the puja and other services in the temple were carried on as usual. But about the fifth or the sixth day a report was spread by some persons that the Swami on the occasion of his visit to the temple had performed the puja himself by touching the idol. In consequence, the Vaishnava residents of the place met and agreed not to receive *Thirtham* or *Prasadam* in the temple until a purification ceremony was performed.

2. The Muzrai Superintendent then proceeded to Sreerangapatam on the 23rd June 1895 and instituted a careful enquiry as to what really occurred at the place on the occasion of the Sri Sringeri Swami's visit to the temple, in the

presence of the principal local residents including Sri Vaishnavas and Madhwas. At that enquiry it was clearly established that on the visit of the Sri Sringeri Swami nothing happened to which any objection could reasonably be taken, even from the point of view of Vaishnava temple ritualism. One important proof then received was the report of the Agent of the Sri Parakala Matt to the Swami of that Matt, dated 11th June 1895, describing what occurred on the occasion of the Sri Sringeri Swami's visit to the temple on the previous day in the following terms:—

"The Sringeri Swami stood *near the Garbhagudi*. The *Archak* performed the *Karpurarathi*. The Swami scattered rupees on the pedestal of the Utsava (processional) images in front of the main idol, and got the *Archak* to give him *Thulasi* from the foot of the idol. A screen was held, behind which the Swami made his *Namaskaram* to the idol, the *Archak*, *Paricharak* and *Staniks* standing on one side. The Swami did not touch the idol. I was present close by."

When the foregoing report which the Sri Parakala Matt's Agent admitted as having been written by himself and containing a true version of what took place on the occasion of the Sri Sringeri Swami's visit to the temple was read out to the persons assembled, they at once saw the futility of their objections to receive the *Thirtham*, and most of the residents began receiving the *Thirtham* as usual.

3. Again, on the direct representation of the Sri Parakala Swami to Her Highness the Maharani-Regent on the 2nd July 1895, that a purification ceremony should be performed in the temple, a further careful enquiry into the matter was instituted, and the facts being as reported in the Deputy Commissioner's report above read, No. 12, dated 6th July 1895, Her Highness the Maharani-Regent decided that the prayer for the performance of purification ceremonies was groundless and unreasonable, and caused such decision to be personally explained to the Sri Parakala Swami by the Muzrai Superintendent on the 6th July 1895.

4. It only remains now to place on record the final decision as above with a correct version of what really took place on the occasion of the Sri Sringeri Swami's visit to the temple, for communication to the petitioners, who have apparently been misled by the misrepresentations got up by some designing persons from motives of malice and envy. The well-known fact that the Sri Sringeri Swami has, on other occasions, performed puja in some of the Vishnu temples, doubtless served to impart an air of plausibility to the misrepresentations above-mentioned, and thereby the more readily to mislead the unenquiring. Fortunately the present case is one for the decision of which no consideration is necessary of the general question whether a Matadhipathi can, according to the Agamas binding on the Brahmins following the Vedic rituals, perform puja in a temple where the services are regulated by the Agamas, or the particular question whether the Sri Sringeri Swami has any and what special privileges in this respect according to custom. For the purpose of the present decision, it is sufficient to observe that the Sri Sringeri Swami's visit of the 10th June last, was not paid with the object of performing puja. The Swami was travelling in his palanquin borne by Sudra bearers, and was clad for the journey, and visited the temple as laymen do to prostrate before the idol when passing the temple. Had the Swami's visit been to perform the puja himself, he would have had to undergo, as is well-known, certain elaborate ablutions, and dress himself differently. The Swami did not make these preliminary preparations because he never intended to perform the puja himself; and it is beyond doubt that he did not go nearer the idol than the Deputy Commissioner and numbers of others present did on this occasion, or Brahmin or Ursu gentlemen generally do when they visit the temple without the preliminary purification of bathing and change of clothes.

5. The Sri Parakala Swami has been doubtless misled by the alleged depositions of the *Archaks* given on the 18th June 1895, before certain persons styling themselves the representatives of the Vaishnava community. The Muzrai Superintendent will be directed to enquire whether the *Archaks* did really

give the depositions imputed to them and, after taking their explanation as to how they came to make statements so directly opposed to the truth, to take adequate notice of their conduct.

6. It is only necessary to add that the Sri Sringeri Swami's *mamul* route to Paschimavahini lay outside Sreerangapatam Fort. When near the Sreerangapatam Fort, the Swami allowed himself to be persuaded after the expression of considerable reluctance on his part to pass through the streets of the Fort at the earnest and pressing entreaty of the Deputy Commissioner Mr. B. K. Venkatavardaiengar and others present. Similar entreaty appears to have been used to induce the Swami, when within the Fort, to visit the temple. The Deputy Commissioner's action was doubtless prompted by a desire to please the people and to show proper consideration and respect to the Swami whom he was escorting to the Palace, and it is sufficient to point out to him that it was his duty to have obtained the previous orders of Government before deviating from the *mamul* route for such an occasion.

No. 151-61—Muz. F. 4-95, dated, Bangalore, 31st July 1895.

Order.—In 1881 a limited number of copies of the Final Ready Money Inam Registers was printed by the Inam Superintendent and supplied to the Deputy Commissioners for information and reference. But since 1881, the entries in these registers have undergone several alterations for the reasons noted below :—

(1) Several Devadaya grants which were resumed during the Inam Settlement owing to the disrepair of the Temple buildings have since been restored the institutions having been subsequently put in order.

(2) The settlement of Personal money grants, which had been confirmed for life only as per orders conveyed in the late Chief Commissioner's Proceedings No. 6423-4—P. 707, dated 27th February 1880, was directed to be revised on the lines laid down in a later Proceedings issued in July 1888; and accordingly many life grants have been converted into hereditary ones.

(3) Several grants have been transferred from one taluk to another. These transfers were made in some cases on account of the reconstitution of the taluks and their boundaries, and in others to serve the convenience of the institutions to enable them to draw money from the taluk treasuries of the same taluks in which those institutions are situated.

(4) Similarly the allowances of some of the Chattrams have been transferred either wholly or partially to others for various reasons.

(5) Of Personal grants confirmed for life only, many have lapsed by the death of the recipients.

2. Under the foregoing circumstances the Government consider it expedient to publish revised registers of Ready Money Inams payable in the several taluks as they now stand. The Muzrai Superintendent will have the revised registers compiled in his office and, after having the entries therein duly checked and verified by the Inam Superintendent with reference to his office records, issue the registers printed under his signature.

Correspondence ending with Government Proceedings, No. 3395—152, dated 15th July 1890, on the subject of the Balamuri Anna Chattram.

READ ALSO :—

Petition, dated 14th April 1895, from Mr. P. Raghavendra Rao, requesting that the Balamuri Chattram (mis-stated as Bannur Chattram in the petition) may be located in the building constructed by his father, the late Rai-Bahadur P. Krishna Rao, near the French Rocks Railway Station.

AND :—

The Muzrai Superintendent's Memo on the subject, dated 20th July 1895.

No. 197-8.—MUZ. F. 6-95, DATED, BANGALORE, 31ST JULY 1895.

ORDER THEREON.—The Balamuri Chattram, which receives an annual Tasdik of Rs. 1,227-12-0, has, for some years past, been temporarily located in the village of French Rocks except for two months in the year, when the Chattram is held in Rai-Bahadur P. Krishna Rao's building near the French Rocks Railway Station (3 miles from the village) for one month about the time of *Vairamudi Utsavam* at Melkote, and in Balamuri for one month in *Thulamasa*. Mr. P. Raghavendra Rao now requests that the Balamuri Chattram may be permanently located in his father's Chattram near the Railway Station.

2. Once in June 1889, Mr. A. Raghavendra Rao, then Amildar of Seringapatam Taluk, made a similar proposal to transfer the Balamuri Chattram to Rai-Bahadur P. Krishna Rao's Chattram near the French Rocks Railway Station, but the Government considered that the transfer was unnecessary.

3. The Government now observe that, with a Chattram at Seringapatam (known as Kirangur Chattram) and the Bale Urs' Chattram at Ballal—both within a short distance of French Rocks on either side—there exists no necessity for maintaining a separate Chattram at French Rocks. On the other hand it is reported that the Tasdik allotment to the Chattram at Seringapatam is found quite inadequate to meet the growing requirements of the large number of pilgrims and travellers visiting the place. The Government therefore deem it best to transfer the Balamuri Chattram now located in French Rocks to Seringapatam and amalgamate it with the Seringapatam Chattram, needful alterations being made to the Chattram building at Seringapatam to provide increased accommodation. The Deputy Commissioner of Mysore District will be instructed to carry out the same with effect from 1st September 1895.

4. Supplies for *Sri Vaishnava* travellers at Seringapatam should be daily given to the temple of Sri Ranganathaswami according to actual requirements to provide cooked food for them as has been done hitherto.

5. The special feeding of travellers conducted out of the Balamuri Chattram funds for a month at Rai-Bahadur P. Krishna Rao's Chattram in French Rocks on the occasion of the *Vairamudi Utsavam* at Melkote and for another month in *Thulamasa* at Balamuri will, however, continue as heretofore.

PUBLIC WORKS.

Proceedings of the Government of Mysore,

READ :—

Letter No. 213 of 31st October 1894, from the Sanitary Engineer with Government submitting a project amounting to Rs. 33,750 for the water-supply of the town of Chintamani, Kolar District.

(2) Public Works Secretary's Memo, dated 24th December 1894, submitting the project with certain observations to the Dewan of Mysore.

No. 624-29—3288-93, DATED, BANGALORE, 2ND JULY 1895.

ORDER THEREON.—The Government observe that the scheme proposed in the above is needlessly elaborate. It should be reduced and restricted to the marginally noted two items. An abstract estimate providing for them is accordingly sanctioned for Rs. 16,295. The Sanitary Engineer's attention is, however, drawn to the Chief Engineer's remarks on the project, copy of which is herewith forwarded for information and attention.

	Rs.
(1) Restoring and enlarging Kanamaganta tank, including compensation for land.	11,737
(2) Contour channel from above tank to existing masonry conduit from present Karanji tank.	4,558
Total ...	16,295

2. The existing wells in the town (one descending and two draw-wells) should be fed from the Karanji tank so long as the supply in it lasts, and afterwards from the enlarged Kanamagunta tank.

3. These works should be executed by the Executive Engineer, Kolar Division, but treated for financial purposes as belonging to Part I of Sanitary Works Budget, half the cost of the scheme being grant-in-aid to the Municipality, and the other half recoverable loan for the repayment of which proper agreement as prescribed in Proceedings No. 3916-36—749-69, dated 1st August 1894, should be obtained and forwarded before commencement of work.

No. 7—68-2, dated 6th May 1895, from Government of India in the Revenue and Agricultural Department on the subject of communication to the Surveyor General of India of changes in physical features, &c., ascertained by Cadastral Surveys for correction of topographical maps.

No. 655-77—3480-502, DATED, BANGALORE, 9TH JULY 1895.

ORDER THEREON.—The present practice under which the Local Public Works Department communicates to the Surveyor General of India all alterations from time to time required to be entered in the sheets of the Topo. Survey of Mysore will be continued.

2. The appended Circular letter from the Government of India (Department of Revenue and Agriculture) No. 7—68-2, dated 6th May 1895, will be communicated to the Superintendent of Revenue Survey, the State Geologist, the Deputy Commissioners and Executive Engineers, with a request that they will communicate to the Secretary, D. P. W. all changes of the kind referred to in the above quoted Circular letter of the Government of India which may come under their observation and require to be entered or altered in the published Topo. sheets.

"Government of India Circular No. 7—68-2, dated 6th May 1895."

"It has been brought to the notice of the Government of India that considerable portions of the country are periodically being brought under Survey for the purposes of Provincial Administration, but that advantage is not taken of this work to keep corrected up to date, so far as material is available, the topographical maps which have been prepared by the Survey of India Department."

2. "I am accordingly to request that, whenever local surveys are undertaken, the officer in charge may be instructed to compare his results with the topographical survey sheets of the tract under survey and to communicate the results to the Survey Department wherever a change in physical features is apparent, or where new main village sites (excluding subsidiary hamlets) have been founded, or new railways, roads, canals, or similar major works have been constructed, and do not find a place upon the topographical survey sheets."

3. "As the arrangements for survey differ from Province to Province, the manner in which the information will be most convenently supplied should be settled in direct communication with the Surveyor General."

PETITION.

Proceedings of the Government of Mysore.

READ :—

Petition No. 211 of 1894-95 from Mohadin Pacha of Koppa in the Bowringpet Taluk, appealing against the order of the Deputy Commissioner of Kolar directing him to give up possession of certain Service Inam lands attached to the Shanbhogi of Koppa, leased out to him by the present Shanbhog Venkanna and his brother Yellappa for a period of 30 years.

2. Records received with docket No. 871—149, dated 30th August 1894, from the Deputy Commissioner, Kolar District.

3. Docket No. 4777—1479, dated 10th June 1895, from the same officer, furnishing the information called for in docket No. 1675-4—P. 1380, dated 9th April 1895.

No. 854-61—P. 180, DATED, BANGALORE, 18TH JULY 1895.

ORDER THEREON.—The five lands noted in the margin, bearing an assessment of Rs. 48, are allowed as Service Inam to the Shanbhog of Koppa, subject to the payment of a Jodi of Rs. 11-0-10. The Pakka Potagi of the office has not yet been settled, and the officiator pays to Government only the Jodi fixed and not the full assessment of the lands.

No.	Description.	Extent.	Assessment.
61	Wet ...	1·14	9 0 0
67	Wet and Garden	1·15	9 0 0
157	Wet ...	1·29	11 0 0
219	Dry ...	4·25	9 0 0
223	Dry ...	5·3	10 0 0
		14·6	48 0 0

2. Three of the above lands, namely Nos. 61, 67 and 219, were leased to the Petitioner by the present officiator Venkanna and his brother for a period of thirty years under a registered deed, dated 18th June 1892, subject to the payment of a Jodi of Rs. 9 to Government in respect of them. The lessors received thirty years' profit, Rs. 150, in a lump sum, and entered a stipulation that neither they nor their heirs nor their successors in office should take the lands out of the lessee's possession before the expiry of the term.

3. The Counter Petitioner Shamanna, a cousin of the Shanbhog, urged that he possessed one-third share in the lands and that the transaction was illegal and fraudulent. He stated that the Shanbhog had executed a registered sale deed in favor of Petitioner and that when he complained about it, this long lease was executed virtually to give effect to the conveyance, but a copy of the sale deed was not called for or produced and the Petitioner denied that there was a sale. The Deputy Commissioner held that the transaction was opposed to clause (*d*) of Section 43 of the Land Revenue Rules, and ordered the Petitioner to quit the lands. It was urged in appeal that no title to the lands had been conveyed to the Petitioner and that if the Shanbhog was at liberty to grant a lease for a short term, there could be no objection to his granting one for a long term.

4. The Government are of opinion that the lease as described in the deed executed to the Petitioner is certainly an alienation, as it keeps out the Service Inam land from the Shanbhog's enjoyment for a period of thirty years. This lease cannot therefore be upheld. An officiator who involves himself in such transactions which are clearly forbidden by the standing orders of Government, renders himself liable to be removed. But before passing final orders in this matter, it is deemed proper to allow the present Shanbhog a period of six months, within which he must try and have the lease cancelled by making any other arrangement with the lessee. It will be to the interest of the lessee also to come to a settlement by which the money he has advanced may be returned to him. If within these six months the Shanbhog and the lessee will not come to any terms and arrange the matter amicably between themselves, the Shanbhog who is guilty of this unauthorized act will be removed from his appointment and the lease cancelled.

Revenue Secretary.

Petition No. 236—30, dated 22nd July 1894, presented by Dod Nagappa, Patel of Reddihalli, Challakere Taluk, appealing against the order of the Deputy Commissioner of Chitaldrug, directing the removal of petitioner on the ground of inefficiency, and the appointment of one Dod Nagappa, son of Channappa as Patel of Reddihalli, in preference to petitioner's son Rudraiya.

2. Records connected with the case received with docket No. 385—340, dated 29th November 1894, from the Deputy Commissioner, Chitaldrug District.

No. 155—P. F. 1-95, DATED, BANGALORE, 3RD JULY 1895.

ORDER THEREON.—Dod Nagappa was officiator Patel and the Deputy Commissioner removed him on the ground of old age and inefficiency. The immediate cause of his case being brought for the orders of the Deputy Commissioner was that he failed to make certain entries in the Cattle-pound Register. He has a son Rudraiya who knows to read and write and is otherwise competent. The Respondent DodNagappa is one of those who were once declared to be hissedars belonging to the same family as the Appellant, but in whose favor the Government declined to remove the Appellant. The question now is whether the Appellant's son Rudraiya or the Respondent should be appointed to succeed the Appellant. The Deputy Commissioner has appointed the Respondent in preference to Rudraiya. He has relied upon Government order No. 10267-75—H. 1055 of the 3rd January 1894, which among other things directs that "where there are more than two *hakdars*, two of them may be appointed as above directed and the other hakdars appointed when vacancies occur, so that all of them may have their turn in office." This order does not seem to apply to the circumstances of this case which refers not to two independent and co-ordinate hakdars, but to several heirs belonging to the same family and contesting succession to a common officiator. The order does not seem moreover to overlook the hereditary principle of succession which has been always recognized and acted upon in this country, and has also been impliedly enacted in para 5 of Section XLIII of Land Revenue Rules. Adopting any other mode will cause great confusion and remove the chief incentive for efficient and honest discharge of duty in the shape of securing hereditary succession. Want of certainty in the Rules of succession will also make the direct heir indifferent to exert his utmost to acquire the maximum of competency. The result of a construction such as has been put by the Deputy Commissioner on the above order will furthermore be that what is provided as a penalty for the commission of very serious offences in clause (b) of the rule above quoted will, as has been done in the present instance; be applied to the case of a Patel who is to be removed simply on the ground of inefficiency caused by old age.

2. For these reasons, the order of the Deputy Commissioner, superseding Rudraiya is reversed and it is hereby directed that in succession to the Appellant Dod Nagappa, his son Rudraiya be appointed officiator Patel of Reddihalli.

3. The records of the case are returned.

Revenue Secretary.

Proceedings of the Government of Mysore,

READ THE FOLLOWING CORRESPONDENCE:—

1. Letter No. 49, dated 21st July 1894 from the Sub-Division Officer, Closepet to the Deputy Commissioner, Bangalore District.

"I have the honor to submit herewith the report No. 33, dated 16th July 1894, from the Amildar of Magadi together with a file of Vernacular correspondence relating to the introduction of Survey Settlement into the village of Jogirahalli in the Tavarekere Hobli, Magadi Talak. This village appears to have been granted as Inam for the up-keep and maintenance of Byredevaru Pagoda at Jogirahalli. During the Inam Settlement it was confirmed to the said Pagoda subject to the payment of a combined Jodi and quit-rent amounting to Rs. 30. According to the old account the extent of culturable land in the village is 22 kandies, 10 kadus and 3¾ mánás assessed under old system at Rs. 36-5-10. The whole village was enjoyed by a single family who appear to have rented some of the fields to the others in the village and appropriated to themselves the total income derived therefrom. They have not paid any attention to the temple which is left to decay. The question of introducing Survey Settlement was first mooted by the Shanbhogue of the village on the 2nd October 1890 in a petition to the Deputy Commissioner, Bangalore. Thereupon the case was referred to the Survey Superintendent for his disposal. The Survey Superintendent issued an order to the Amildar to report with the statement of the chief person vested with the management of the Pagoda as to the payment of the cost of the detail survey and granting of survey guarantee to the raiyats as in Sircar villages. The Amildar appears to have asked one Pillaiya and Kasi regarding the introduction of Survey Settlement into the village, and they were not in favor of the measure as they were enjoying the village without any restriction placed upon them. In reporting the above, the Amildar stated that the grant being for the benefit of the temple, the detailed survey might be introduced independently of their wishes *vide* report No. 659, dated 14th October 1890.

Subsequently the question of introducing the detailed survey into the village was entirely dropped and the enjoyers of the village, *viz.*, Pillaiya and Kasi were called upon to resotore the temple. They appear to have of late executed petty repairs to the temple and asked time to build a compound wall.

From the Title-deed granted at the Inam Settlement it appears that the whole village of Jogirahalli is confirmed as "Devadaya" Inam, but not as personal Inam to the enjoyers of the village, *viz.*, Pillaiya and Kasi. They have therefore no title to the Inam. The management of such inams under the present arrangement vest in the Muzrai Superintendent who is alone, I think, in a position to say whether the introduction of detailed survey is or is not for the benefit of the temple. If you agree with me in the above the papers may be forwarded to the Muzrai Superintendent for disposal."

2. Docket No. 1341, dated 6th May 1895, from the Deputy Commissioner, Bangalore District, to the Muzrai Secretary to the Government of Mysore.

"In forwarding in original letter No. 49, dated 21st July 1894, from the Sub-Division Officer, Closepet, together with its enclosures, has the honor to state that the village of Jogirahalli in question is a Devadaya Inam granted for the up-keep and maintenance of the temple Byré Devaru.

2 Pillaiya and Kasi who have been in possession of the village as trustees and managers have not been rendering accounts of the income, &c., to the Muzrai Department. In the Inam Fysalati Register the village is entered in the name of the temple. The said managers and the raiyats in the village do not agree to Survey and Settlement being introduced into the village though it is very much in the interests of the temple. I do not think that they have any voice in the matter, and therefore request orders for the introduction of the Survey and Settlement."

No. 44-5—Muz. F. 2-95, DATED, BANGALORE, 3RD JULY 1895.

ORDER THEREON.—The village in question being a Devadaya Inam granted to the temple the temple itself is a Muzrai Institution, and the Government in the Muzrai Department has the right as representing the temple (the Inamdar in this case) to ask for the introduction of Revenue Survey and Settlement.

2 The Superintendent of Revenue Survey will accordingly be requested to introduce Survey and Settlement into the village in communication with the Deputy Commissioner of the Bangalore District.

3. The Vernacular records are herewith returned to the Deputy Commissioner with a request to communicate the foregoing order of Government to the managers of the temple and other parties concerned.

The following letter from the Deputy Commissioner Kolar District, No. 3632—1203, dated 6th April 1895.

"Adverting to your official memorandum No. 60, dated 2nd September 1892, forwarding for enquiry and report a petition No. 52 from Gopalaiya and other residents of Masti village, Malur Taluk, I have the honor to state that, from the records available on the subject, it appears that, about 50 years ago, the marginally noted Kodigi Inam was granted by its original holders, Singaiengar and Rangaswamaiengar, for the support of the Venkatramanaswami temple at Masti village in the said Taluk.

situated in the village of Adhikarahatti, Malur Taluk.

2. The Dharmakarthas of the temple having neglected to repair the tank for the up-keep of which the Kodigi Inam in question had been granted, the Inam was brought under attachment in 1872 by an order issued by Mr. Krishnaiengar, the then Deputy Superintendent of the District.

3. Thereupon, the Dharmakarthas sold away the Kodigi, tank with the Inam to one Karagada Venkate Gauda of Rajenahalli, Malur Taluk, for Rs. 100 by a deed of conveyance, dated the 5th March 1873, which recites amongst other things that the said amount will be utilized by the vendors for the Paditharam expenses of the temple.

4. Venkate Gauda, the vendee, having subsequently repaired the Kodigi tank at an outlay of over Rs. 1,000, the Inam was released from attachment by the Deputy Commissioner, who observed in his order, No. 47, dated the 6th April 1876, that the same was subject to revision during the general settlement of Kodigi Inams in the Province.

5. It is evident from the records that, before the release of the Inam from attachment, the Deputy Commissioner was fully aware of the fact of the alienation thereof to Venkate Gauda and of the latter having, in pursuance of the transaction, been in possession of the lands; but there is nothing to show that such alienation took place with the express sanction or permission of that officer, though it is clearly inferable from the papers that he acquiesced in the same.

6. At the Inam settlement which took place in 1880, the Kodigi Inam under reference was enfranchised at ¼th quit-rent and confirmed to the temple as a Devadayam grant.

7. The Patta of the Inam lands under notice has all along stood in the name of the temple, though the vendee and his successor in title have been in possession and enjoyment of the lands paying the Government dues thereon ever since the date of the alienation of the same.

8. Venkate Gauda is dead; and his nephew Narana Gauda, who now holds the lands, is not willing to surrender the same for the benefit of the temple, though the widow of the deceased is in favor of the restoration of the lands to the Institution.

9. The fact of the alienation of the Inam lands belonging to the temple having come to the Deputy Commissioner's notice in 1888, an enquiry ensued, during which the deceased Venkate Gauda gave a Mutchalika before the Amildar, dated the 29th March 1889, agreeing to deliver 12½ khandies of paddy per annum for the Paditharam expenses of the temple besides attending to the up-keep of the temple building as a consideration for his enjoyment of the Inam lands; but this agreement does not seem to have been enforced as Venkate Gauda subsequently withdrew from his engagement. An endorsement, No. 17, dated 7th March 1890, was issued from this office to one Narasimhachar, Dharmakartha of the temple, who sought the recovery of the paddy from Venkate Gauda, informing him that no orders for the delivery of the produce of the Inam lands could be passed as the lands had been duly conveyed to Venkate Gauda by a registered deed of sale executed by the Dharmakarthas of the temple and as the former had, on the strength of such conveyance, repaired the Kodigi tank at a large outlay at the orders of the then Deputy Commissioner of the District.

10. The petitioners complain that the enjoyment of the Inam lands by a stranger has seriously interfered with the performance of the necessary worship in the temple.

11. It is a question whether the Dharmakarthas could alienate the temple Inam as they have done, and whether the Deputy Commissioner was competent to recognize or sanction such alienation without previously making a reference to and obtaining the special orders of Government in the matter; nor is it clear why Venkate Gauda, if he thought that he had a good and an indefeasible title to the lands, did not urge or establish the same at the Inam settlement at which they were confirmed as a Devadayam in favor of the temple, a circumstance which had the effect of putting him in the position of a trustee of the Institution responsible to see to the due fulfilment of the object for which the Inam had been granted by the donors named above.

12. Should the Government be pleased to decide that the Inam is a Devadayam and as such fell within the scope of the Inam settlement like State endowments for the support of religious and charitable institutions, it would then be clearly inalienable from the temple to which it is attached, and would be liable to be summarily resumed from the present enjoyer under the Rules

contained in the late Chief Commissioner's Notification No. 266, dated the 17th November 1877, republished with Government Proceedings No. 741-50—Muz. F. 60-93, dated the 16th January 1894.

13. The Vernacular records bearing on the subject as per accompanying Ferist are herewith, submitted for reference and obliging return when no longer required.

14. It must be stated here that the gift of the land to the temple by the donors does not appear to have been made with the knowledge of Government, nor was the enjoyer or his predecessor in title required to pay any portion of the produce for the benefit of the temple until a Mutchalika was taken from the latter in 1889, the conditions of which even were not enforced."

No. 33—Muz. F. 1-95, dated, Bangalore, 3rd July 1895.

Order thereon.—The Government observe that the land in question having been confirmed to the temple on ¼th quit-rent under Rule 1, clause 1, of the rules for the enfranchisement of Kodigi Inams it cannot be treated as a Devadaya Inam or be summarily resumed under the late Chief Commissioner's Notification, dated the 17th November 1877. The land must be regarded as an enfranchised Kodigi Inam belonging to the alienee Venkate Gauda and his heirs. Government interference of any kind is not, therefore, called for in the matter.

Secretary.

The following letter from the Deputy Commissioner, Kadur District, No. 1378, dated 20th April 1895.

"With reference to your official Memorandum No. 1394, dated 14th June 1894, forwarding for report a petition from Vrittidar Subbanna of Chilaganahalli, Koratagere Sub-Taluk, praying that the Basti temple and Matt of Singanagadde, Yedahalli Sub-Taluk, be taken under the Government management, I have the honor to submit as follows:—

2. The Matt and temple have Inam lands, 105-5 acres and assessed at Rs. 248-8-0; in addition to the Government lands, 47-2 acres assessed at Rs. 73-8-0.

3. These lands were under the management of the priest of the Matt Lakshmisena Bhattarkar, by name, till the year Srimukha (1873), when the said priest went on a pilgrimage entrusting the affairs of the institution to Vrittidar Subbanna (petitioner). The latter, being then a Government servant, placed the same in the hands of one Chinvar Dharmaiya Shetti of Yedahalli, a fellow casteman, and ever since that time the management of the temple and Matt has been on the decline.

4. The priest, who went on a pilgrimage, died in his sojourn in Northern India, and before his death another (Lakshmisena Bhattarkar) was nominated. This priest remained for sometime and also proceeded on pilgrimage five or six years ago, and his death in Southern India was reported two or three years ago.

5. Availing himself of this fair opportunity Dharmaiya Shetti took care not to return the property which was entrusted to him. He usurped for himself 81·21 acres of Matt lands assessed at Rs. *166. This man having protested to give up the lands on the ground of long enjoyment for upwards of nearly 30 or 40 years without any documentary support, a notice was issued calling upon him to deliver up all the properties (immovable and movable) belonging to the Matt, within six months from the date of receipt of the same. This was duly served upon Dharmaiya on 24th February 1894. Notwithstanding this, the said Shetti did not show any good cause as to why he should be left in possession of the lands. Consequently the Deputy Amildar took possession of only the Inam lands on behalf of the institution, and sent him an endorsement No. 42, dated 27th December 1894, to that effect. Dharmaiya Shetti now comes forward and solicits that the Inam lands may be let out to him for cultivation on the same terms on which they would be entrusted to other raiyats. Some of these petitions have been sent to the Deputy Amildar for consideration. He, however, states that he is not in possession of any movable property.

6. The annual income of the institution is estimated at Rs. 924-12-0 as below:—

	Rs.	a.	p.
1. Value of land crops, &c., belonging to the Matt	674	12	0
2. Kanike (Money payments) given by devotees	250	0	0

It is suggested by the Deputy Amildar that an establishment costing Rs. 33 per month as per margin may be sanctioned to keep the business of the institution going.

2. Two Pujaris at Rs. 4 each a month ...	8
3. One sweeper	3
4. Expenses of Paditar, Diparadhane	16
Total ...	33

7. Towards the future good management of the institution the Deputy Amildar proposes that Dharmadarsis, noted in the margin, may be appointed. The two last are recommended apparently to watch the affairs of finances of this long mismanaged institution and to render good advice and help to the other members.

1. Boja Bokiya (Jain).
2. Jinkanaiya (Jain).
3. Dharmaiya Shetti (Jain).
4. Subbanna, pensioner (Jain)
5. Sahukar Ravappa (Brahmin).
6. Jagalagadi Sattappa Shetti (Lingayat).

8. There is a sum of Rs. 103-6-0, being the amount of sale proceeds of last year's crops of Inam lands, which is deposited in the Koppa Taluk Treasury. Sanction may be accorded to utilize the said sum towards the expenses of the current year.

9. The petitioner Subbanna seems to be the real interested party of the institution. He had collected Rs. 450 as contribution, of which a sum of Rs. 200 was paid to the raiyats to purchase agricultural implements, &c.

10. The devotees have appointed a Pujari for the worship. The people interested have deposed that they have not any one in view as yet to nominate as priest of the Matt. They state they would in course of time do so after obtaining sanction of Government.

11. A list of property valued at Rs. 717-7-0, belonging to the institution, is also enclosed.

12. Two petitions received on the 11th and the 15th instant, respectively, from the Thakrardar Dharmaiya Shetti, and chief devotee Subbanna, are also attached to the file. Both of them urge that they would represent their grievances in person. The Deputy Amildar has at present temporarily appointed a Brahmin named Lingappa as Gumasta of this institution. These people wish that the office should be conferred on one of their castemen. Until the affairs of the institution come to a satisfactory working order, it seems advisable to allow the arrangement made by the Deputy Amildar stand as it is.

13. In conclusion, I would beg to recommend that the affairs of the above temple and Matt may be taken under Government management until a competent priest is appointed to manage the affairs of the same, or until such time as the Government would deem it desirable. The appointment of Dharmadarsis proposed in para 7 of this report may also be notified.

14. The Vernacular file ending with the Deputy Amildar's report No. 575, dated 21st February 1895, is herewith submitted.

No. 91-2—Muz. F. 3-95, dated Bangalore, 19th July 1895.

Order thereon.—Under the circumstances represented in the Deputy Commissioner's letter read above, the Government direct that the management of the Basti temple and Matt of Singanagadde, Yedahalli Sub-Taluk, be assumed by the Muzrai Department till such time as a competent priest is appointed to the Matt.

2. The lands and other properties belonging to the Institutions will be placed under the management of the Deputy Amildar of Yedahalli, who will administer the same, aided by a Committee of Dharmadarsis proposed in para 7 of the Deputy Commissioner's letter.

3. The Government are further pleased to sanction a monthly expenditure of Rs. 16 in the Matt and temple for the purposes of Paditara and Diparadhane and the entertainment of the marginally noted establishment costing Rs. 17 out of the proceeds of the lands belonging to the institutions.

	Rs.
1. Two Pujaris on a monthly salary of Rs. 4 each	8
2. One Gumasta to keep accounts ...	6

1. Petitions from Srinivasiengar and other Sri Vaishnava Brahmins of Sreerangapatam, dated 16th June 1895; from the Agent of the Sri Parakalaswami Matt, dated 2nd July 1895; and from Srinivasiengar as Honorary Secretary of "Akhila Vaishnava Mahajana Sabha," Mysore, dated 13th July 1895, complaining of certain alleged incidents on the visit of the Swami of the Sri Sringeri Matt to the Sri Ranganathaswami Temple at Sreerangapatam on the morning of 10th June 1895, and asking for certain purification ceremonies to be performed on account of such alleged incidents.

2. Petitions from Subba Bhatt and other Smartha Brahmins of Sreerangapatam, dated 30th June 1895; and from Ramasastri and others, dated 2nd July 1895, protesting against the performance of any purification ceremonies.

3. A letter from the Swami of the Sri Parakala Matt, without date (received on 2nd July 1895), to Her Highness the Maharani-Regent, asking that the purification ceremonies in question may be performed.

i. With reference to your letter of to-day enquiring what took place in the Ranganathaswami Temple at Sreerangapatam when His Holiness the Jagatguru of the Sri Sringeri Matt visited it on the 10th June 1895, I beg to state as follows—

ii. When His Holiness' visit to the temple was announced, the Parpattegar of the temple showed some anxiety. I told him that nothing hurtful to anybody would take place, and asked him to see that no usual honor was omitted to be shown.

iii. When His Holiness arrived in a palanquin at the outer gate (or the Gopurabagal) of the temple, some of the temple people (I believe the Parpattegar and the Archak) who came then with the Sri Sadagopa wanted His Holiness to alight from the palanquin. But His Holiness Agent (who I believe was called by His Holiness as Yagneswara) said in the presence of His Holiness that it was not their custom to do so. As this statement received confirmation from His Holiness' silence, I asked the said temple servants not to press the point. They then kept quiet and thereupon, after the usual honors, His Holiness proceeded in the palanquin and we all went round the temple in the outer Prakara which has no roof. When the palanquin arrived again at the pole called the Garudakambha whence we had started, His Holiness alighted and proceeded into the temple with Pâdukê up to the inner pole or Garudakambha. There the Pâdukê was left and His Holiness went in, all of us accompanying. His Holiness stood just after the Stapanapeeta, and I was by His Holiness' side, the others being close to us. The Archika made the Arti, and we all made the usual Namaskaram when it was shown to us. Then the Swami took a handful of rupees from a person that was near, and with a Thulasidala which the Archika was asked to give, threw it all from where he was standing. They fell at the feet of a female image on the skirts of its seré. Then we were desired to go out, and when I enquired why, I was informed that Grahastas should not be present when Yeties make Namaskaram. The Archika showed unwillingness to leave his place. Then His Holiness prepared himself to make Namaskaram even in his presence, but on my saying that nothing exceptional would take place and that it behoved us to comply with such an unobjectional request, the Archika left his position and came to my side. A curtain was then held, and within ten or fifteen seconds it was drawn back. As I was by the side of His Holiness (the Archika being my side) I saw what took place within the curtain, and I have no doubt that the Archika also must have seen it all. His Holiness merely bowed just where he was standing, and then said that the curtain might be withdrawn. Then His Holiness went round the inner Prakara without the Pâdukê although a servant of his offered it to him when he came out from inside to the inner Garudakambha. We then went to Ammanavaragudi and the above ceremony was gone through there also. Then we all returned, His Holiness presenting a handful of rupees to the temple servants. As the Parpattegar had shown some anxiety in the beginning, I asked him and the Archika while leaving the temple if it was all right, and both of them said "Yes," apparently much pleased. But day before yesterday I got a report from the Parpattegar (through the Sub-Division Officer of French Rocks) that the Agent of the Sri Parakala Matt, who was taking Thirtha as usual after the said visit, had recently omitted to receive it as per orders of His Holiness Sri Parakala Swami. These are the facts within my cognizance.

No. 127, DATED, BANGALORE, 29TH JULY 1895.

ORDER THEREON.—On the morning of the 10th June 1895, the Swami of the Sri Sringeri Matt, on his way from Bangalore to Mysore, paid a visit to the Sri Ranganatha Swami Temple at Sreerangapatam. For a few days after the Swami's visit, the puja and other services in the temple were carried on as usual. But about the fifth or the sixth day a report was spread by some persons that the Swami on the occasion of his visit to the temple had performed the puja himself by touching the idol. In consequence, the Vaishnava residents of the place met and agreed not to receive *Thirtham* or *Prasadam* in the temple until a purification ceremony was performed.

2. The Muzrai Superintendent then proceeded to Sreerangapatam on the 23rd June 1895 and instituted a careful enquiry as to what really occurred at the place on the occasion of the Sri Sringeri Swami's visit to the temple, in the

presence of the principal local residents including Sri Vaishnavas and Madhwas. At that enquiry it was clearly established that on the visit of the Sri Sringeri Swami nothing happened to which any objection could reasonably be taken, even from the point of view of Vaishnava temple ritualism. One important proof then received was the report of the Agent of the Sri Parakala Matt to the Swami of that Matt, dated 11th June 1895, describing what occurred on the occasion of the Sri Sringeri Swami's visit to the temple on the previous day in the following terms:—

"The Sringeri Swami stood *near the Garbhagudi*. The *Archak* performed the *Karpurarathi*. The Swami scattered rupees on the pedestal of the Utsava (processional) images in front of the main idol, and got the *Archak* to give him *Thulasi* from the foot of the idol. A screen was held, behind which the Swami made his *Namaskaram* to the idol, the *Archak*, *Paricharak* and *Staniks* standing on one side. The Swami did not touch the idol. I was present close by."

When the foregoing report which the Sri Parakala Matt's Agent admitted as having been written by himself and containing a true version of what took place on the occasion of the Sri Sringeri Swami's visit to the temple was read out to the persons assembled, they at once saw the futility of their objections to receive the *Thirtham*, and most of the residents began receiving the *Thirtham* as usual.

3. Again, on the direct representation of the Sri Parakala Swami to Her Highness the Maharani-Regent on the 2nd July 1895, that a purification ceremony should be performed in the temple, a further careful enquiry into the matter was instituted, and the facts being as reported in the Deputy Commissioner's report above read, No. 12, dated 6th July 1895, Her Highness the Maharani-Regent decided that the prayer for the performance of purification ceremonies was groundless and unreasonable, and caused such decision to be personally explained to the Sri Parakala Swami by the Muzrai Superintendent on the 6th July 1895.

4. It only remains now to place on record the final decision as above with a correct version of what really took place on the occasion of the Sri Sringeri Swami's visit to the temple, for communication to the petitioners, who have apparently been misled by the misrepresentations got up by some designing persons from motives of malice and envy. The well-known fact that the Sri Sringeri Swami has, on other occasions, performed puja in some of the Vishnu temples, doubtless served to impart an air of plausibility to the misrepresentations above-mentioned, and thereby the more readily to mislead the unenquiring. Fortunately the present case is one for the decision of which no consideration is necessary of the general question whether a Matadhipathi can, according to the Agamas binding on the Brahmins following the Vedic rituals, perform puja in a temple where the services are regulated by the Agamas, or the particular question whether the Sri Sringeri Swami has any and what special privileges in this respect according to custom. For the purpose of the present decision, it is sufficient to observe that the Sri Sringeri Swami's visit of the 10th June last, was not paid with the object of performing puja. The Swami was travelling in his palanquin borne by Sudra bearers, and was clad for the journey, and visited the temple as laymen do to prostrate before the idol when passing the temple. Had the Swami's visit been to perform the puja himself, he would have had to undergo, as is well-known, certain elaborate ablutions, and dress himself differently. The Swami did not make these preliminary preparations because he never intended to perform the puja himself; and it is beyond doubt that he did not go nearer the idol than the Deputy Commissioner and numbers of others present did on this occasion, or Brahmin or Ursu gentlemen generally do when they visit the temple without the preliminary purification of bathing and change of clothes.

5. The Sri Parakala Swami has been doubtless misled by the alleged depositions of the *Archaks* given on the 18th June 1895, before certain persons styling themselves the representatives of the Vaishnava community. The Muzrai Superintendent will be directed to enquire whether the *Archaks* did really

give the depositions imputed to them and, after taking their explanation as to how they came to make statements so directly opposed to the truth, to take adequate notice of their conduct.

6. It is only necessary to add that the Sri Sringeri Swami's *mamul* route to Paschimavahini lay outside Sreerangapatam Fort. When near the Sreerangapatam Fort, the Swami allowed himself to be persuaded after the expression of considerable reluctance on his part to pass through the streets of the Fort at the earnest and pressing entreaty of the Deputy Commissioner Mr. B. K. Venkatavardaiengar and others present. Similar entreaty appears to have been used to induce the Swami, when within the Fort, to visit the temple. The Deputy Commissioner's action was doubtless prompted by a desire to please the people and to show proper consideration and respect to the Swami whom he was escorting to the Palace, and it is sufficient to point out to him that it was his duty to have obtained the previous orders of Government before deviating from the *mamul* route for such an occasion.

No. 151-61—Muz. F. 4-95, dated, Bangalore, 31st July 1895.

Order.—In 1881 a limited number of copies of the Final Ready Money Inam Registers was printed by the Inam Superintendent and supplied to the Deputy Commissioners for information and reference. But since 1881, the entries in these registers have undergone several alterations for the reasons noted below :—

(1) Several Devadaya grants which were resumed during the Inam Settlement owing to the disrepair of the Temple buildings have since been restored the institutions having been subsequently put in order.

(2) The settlement of Personal money grants, which had been confirmed for life only as per orders conveyed in the late Chief Commissioner's Proceedings No. 6423-4—P. 707, dated 27th February 1880, was directed to be revised on the lines laid down in a later Proceedings issued in July 1888; and accordingly many life grants have been converted into hereditary ones.

(3) Several grants have been transferred from one taluk to another. These transfers were made in some cases on account of the reconstitution of the taluks and their boundaries, and in others to serve the convenience of the institutions to enable them to draw money from the taluk treasuries of the same taluks in which those institutions are situated.

(4) Similarly the allowances of some of the Chattrams have been transferred either wholly or partially to others for various reasons.

(5) Of Personal grants confirmed for life only, many have lapsed by the death of the recipients.

2. Under the foregoing circumstances the Government consider it expedient to publish revised registers of Ready Money Inams payable in the several taluks as they now stand. The Muzrai Superintendent will have the revised registers compiled in his office and, after having the entries therein duly checked and verified by the Inam Superintendent with reference to his office records, issue the registers printed under his signature.

No. 151-61—Muz. F. 4-95, dated, Bangalore, 31st July 1895.

Order.—In 1881 a limited number of copies of the Final Ready Money Inam Registers was printed by the Inam Superintendent and supplied to the Deputy Commissioners for information and reference. But since 1881, the entries in these registers have undergone several alterations for the reasons noted below :—

(1) Several Devadaya grants which were resumed during the Inam Settlement owing to the disrepair of the Temple buildings have since been restored the institutions having been subsequently put in order.

(2) The settlement of Personal money grants, which had been confirmed for life only as per orders conveyed in the late Chief Commissioner's Proceedings No. 6423-4—P. 707, dated 27th February 1880, was directed to be revised on the lines laid down in a later Proceedings issued in July 1888; and accordingly many life grants have been converted into hereditary ones.

(3) Several grants have been transferred from one taluk to another. These transfers were made in some cases on account of the reconstitution of the taluks and their boundaries, and in others to serve the convenience of the institutions to enable them to draw money from the taluk treasuries of the same taluks in which those institutions are situated.

(4) Similarly the allowances of some of the Chattrams have been transferred either wholly or partially to others for various reasons.

(5) Of Personal grants confirmed for life only, many have lapsed by the death of the recipients.

2. Under the foregoing circumstances the Government consider it expedient to publish revised registers of Ready Money Inams payable in the several taluks as they now stand. The Muzrai Superintendent will have the revised registers compiled in his office and, after having the entries therein duly checked and verified by the Inam Superintendent with reference to his office records, issue the registers printed under his signature.

Correspondence ending with Government Proceedings, No. 3395—152, dated 15th July 1890, on the subject of the Balamuri Anna Chattram.

READ ALSO :—

Petition, dated 14th April 1895, from Mr. P. Raghavendra Rao, requesting that the Balamuri Chattram (mis-stated as Bannur Chattram in the petition) may be located in the building constructed by his father, the late Rai-Bahadur P. Krishna Rao, near the French Rocks Railway Station.

AND :—

The Muzrai Superintendent's Memo on the subject, dated 20th July 1895.

No. 197-8.—MUZ. F. 6-95, DATED, BANGALORE, 31ST JULY 1895.

ORDER THEREON.—The Balamuri Chattram, which receives an annual Tasdik of Rs. 1,227-12-0, has, for some years past, been temporarily located in the village of French Rocks except for two months in the year, when the Chattram is held in Rai-Bahadur P. Krishna Rao's building near the French Rocks Railway Station (3 miles from the village) for one month about the time of *Vairamudi Utsavam* at Melkote, and in Balamuri for one month in *Thulamasa*. Mr. P. Raghavendra Rao now requests that the Balamuri Chattram may be permanently located in his father's Chattram near the Railway Station.

2. Once in June 1889, Mr. A. Raghavendra Rao, then Amildar of Seringapatam Taluk, made a similar proposal to transfer the Balamuri Chattram to Rai-Bahadur P. Krishna Rao's Chattram near the French Rocks Railway Station, but the Government considered that the transfer was unnecessary.

3. The Government now observe that, with a Chattram at Seringapatam (known as Kirangur Chattram) and the Bale Urs' Chattram at Ballal—both within a short distance of French Rocks on either side—there exists no necessity for maintaining a separate Chattram at French Rocks. On the other hand it is reported that the Tasdik allotment to the Chattram at Seringapatam is found quite inadequate to meet the growing requirements of the large number of pilgrims and travellers visiting the place. The Government therefore deem it best to transfer the Balamuri Chattram now located in French Rocks to Seringapatam and amalgamate it with the Seringapatam Chattram, needful alterations being made to the Chattram building at Seringapatam to provide increased accommodation. The Deputy Commissioner of Mysore District will be instructed to carry out the same with effect from 1st September 1895.

4. Supplies for *Sri Vaishnava* travellers at Seringapatam should be daily given to the temple of Sri Ranganathaswami according to actual requirements to provide cooked food for them as has been done hitherto.

5. The special feeding of travellers conducted out of the Balamuri Chattram funds for a month at Rai-Bahadur P. Krishna Rao's Chattram in French Rocks on the occasion of the *Vairamudi Utsavam* at Melkote and for another month in *Thulamasa* at Balamuri will, however, continue as heretofore.

PUBLIC WORKS.

Proceedings of the Government of Mysore,

READ :—

Letter No. 213 of 31st October 1894, from the Sanitary Engineer with Government submitting a project amounting to Rs. 33,750 for the water-supply of the town of Chintamani, Kolar District.

(2) Public Works Secretary's Memo, dated 24th December 1894, submitting the project with certain observations to the Dewan of Mysore.

No. 624-29—3288-93, DATED, BANGALORE, 2ND JULY 1895.

ORDER THEREON.—The Government observe that the scheme proposed in the above is needlessly elaborate. It should be reduced and restricted to the marginally noted two items. An abstract estimate providing for them is accordingly sanctioned for Rs. 16,295. The Sanitary Engineer's attention is, however, drawn to the Chief Engineer's remarks on the project, copy of which is herewith forwarded for information and attention.

	Rs.
(1) Restoring and enlarging Kanamagunta tank, including compensation for land.	11,737
(2) Contour channel from above tank to existing masonry conduit from present Karanji tank.	4,558
Total ...	16,295

2. The existing wells in the town (one descending and two draw-wells) should be fed from the Karanji tank so long as the supply in it lasts, and afterwards from the enlarged Kanamagunta tank.

3. These works should be executed by the Executive Engineer, Kolar Division, but treated for financial purposes as belonging to Part I of Sanitary Works Budget, half the cost of the scheme being grant-in-aid to the Municipality, and the other half recoverable loan for the repayment of which proper agreement as prescribed in Proceedings No. 3916-36—749-69, dated 1st August 1894, should be obtained and forwarded before commencement of work.

Letter No. 1994—M. 3 of 4th June 1895, from the First Assistant to the Resident in Mysore, forwarding copy of a letter Cir. No. 7—68-2, dated 6th May 1895, from Government of India in the Revenue and Agricultural Department on the subject of communication to the Surveyor General of India of changes in physical features, &c., ascertained by Cadastral Surveys for correction of topographical maps.

No. 655-77—3480-502, DATED, BANGALORE, 9TH JULY 1895.

ORDER THEREON.—The present practice under which the Local Public Works Department communicates to the Surveyor General of India all alterations from time to time required to be entered in the sheets of the Topo. Survey of Mysore will be continued.

2. The appended Circular letter from the Government of India (Department of Revenue and Agriculture) No. 7—68-2, dated 6th May 1895, will be communicated to the Superintendent of Revenue Survey, the State Geologist, the Deputy Commissioners and Executive Engineers, with a request that they will communicate to the Secretary, D. P. W. all changes of the kind referred to in the above quoted Circular letter of the Government of India which may come under their observation and require to be entered or altered in the published Topo. sheets.

"Government of India Circular No. 7—68-2, dated 6th May 1895."

"It has been brought to the notice of the Government of India that considerable portions of the country are periodically being brought under Survey for the purposes of Provincial Administration, but that advantage is not taken of this work to keep corrected up to date, so far as material is available, the topographical maps which have been prepared by the Survey of India Department."

2. "I am accordingly to request that, whenever local surveys are undertaken, the officer in charge may be instructed to compare his results with the topographical survey sheets of the tract under survey and to communicate the results to the Survey Department wherever a change in physical features is apparent, or where new main village sites (excluding subsidiary hamlets) have been founded, or new railways, roads, canals, or similar major works have been constructed, and do not find a place upon the topographical survey sheets."

3. "As the arrangements for survey differ from Province to Province, the manner in which the information will be most conveniently supplied should be settled in direct communication with the Surveyor General."

RAILWAYS.

Proceedings of the Government of Mysore.

READ :—

Note dated the 22nd of June 1895, from the Secretary to the Government of Mysore for Railways, submitting for sanction a revised abstract estimate amounting to Rs. 67,675 for saloon carriages ordered for the State.

No. 726-3—R., DATED, 1ST JULY 1895.

ORDER THEREON.—The amount originally sanctioned for the work is Rs. 50,400, and that of the revised abstract now submitted is Rs. 67,675 or Rs. 17,275 more than the former. The excess is accounted for as mainly due to the alterations in design and additional works incidental thereto, also to loss in exchange. Under these explanations the Government sanction the revised abstract estimate amounting to Rs. 67,675, necessary provision having been made in the Railway budget for the last official year.

2. The Comptroller, Government of Mysore, will arrange to pay into the Resident's Treasury to the credit of the Southern Mahratta Railway Company a sum of Rs. 3,959, being the excess amount due for fitting up the saloon at Hubli.

By order,
C. BOWEN, COL.,
Secretary to the Govt. of Mysore for Railways.

Railway Secretary's Note, dated the 28th of June 1895, submitting for sanction Budget Estimate for general charges for the year 1895-96.

No. 785-5, DATED, BANGALORE, 16TH JULY 1895.

ORDER THEREON.—The actuals under Direction and Accounts for the past official year have been Rs. 26,204, and the estimate for current year gives cover to only Rs. 7,500. The large difference is explained as due to the reduction of superfluous hands. The Budget Estimate for the current official year amounting to Rs. 7,500, which provides for only such establishment as is actually needed is sanctioned.

2. Since the Budget was framed the services of an additional hand to do the duties of a Diarist, &c., have been found to be necessary, and a Clerk on a salary of Rs. 25 a month may be entertained temporarily for the purpose, the cost thereof being debited towards the Budget Estimate now sanctioned.

3. It should be noted here that no provision has yet been made for Capital charges including Construction during the year. This is a matter requiring further consideration, and is therefore held in abeyance for the present.

4. A copy of Budget Estimate accompanies this proceedings.
